RATE ADJUSTMENT

BASIS OF FREIGHT RATES ON WOOD IS CHANGED.

Hereafter Wood in Closed Cars Will Be Measured and Shipper Will Pay for Actual Amount Hauled—Old Rate Allowed Shippers to Load More Wood on a Car Than They Were Required to Pay for—Change Should Not Effect Price of Wood to the Consumer.

A change in the basis of freight rates on wood from Blue mountain points to this city, has been made by the O. R. & N., and while the company will realize full returns for the service rendered, it is not thought that the change will effect prices of wood to the consumer.

The present wood rates were made when the cars were small and no change has ever before been made in the basis of the rates, while the size of cars has constantly increased.

The company fixed the rates several years ago, as follows: All 34-foot box cars, 11 cords; 36-foot box cars, 14 cords, and furniture cars and other large, closed cars, 18 cords, and fixed the price at \$1.25 per cord, from Blue mountain points to this city.

No agent of the company could charge more for cars of these designated capacities, although he knew they carried more wood than designated in the rate sheet for cars of the given sizes.

The result has been that as the cars were widened and made higher, it has been possible to ship as many as 14 cords in a car designed as an 11-cord car, and the shippers have been securing free transportation on a large amount of excess wood loaded into new and larger cars, which came under the old regulation.

This new basis of freight rates on wood now specifies that agents shall measure the actual load on every car, and charge the shipper for the amount of wood each car contains, without regard to its capacity.

It means simply that the company wants pay for what wood it hauls. The rate has not been raised, nor changed in any way, but the company insists that shippers shall not be done any further car space. It is a change to meet the increased capacity of the new rolling stock now everywhere in use. It should not effect the price of wood to the consumer, as the actual rate is not changed in any way. The new regulation takes effect February 9.

Rub It On

Our F. & S. Oil Liniment is the most reliable remedy we know of for all ordinary aches and pains, or for strains, bruises and minor injuries; it also knocks rheumatism.

Rub It In

It has remarkable penetrating power. Apply it to an aching back or strained muscle, rubbing it in thoroughly and there will be almost immediate relief. A general family liniment that should be in every home.

Tallman & Co.
LEADING DRUGGISTS.

Gone to Baker City.

George Tomson has gone to Baker City and if events shape themselves there as he wishes, will go into the blacksmithing business. He concluded that the field is fully occupied here. Mr. Tomson came recently from Omaha, where he was a railroad blacksmith in the employ of the Union Pacific. It is probable that his brother-in-law, George Robinson, with whom he has been visiting, will conclude to locate wherever he does. The latter is a horseshoer, who came here last spring from St. Louis for his health, which is very much improved. Since coming here he has worked on ranches and in the sheep camps.

K. of P. Anniversary.

February 19 will be the 42d anniversary of the founding of the order of Knights of Pythias. The occasion will be appropriately observed by the order in Pendleton. An effort is being made to secure one of the finest speakers belonging to the order, and an elaborate banquet will be spread. It will be an invitation affair, but open to the general public in every other sense. The committee is laboring to make the event one of the finest of the kind in the history of fraternalism in Pendleton.

Been on a Government Survey.

J. R. English returned yesterday from Portland, and this morning went to Weston, his home. Mr. English went to Portland to interview on professional matters F. J. Van Winkle, with whom he was associated last fall for several months in surveying for the government the Chippewa Indian reservation in Minnesota, and also in surveying for the government a large Minnesota district hitherto unsurveyed for the purpose of classifying the swamp lands of that state.

Hearing in Luke Case.

The case of Charley Luke, an Indian accused of stealing a horse on the reservation from another Indian, having been remanded to the federal courts for trial, the case must be started "from the ground up" again, and a preliminary hearing of the case will be before Commissioner Halley in a short time. The exact date will be set as soon as Mr. Halley hears from the officers of the federal court at Portland.

Change in Wholesaling Firm.

Harry Rees has bought the interest of J. B. Despain in the wholesale house of Despain & Clark, and involving preceding taking possession by Mr. Rees, is in progress now. Mr. Rees returns from an absence of several months in Washington, with the expectation of making Pendleton his permanent abiding place. Mr. Despain is for the time being undecided as to what business he will engage in.

Eagles at Oregon City.

State Deputy Grand President Hinkle, of the Eagles, has been notified that the order is almost ready for organization at Oregon City. The minimum number of charter members—50, is already considerably exceeded, and a date will be set soon for the organization. Mr. Hinkle will attend.

THE POWER OF STEAM.

Many May See But It Takes Genius to Realize.

When James Watt saw the steam causing the kettle lid to jump up and down he said "There must be power in that steam that it can lift such a weight!"

There was.

Millions prior to him had seen the same phenomenon and regarded it as an unexplained mystery.

Recent scientific research has put its finger on the "cause" of Dandruff, Falling Hair, and consequent Baldness, and has unearthed a tiny germ which eats the life from the roots of human hair.

Newbro's Herpicide destroys this germ and consequently restores the hair to its natural state.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

A. C. Koepfen & Bros., special agents.

FOR LOCAL OPTION

PASTORS WILL UNITE IN SENDING PROTEST TO SALEM.

Express the Sentiment That the Present Local Option Law Should Not Be Repealed, Amended, Nor Changed in Any Way—Petitions Now Pouring Into Salem From All Points of the State—Concerted Action on Part of Temperance People—Liquor Interest Are Not Idle.

Following is a form of petition sent by the combined churches of Pendleton last night, to every member of the Umatilla county delegation in the legislature, concerning the local option law:

"We, the pastors of Pendleton, in behalf of our respective congregations, most respectfully represent to the legislative assembly of the state of Oregon, that our respective congregations, unanimously protest against the legislative assembly in any manner repealing, amending, or changing the local option law as adopted and put into operation by the people of Oregon; and the members of said congregations do hereby unanimously and most earnestly petition their senators and representatives to vote against any proposed law, intended to repeal, amend or change said law, and in particular against any proposed law intended to take away from the state courts, the jurisdiction to try offenders of intoxicating liquor laws, and confer the same upon municipal courts, for the reason that any such repeal, amendment, or change would be against the will of the people as most solemnly and positively expressed through their ballots of the last two general elections."

The membership of the churches represented on the petition comprises about 1300 residents of Pendleton, including many of the heavy taxpayers of the county. It is part of a concerted action on part of the temperance people of Oregon to protest against the repeal or amendment of the local option law, and will be vigorously prosecuted.

Like petitions are now pouring into the desks of the members of the legislature by the score, from all over Oregon, and before the local option law is called up for final discussion and passage it is thought the expression of sentiment from all parts of Oregon will be strong enough to convince the legislature that it is not safe to tamper with the people's law, as adopted by them at the recent election.

The saloon and liquor interests are not idle, and in many instances having enlisted even national banks on their side, messages having been received from bank cashiers, asking the legislature to look out for the business interests of the state, this being an inspired slogan used by the liquor interests during the recent campaign.

RETURNS FROM THE EAST.

E. E. Harvey Would Not Live in the "Pleasant" Eastern States.

E. E. Harvey, of Despain Gulch, has returned from a two months' visit in Kansas and Missouri, in which states he had not been since leaving Lin county, Kansas, for Umatilla county, 17 years ago. Mr. Harvey acknowledges many evidences of prosperity in Kansas and Missouri, and of growth and development since he left there, but he could not be induced to return to either of those states to reside.

The climate there has not changed—it is as variable and uncertain as ever, with its violent and extreme changes of temperature and precipitation—while the farming and other industries are transacted on a more or less "pleasure" scale that jars on the sensibilities of a man who has lived in Eastern Oregon for 17 years. Singly and collectively, Mr. Harvey counted just one when he alighted from the train here, and therein the census of Harvey did not vary one iota from the same enumeration taken the day he left for the East—November 28 last.

CONCERT PROGRAM TONIGHT.

McMinn Orchestra Will Give Delightful Evening at Music Hall.

Following is the complete program of the orchestra concert to be given by the McMinn orchestra at Music Hall tonight, beginning at 8 o'clock sharp:

Song—"I Love You Dear, and Only You"—Miss Stella Green

Overture—"Orpheus"—Orchestra

Song—"My Gondoller Queen"—Orchestra

Selection—"Prince of Pilsen"—Orchestra

Violin Solo—Selected, Mr. H. McMinn

Song—"Angels' Serenade"—Orchestra

March—"Social Session"—Orchestra

PETITION TO DIVIDE No. 49.

District Has Seventy-five Resident Pupils.

A petition has been filed with the county superintendent for the division of school district 49, which lies east of Weston from six to eight miles. The district as now constituted has about 75 pupils, and the size of the district has much to do with the proposed division. If divided on the line asked for by the petitioners the two districts will be practically, or at least approximately, of the same size. The school house is now very nearly in the center of the district; if the district is divided it will be found near the eastern boundary of what would then be known as "the old district," and the petitioners be-

ing in the new district will be entitled to a new school house.

It is hardly likely that the people of the entire present district can escape being participants in a vigorous controversy, as a remonstrance against the division will probably be filed.

TEN ACRES OF GARDEN TRUCK.

Will Be Put In on the Cheney Place, West of Pendleton.

A. L. Box has rented 10 acres of the Cheney farm, west of town, and will plant the entire acreage to garden this spring. Every foot of the ground is under water from the river and being very rich soil, Mr. Box expects to raise an immense amount of produce thereon. The water is carried from the river in a box flume, the lay of the ground being such that the water is secured with the least possible outlay of expense.

Mr. Box came 16 years ago from Joplin, Mo., and says he never expects to set eyes upon a land that will suit him as well, let alone any better, than Umatilla county, for the very good reason that he is so well satisfied here that he will not look elsewhere in this world for anything better.

Will Open the State Hotel.

Between February 2 and 15 Rudolph Martin will open the brick building owned by him at the corner of Webb and Cottonwood streets as a lodging house, under his personal management, the same to be called the State hotel. Many of the furnishings are already on the premises, and the remainder of the furniture will arrive from the East in a few days. The opening of the hotel is depending upon its arrival.

Strong Recovered.

William Strong, the young Kansan who was taken from an overland train with a severe case of "quinine jag" will resume his journey to the valley probably by tonight's west-bound train. Mr. Strong is in poor health as the result of a protracted siege with the typhoid fever, and the irritational dose of quinine quite upset him temporarily. Three days' rest and sleep and normal diet have entirely restored his mental equilibrium.

New Officers Installed.

Umatilla Encampment No. 17, of the I. O. O. F., a few evenings since installed a new set of officers, as follows: Chief patriarch, George Brown; senior warden, S. A. Newberry; scribe, John E. Beam; treasurer, Max Baer; junior warden, W. H. McCormach. Following the installation a banquet was spread.

Sold Liquor to Indians.

Sam Hellman, a white man, was taken in custody by the Indian police on the reservation yesterday, charged with selling liquor to the Indians, and was incarcerated in the Agency skookum house. Commissioner Halley is investigating the case today.

Parish Aid Meets.

The Parish Aid will meet at the home of the president, Mrs. Stillman, at 501 Water street, tomorrow afternoon at 2:30.

ABOUT THAT COAT

You wear a coat. Why? To keep the cold out? No; to keep the warmth in. What of the body that has no warmth—the thin, poor body that lacks the healthy flesh and fat it needs?

For such we say that Scott's Emulsion provides the right kind of a coat. Why? Because Scott's Emulsion builds firm, solid flesh and supplies just enough fat to fill nature's requirements—no more. That means bodily warmth.

We'll send you a sample free upon request.
SCOTT & BOWNE, 409 Pearl Street, New York.

MAPLEINE

Pure granulated sugar and mapleine—that's all. Make it at home—It saves money and insures purity.
