Opera House Block.

THE DUST

That got into your watch during the summer is doing the little machine much harm. Now is the time to have it cleaned, oiled and put in shape for another year. We would like to do the work for you—it will be done right.

GLENN WINSLOW
JEWELER AND OPTICIAN.
Postoffice Block.

"KNOCKED THE STUFFING OUT OF IT" and broke it into splinters, may have been the fate of your carriage when it was run into by something; but "there is balm in Gilead," or there is pleasure in knowing that in our shop you can have it made as good as new. We do all kinds of carriage repairing and blacksmithing in a skillful and superior manner. We set tires with hydraulic pressure; does it better, does it while you wait; does not burn or deface your wheels and adds to the life of the rig. Call and see it work. We have Winona wagons, hacks and buggies, and Stover gas-line engines.

PIONEER BOTTLING WORKS

All water used is sterilized and is absolutely pure. The best carbonated drinks it is possible to make. Telephone Main 951.

THE CAREY LAND ACT HAS NOT EXPIRED

That the Carey land law has not expired by limitation as has been supposed, is shown by the following correspondence between the Oregon state land board and the general land office. The Salem Statesman says:

The state land board held a meeting yesterday to consider the application of a company in Eastern Oregon for the withdrawal of abstract of 11,766 acres of arid land in The Dalles district, not far from Prineville, under the Carey desert land act as passed by congress in 1894 and amended at various times since.

The state land board formed the idea that the so-called Carey irrigation land act, which provides for the reclamation of certain lands in the state of Oregon which are known as arid lands, expired by limitation on the 17th of August last, and that such expiration shut the state out from any further withdrawal privileges thereunder. With this idea in view, on August 13, and again on September 6, Clerk of the State Land Board G. G. Brown, wrote the commissioners of the general land office asking if the "Carey Act" expired by limitation on August 17, 1904, and that application for lands to be selected under this act will be accepted by the local land offices after that date.

To this Acting Secretary of the Interior Thomas Ryan writes from Washington under date of September 27, inclosing the following letter from Commissioner W. A. Richards, in which the secretary concurs.

"By reference of the acting secretary for report, I am in receipt of a letter from Mr. G. G. Brown, etc., asking whether the time for filing applications under the act of August 18, 1894.

"In reply I have to report that section 4 of the act contains no provisions as to the period in which applications thereunder should be filed. The only limitation named therein is that the state should cause to be irrigated, reclaimed and occupied, not less than 20 acres of each 160-acre tract, cultivated by actual settlers within 10 years after the passage of said act.

"A portion of said act was amended by the act approved June 11, 1896 (29 statute 413), by dispensing with proof of settlement and cultivation as a preliminary to the issuance of patent, and the limitation as to the time for making proof was modified by

section 3 of the act of March 3, 1901 (31 statute 1133), which extends the time in which the state was allowed to irrigate and reclaim the land.

"The department in the regulations issued under the act as so amended, has determined that 'The effect of this provision is to allow 10 years for the irrigation and reclamation of each body of land segregated the time to run from the date of the approval of the segregation.

"It also authorizes the secretary of the interior in his discretion to extend the time for irrigating and reclaiming the land, to a period of five years. In accordance with such construction, no limit of time under the present law, in which the state may apply for the selection and segregation of land under section 4 of the act of August 18, 1894, and acts amendatory thereof."

This decision gave a good deal of satisfaction to the state land board, and as there were a good many applications for withdrawal of these arid lands from settlement for irrigation purposes.

The law sets forth that the state shall have power to sell or dispose of no more than 160 acres to any one person, but the plan usually adopted is to withdraw the lands and then let a company make arrangements for the reclamation of the land, and then after this is done the lands are sold out in lots not exceeding 160 acres in extent in conformance with the law.

The Squaw Creek Irrigation Company of Prineville, is one of the concerns immediately interested under the commissioner's decision, and yesterday the state board made application to the United States land office at The Dalles for the withdrawal of 11,766.84 acres of land located in that district for irrigating purposes for this company. The company represents to the state that it has 12 miles of canal now in operation supplied by the waters of Squaw Creek, and they apply for the lands for the purpose of reclaiming them by irrigation.

The state, in compliance with the law, ordered that the clerk forward a map of the lands to be withdrawn for reclamation by the Squaw Creek Irrigation Company to the land office at The Dalles yesterday, together with the formal application for its withdrawal.

TOBACCO MERGER.

Actual Union of Three Big Concerns Takes Place Today.

New York, Sept. 30.—As the consummation of the plan initiated when the Consolidated Tobacco Company came into existence three years ago for the purpose of acquiring the Continental and American Tobacco Com-

panies, the stockholders of the three companies held meetings today to ratify the plan of the directors for the actual merger of the three concerns into one company, to be called the American Tobacco Company.

The merger plan provides for the conversion of the stock of the Consolidated Tobacco Company (\$40,000,000) and the American common

stock and Continental common stock not held by the Consolidated Tobacco Company (\$242,450) into the common stock of the new company at par.

Canada's Wheat Crop Good.

Ottawa, Ont., Sept. 30.—Based on official reports Minister of the Interior Clifford Sifton has issued the following statement regarding crop conditions in the Dominion: "I am now able to state definitely that under conditions of unusual difficulty in the Northwest a fair average crop of wheat of good quality has been reaped and is now secure from substantial damage. The reports of injury by frost and rust were grossly exaggerated. The wheat of Manitoba and the Northwest Territories will aggregate from 55,000,000 to 60,000,000 bushels."

"Prince of Pilsen" Coming Home.

London, Sept. 30.—After a run of 19 weeks at Shaftesbury theater, "The Prince of Pilsen" concludes its engagement tonight and the company will return at once to America. "We are perfectly satisfied with our London engagement," said Manager H. H. Canby, "but we have a more promising outlook at home. We have run steadily through the hot weather with two matinees a week and made gains when we expected a slump. The theory that American humor is too thick for English audiences has been disproved by 'The Prince of Pilsen.'"

Cannon's Tour in Iowa.

Des Moines, Iowa, Sept. 30.—Beginning with a meeting in Des Moines tonight Speaker Cannon will be kept busy in Iowa during the next few days. Tomorrow he will make a number of rear platform speeches in the "second congressional district," winding up with a night meeting at Davenport. The tour will be resumed Monday and will conclude in the evening with a meeting at Clinton.

Soldiers' New Club House.

New York, Sept. 30.—The new club house on Governors island was formally opened today with a farewell reception given to Major General Corbin by the army officers in the Atlantic division, which he is about to leave to assume command in the Philippines. Gen. Frederick D. Grant, who succeeds General Corbin at Governors island, attended the reception.

Bucklen's Arnica Salve.

Has world-wide fame for marvelous cures. It surpasses any other salve, lotion, ointment or balm for cuts, corns, burns, sores, felons, ulcers, tetter, salt rheum, fever sores, chapped hands, skin eruptions; irritable for piles. Cure guaranteed. Only 25c at Tallman & Co., druggists.

Count Sergis Tolstol, brother of the famous author, Leo, is dead at Moscow.

AGENT TO BE EERE

MILWAUKEE RAILROAD TO ESTABLISH OFFICES.

Pendleton to Be Headquarters for Representative of Chicago, Milwaukee & St. Paul—Freight and Passenger Agent for Inland Empire—May Mean the Extension of That Line into the Northwest From Present Terminal at Chamberlain, South Dakota.

Agent the reported extension into the Northwest directly of the Chicago, Milwaukee & St. Paul railroad, comes the news from an undoubted source, that the system will maintain a Pendleton resident freight agent in the person of F. R. Hanke. Mr. Hanke was in Pendleton recently and made arrangements for the equipment and maintenance of an office in this place.

The present western terminals of this road are now at Everts and Chamberlain, both points being in South Dakota. East of that meridian the system has 6608 miles of road in actual operation, tapping all the more important producing districts of Wisconsin, Northern Illinois, Iowa, Minnesota, South Dakota and Northern Missouri. Within the territory described it has terminals at Kansas City, Omaha, Chicago and Duluth.

The announced purposes of the managers of this system are to invade the Northwest and reach the coast via Spokane, or a more southerly route, perhaps, and thence eventually southward into California. Immediately, as indicated, it will begin bidding actively for the trade of the Inland Empire, through an agent resident at this place, who will travel into all parts of Eastern Oregon and Eastern Washington, and the northern and two-thirds of Idaho in pursuit of business for his road from its nearest connections in South Dakota eastward.

\$100 Reward \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

PUZZLED.

Orlando—I have often asked myself the question, what you could ever have seen in me to love?
Rosalind—What a strange coincidence! I have often asked myself that very same question.

COOKS ARE TOO HARD TO GET.

"I caught my husband kissing the cook last night."
"Did you discharge her?"
"No; I'm going to get a divorce."

Good Dry Wood

ALL KINDS
I have good, sound wood which is delivered at reasonable prices
