

Refreshing and Healthful

The City Brewery Bottled Beer.

The greatest summer drink. It goes right to the spot. Always have this superior beer in your home. It gives youth and vigor to your tired system. Physicians recommend beer that is pure. City Brewery Bottle Beer is always good and always the same. It is made in Pendleton and not subject to changes of temperature in being shipped. Put up in quarts, pints and half pints, and delivered in any quantity desired. Bottling Works telephone 1771. Residence telephone 1831.

THE SMILE OF SOLID SATISFACTION.

that o'er spreads the faces of our pleased customers, when they put to the test a sample of our superb laundry work, is a smile that never fades, because under all circumstances our work is always up to the highest standard of excellence. No rough edges on your collars or cuffs, no blisters on your shirt fronts, no dirt that is not thoroughly washed out, and no broken promises in delivering finished work.

DOMESTIC STEAM LAUNDRY.

"KNOCKED THE STUFFING OUT OF IT."

and broke it into splinters, may have been the fate of your carriage when it was run into by something; but "there is balm in Gilead," or there is pleasure in knowing that in our shop you can have it made as good as new. We do all kinds of carriage repairing, and blacksmithing in a skillful and superior manner. We set tires with hydraulic pressure; does it better, does it while you wait; does not burn or deface your wheels and adds to the life of the rig. Call and see it work. We have Winona wagons, hacks and buggies, and Stover gasoline engines.

SANITATION SENSE

MORE DANGER IN SCARE THAN IN TUBERCULOSIS.

Demonstrated That Bacilli Can Best Be Combated by Healthful Surroundings and Wholesome Food—Keeping Up the General Average of Vitality the Most Potent Resistant of the Dread Disease.

It has scarcely escaped recollection that this journal (the Breeders' Gazette), very vigorously combatted the extremists among the scientists who sought to scare people into the belief that tuberculosis is to be classed with the diseases which ordinarily prove contagious, such as small-pox, scarlet fever, diphtheria, measles and others which humanity has long since known to be "catching."

We reiterated time and again that if tuberculosis carried similar contagion the human race would have been wiped off the face of the earth centuries ago. We demanded that these alarmists face the known facts of human experience; that they have regard for the natural protection afforded by a physical vigor and healthy mucous membranes. We charged that they utterly disregarded the natural prophylaxis and averred that the healthy mucous membrane affords no habitat for the germ of tuberculosis.

Dr. Walter Wyman, surgeon general of the United States marine hospital service, is thus quoted:

"We have lately been compelled to modify some of our notions of the cause of contagious and infectious diseases. After the brilliant discoveries by Pasteur and Koch it was thought the presence of the pathogenic micro-organism was like the bite of a venomous snake, surely poisonous. But now we know there are other conditions necessary to produce disease. Many people go about carrying disease germs which do not develop and produce sickness. Why? Because their system is vigorous enough to prevent it; but put such a person under bad sanitary conditions or depress his vitality and the microbes get to work, cause disease and death may follow.

"Many people live a long and active life with tubercle bacilli encysted in the apex of one lung. As long as they have plenty of fresh air and sunshine and good sanitary surroundings they remain well. But give such a person poor food or bad sanitary surroundings and the cells die and the victorious bacilli spread havoc through the lungs. We find that the conditions of health which result from such good sanitary conditions are after all, among the very best preventives against disease."

And this is a reversion to the position so persistently maintained by this journal—that health and sanitation fairly bid defiance to the germs of tuberculosis.

The fallacious theory on which the crusade has proceeded was a very beautiful one. It was bacteriology run mad. Bacteriology was suddenly born from Koch's mouldy bread—the science of discovering, staining, cultivating and identifying the micro-organisms that are present in numbers of diseases, and in the paroxysms of first discovery joy bacteriologists

We Paid \$100,000

For Ligozone—Yet We Give You a 50c. Bottle Free.

This Company, after testing Ligozone for two years in the most difficult germ diseases, paid \$100,000 for the American rights. That is by far the highest price ever paid for similar rights on any scientific discovery.

We publish this fact to show you the value of Ligozone. Men of our class don't pay a price like that save for a product of remarkable worth to humanity.

Kills Inside Germs.

The reason for that price is this: Ligozone alone can kill germs in the body without killing the tissues too. Nothing else in the world is so good for the human body; yet Ligozone is a germicide so certain that we publish on every bottle an offer of \$1,000 for a germ that it cannot kill. Ligozone destroys at once and forever the cause of any germ disease. And there is no other way to do it. Any drug that kills germs is a poison, and it cannot be taken internally. Medicine is helpless in troubles of this kind.

Not Medicine.

Ligozone is not made by compounding drugs. Its virtues are derived solely from gas, made in large part from the best oxygen producers. By a process requiring immense apparatus and 14 days' time, this gas is made part of the liquid product. Ligozone has, for more than 20 years, been the con-

stant subject of scientific and chemical research.

The result is a product that does what oxygen does. Oxygen is the very source of all vitality. The most essential element of life. Ligozone is a vitalizing tonic with which no other known product can compare. Its effects are exhilarating and purifying. But germs are vegetables; and Ligozone—like an excess of oxygen—is deadly to vegetable matter.

Ligozone goes wherever the blood goes, destroying every germ in the body. In this way it cures diseases which medicine never cures. It will do more for sick humanity than all the drugs in the world combined.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Ligozone kills the germs, wherever they are, and the results are inevitable. By destroying the cause of the trouble, it invariably ends the disease, and forever.

All diseases that begin with fever—all inflammation—all catarrh—all contagious diseases—all the results of impure or poisonous blood. In nervous debility Ligozone acts as a vitalizer, accomplishing what no drugs can do.

50c. Bottle Free

If you need Ligozone, and have never tried it, please send us this coupon. We will then mail you an order on your local druggist for a full-size bottle, and we will pay your druggist ourselves for it. This is our free gift, made to convince you; to show you what Ligozone is, and what it can do. In justice to yourself, please accept it to-day, for it places you under no obligation whatever.

Ligozone costs 50c. and \$1.

CUT OUT THIS COUPON

For this offer may not appear again. Fill out the blanks and mail it to the Ligozone Co., 438-460 Wabash Ave., Chicago.

My disease is.....
I have never tried Ligozone, but if you will supply me a 50c. bottle free I will take it.

Any physician or hospital not yet using Ligozone will be gladly supplied for a test.

sought to turn the world upside down. They isolated germs and by forcible inoculation gave the disease to rabbits, mice and guinea pigs; ergo, it was a contagious disease! It was very simple.

They seemingly refused to consider the defenses against infection that nature has set up, the self-preservation which is nature's first law. But the march down hill has begun. Let us halt the return to reason. Fight tuberculosis with sanitation. Its spread can be checked and its final eradication probably effected by this simple method.

Recovering Speech and Hearing.
Messrs. Ely Bros.—I commenced using your Cream Balm about two years ago for catarrh. My voice was somewhat thick and my hearing was dull. My hearing has been fully restored and my speech has become quite clear. I am a teacher in our town.

L. G. BROWN, Granger, O.
The Balm does not irritate or cause sneezing. Sold by druggists at 50 cents, or mailed by Ely Brothers, 56 Warren street, New York.

Blankets Washed.
Commencing September first, blankets will be washed at the Pendleton Woolen Mills, at the following prices: White blankets, \$1.00 per pair. Colored blankets, 75c per pair. Indian robes, 50c each.

Blankets and robes must be delivered and called for by owners, and paid for upon delivery.
