F. S. BRAMWELL GIVES RESULTS IN GRAND RONDE.

Cleared \$2978 From 134 Acres Sugar Beets—The Land in Question Was Light, Sandy Soil, Like Thousnds of Acres in the Butter Creek terested in the subject Writes to Sugar Beet Expert for Results-Sugar Factory May Come to Umasilla County.

That winter irrigation pays, even valley, has been demonstrated beyond any doubt by the members of the Amaigamated Sugar company, at La Grande.

F. S. Bramwell, manager of beet fields for the La Grande sugar factory, has written Colonel R. C. Judson, industrial agent of the O. R. & N., the following almost sensational letter, giving actual results of winter irrigation on a sandy tract near the city of La Grande.

The land in question is light, sandy soil, exactly like thousands of acres in the Butter creek district, which can be flooded in winter while not a drop of water is available for it in the summer season.

This letter is worthy of deep study and consideration by Butter Creek farmers who have land that is not yet seeded to alfalfa. The result of beet raising on arid land, as given here, should encourage the people this county to grow beets until a factory is built here for them. The right kind of an effort will bring the factory here. Mr. Bramwell's letter is

La Grande, Or., Jan. 3, 05. Col. R. C. Judson, Portland, Or.

My Dear Colonel:-I beg to give you the information asked for as to my experiments in the matter of "winter irrigation," and it gives me great pleasure to do this for the reason that I am able to give you such glowing reports.

Two winters ago I found a farm nat to me seemed ideal beet land, but for which no water, or at least little water could be had excepting during the early spring. I put man on this farm (which lies about three miles southeast from this city) and we partially filled the soil with water, but my man kept at me that I was "drowning" the land and that the beets would fail to make.

## GALLOWS MOVED TO POOR FARM

Has Lain in Court House Bases Since Hanging of Zorn.

From a machine of death to furnishing material for the erection of a lien house on a poor farm, is the fate of the old scaffold that has lain for a decade in the basement of the county court house. This morning a teamster from the county poor farm loaded up the ordinary looking planks and timbers that have such a grue-some history, and, using the old trap-for a seat, clattered away.

The scaffold was built for the hang-ing of Frederick Zorn, a wife mur-derer and the last criminal to pay the death penalty in Umatilla This was under Sheriff W. J. Furnish After the hanging the gallows were taken apart and stored away. But all hangings now take place at the state penitentiary, and a new chicken house being needed at the poor farm, the county court has resolved to use up the old lumber. HAIR TONIC FAKE.

#### The American Farmer the Best in the World.

The American farmer is the greatest man

The American Farmer the Best in the World.

The American farmer is the greatest man in the world to-day because he is master of the soil—he is gaining in intelligence quite as rapidly as his products are increasing in magnitude. Our recent combines of capital in United States measured in money are enormous, yet such figures sink into insignificance when compared to the money brain and brawn invested in agricultural industries. For instance, the farmers of Minnesota and Dakota have received \$400,000,000 for their products in a single year. The farmer knows what Nature will bring forth for him from his experience in the past. He knows if certain seeds are planted and properly cared for that Nature will take care of the rest. In the same way you are master of your own of destiny. Providing your blood is in good order, it only needs a little effort on your own part to keep healthy and strong—rid your body of the poisons that are apt to accumulate and your system is ready to ward off the attack of the germs of disease. Dr. Pierce's Golden Medical Discovery makes rich red blood corpuscles. There is no alcohol in this great tonic to shrivel up the red blood corpuscles. There is no alcohol in this great tonic to shrivel up the red blood corpuscles. As an alterative extract, made only of herbs and roots it goes about its work in nature's way. It simulates the liver into proper action, and feeds the worn-out nerves, stomach and heart on pure blood. Used for over a third of a century it has sold more largely than any other blood medicial in the United States. More bottles of Dr. P. erce's Golden Medical Discovery are sold to-day than ever before—that is a true lest of its medicinal value after thirty-eight years of deserved popularity.
