Taitinger Is Not Lost.
 The report that Nick Taitinger, who removed from near Athena to Alberta a year ago, had been lost and perished in a blizzard in Canada, proves to be unfounded. Frank Martin, who has just returned from Alberta, has heard from Mr. Taitinger since the blizzard was reported to have swept over the country, and Henry Wright, of Athena, a brother-in-law of Mr. Taitinger, has also heard from him recently. G. W. Rigby received a letter from Taitinger written on December 29, in which he said the weather was mild, although it has been as low as 20 below zero, but had moderated and was on that date 50 above zero.

Schools Are Writing Letters.
 Superintendent Frank K. Welles today received reports from two more outside districts in which the letter writing campaign is progressing. Miss Hensle McDonald, of Athena, reports that 17 scholars, every one present on the day in which the letters were written, wrote a long letter to a friend in the East, concerning Oregon and the Lewis and Clark fair. Mrs. Florence Kelley, of Milton, reporting on her room, says 35 scholars have written from one room, and Prof. Salt reports that 23 have written from his room at Milton. Superintendent Welles is well pleased with the results and hopes to receive reports from every district in the county.

PORTLAND LEADS COAST.

Wheat Shipments From Oregon Metropolitan for 1904.
 Portland, Jan. 4.—According to a statement prepared by the merchants' exchange, more wheat was shipped from Portland during the month of December than from any other port on the Pacific coast.

Including 117,225 bushels sent to California, the total amount to leave this port within the past 30 days reaches 408,394 bushels; 265,169 bushels went to Europe, 10,230 to Africa, and 15,889 to the Orient.
 In the same period 132,541 barrels of flour were shipped to the various parts, of which 89,429 barrels went to the Orient, 25,250 to Africa, and 18,862 to California.

In December all the ports combined on Puget Sound dispatched but 218,875 bushels of wheat to foreign and domestic ports, or 159,429 bushels less than were sent from Portland. Of the shipments in this line from the north, 112,216 bushels went to Europe, and 106,659 bushels were shipped to California. The sound shipped 148,837 barrels of flour, of which 115,574 barrels went to the Orient, 12,955 to South America, and 21,208 to California.

Compared with the corresponding period of 1903, the shipments of wheat and flour for the month are much lighter. In December, 1903, there were sent from the Columbia river 756,352 bushels of wheat and 182,539 barrels of flour.

The sound shipped more wheat but less flour in December, 1904. The decrease of the business at Portland is due to the high price of wheat in Chicago and other eastern centers, and to the war in the Far East. When hostilities are ended in the Far East, greater quantities of flour will be exported from Portland than ever before. Because of this belief, it is said the Portland & Asiatic Steamship Co. is making arrangements for adding a couple of more steamers to its fleet.
