HELIX WHEAT CROP

HEAVIEST YIELD IN HISTORY OF THE COUNTY.

One Warehouse Has Hauled 139,500 Bushels and 175,000 Bushels Will Probably Be the Season's Record—Most of the Helix District Averaged 35 Bushels Per Acre—Wheat Sent East is Shipped in Bulk, That for the West in Sacks.

Helix, Sept. 23.—Helix has harvested the largest wheat crop in its history and is now anxiously awaiting rain.

The Balfour Guthrie warehouse had received up to the close of work on September 20, over 62,000 sacks or to express it in bushels, 129,500 bushels.

Luke Holmes, the foreman of the warehouse, in speaking of the wheat receipts, said: "We will receive by the close of the season about 80,000 sacks. This means that the warehouse here at Helix, which is one of the largest in Umatilla county, will probably receive more wheat than any other single warehouse in the county."

"I believe it is safe to say that this year's crop is the largest ever raised in the vicinity of Helix. You might safely state that the yield was from 35 to 45 bushels per acre. Of course, some fields went as low as 25 bushels, but on the other hand, some went over 50."

Take John Timmerman's field of 500 acres for instance. It averaged 35 bushels. We have only shipped four cars of wheat west, they went to Tacoma, the rest, about 20,000 sacks, being shipped in bulk to New York.

"The cars average about 500 sacks to the car. The wheat is received from the farmers sacked. By means of a gasoline engine and a carrier the sacks are elevated to a hopper. Here a man cuts the sacks open and the wheat is emptied from the hopper into the box car with a 7-inch pipe. Double doors are put on the cars to prevent loss of wheat in transit."

"The sacks which accumulate in the warehouse will be shipped for sale to farmers in Columbia county who raise barley. The reason that wheat for western shipment is left in sacks, while that for the east is sent in bulk, is that in shipping from a western seaport such as Portland or Seattle, the vessels must encounter the rough voyage around the Horn."

"If the wheat is in bulk it is more apt to shift and founder the ship so insurance companies refuse to insure a ship loaded with bulk wheat for a voyage around the Horn."

"Wheat which goes east is handled through elevators, hence must be shipped in bulk or the sacks opened at the eastern terminal. This year the farmers have lots of money that means that trade of every kind will be good. It means a prosperous fall and winter for the business men."—Fred Lockley.

Sutton Repertoire Company.

The Sutton Repertoire company, which comes to the Frazer for three nights next week, September 26, 27 and 28, is meeting with phenomenal success all along the route from the East. The train robbery scene it presents from the moving picture machine is the best scene ever presented to an audience from a picture machine.

"For Her Sake."

There is a certain magic in the very name Siberia, and when it figures in a play the theatergoer is assured at least of thrilling situations and picturesque scenic effects. "For Her Sake," the play which comes to the Frazer Thursday, September 29, is an attraction of this sort, and the promise is for one of the genuine novelties of the season at this popular theater.

No Governor Nominated.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, it requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J.
