### GIGANTIC SYSTEM UNCOVERED BY POLICE.

#### Bell Boys of New York in Partnership With Thieves Who Send the Loot to Distant Cities to Be Disposed of by Confederates—Regular Chain of Thieves and Pawnbrokers Engaged in the Robbery of Rooms.

New York, Oct. 10.—In investigating mysterious thefts at the Metropole Hotel, Captain Cotterell, of the tenderloin station last night unearthed a system of stealing at hotels that has grown to startling proportions throughout the country.

During the next 48 hours the police of the big cities, informed of the new system of plundering, will be solving mysterious hotel thefts that previously baffled them.

Letters found on Arthur Frazer, a bellboy of the Metropole, arrested in connection with numerous thefts, developed the fact that Vernon Lobard, a bellboy in the Washington Hotel, St. Louis, had forwarded to him more than \$1000 worth of jewelry to be disposed of in pawnshops in this city, the money to be sent to St. Louis. Other letters pointed to the fact that Frazer may have expressed valuables to Lobard to be pawned in St. Louis.

This system may explain the remarkable thefts of the Waldorf-Astoria, and already with the key to the solution of the thefts, the detectives at the Waldorf again are searching for the thieves. The plunder from the Waldorf-Astoria, the police believe, was sent to Philadelphia or Chicago and possibly to St. Louis to be pawned.

There has been an epidemic of hotel thieving in various parts of the country for a long time. The police have watched the pawnshops of the city without finding any trace of the plunder. Now the exposure of this new wrinkle in hotel thievery, suggests that New York is being made a clearing house for the hotel thieves all over the country.

#### LOVES SENATOR CLARK.

#### Young Woman of Pasadena Was Engaged to Montana Statesman.

Pasadena, Oct. 10.—The attitude of Miss Hattie Laube, the young woman whose engagement to Senator Clarke of Montana was announced some 700 miles over a year ago, augurs anything but peace to that millionaire.

Miss Laube has for some time been living in Santa Monica with her parents and has given up all public work. Monday afternoon the family

removed to a home in Los Angeles, where the young lady will await developments.

This young woman, at the time of her acquaintance with Senator Clark, about three years ago, was active in campaign work, and she also enjoyed the distinction of being the only girl speaker for McKinley and Hobart in 1896.

She is of pleasing personality, being both good looking and intellectual. The young lady refuses to divulge her contemplated methods of procedure, but she has declared enough to make matters look interesting for the future of Mr. Clark and his more recent protege.

#### Missionary Meetings in Boston.

Boston, Mass., Oct. 10.—A lively interest is displayed in the big missionary mass meeting to be held in Tremont temple tonight as a feature of the Episcopal general convention now in session. Among the leading churchmen who will speak are the Archbishop of Canterbury, the Right Rev. John McKim, bishop of Tokio; the Right Rev. Samuel D. Ferguson of West Africa; the Right Rev. Frederick R. Graves, bishop of Shanghai; the Right Rev. Charles H. Brent, bishop of the Philippines; Bishop Lucien Lee Kinsolving of Southern Brazil, and Bishop Peter T. Rowe, of Alaska.

#### Master Horse Shoers.

Detroit, Mich., Oct. 10.—Several hundred delegates assembled at the Hotel Cadillac today for the thirteenth annual convention of the Master Horse Shoers' International Association. The association, which was organized 12 years ago, has branches throughout the United States in two of the Canadian provinces and in Hawaii, and is regarded as one of the strongest labor organizations in America. The present convention will cover four or five days and will be devoted to the discussion of a number of matters of great importance to the craft.

#### Militia Officers on Trial.

Savannah, Ga., Oct. 10.—The court martial to try Captain R. M. Hitch and Lieutenants Moll, Morrison, Griener and Cone on charges growing out of the recent burning of the negroes, Cato and Reid, at Statesborough, convened in Savannah today with Judge Advocate Napier presiding. The charges against the accused militia officers include gross neglect of duty, inefficiency and misbehavior, and conduct to the prejudice of good order and military discipline.

#### Play by T. B. Aldrich.

Boston, Mass., Oct. 10.—An event of much interest to playgoers is the initial production of the "Tents of Assur" at the Tremont theater tonight. The play is the work of Thos. Bailey Aldrich and treats of ancient Biblical times. Miss Nance O'Neil will have the principal part in the performance.

# We Will Buy

### A 50c. Bottle of Liquozone and Give it to You to Try.

Liquozone is the only way known to kill germs in the body without killing the tissues, too. It is the only way to end the cause of any germ disease. It is also a vitalizing tonic with which no other known product can compare. It is new in America, and millions who need it don't know of it. For that reason, we make this remarkable offer. We will buy the first bottle and give it to you if you need it. We will do this gladly to let the product itself show you what it can do.

#### We Paid \$100,000

For the American rights to Liquozone—the highest price ever paid for similar rights on any scientific discovery. We did this after testing the product for two years, through physicians and hospitals, in this country and others. We paid it because Liquozone does what all the skill in the world cannot do without it. Any drug that kills germs is a poison, and it cannot be taken internally. Every physician knows that medicine is almost helpless in any germ disease.

#### Not Medicine.

Liquozone is the result of a process which, for more than 20 years, has been the constant subject of scientific and chemical research. Its virtues are derived solely from gas, made in large part from the best oxygen producers. By a process requiring immense ap-

paratus and 14 days' time, these gases are made part of the liquid product.

The result is a product that does what oxygen does; and oxygen is the very source of vitality, the most essential element of life. The effects of Liquozone are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill. The reason is that germs are vegetables; and Liquozone—like an excess of oxygen—is deadly to vegetable matter. That is why Liquozone kills every disease germ, and with a product which to the human body is life.

#### Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquozone kills the germs, wherever they are, and the results are inevitable. By destroying the cause of the trouble, it invariably ends the disease, and forever.
