Heavy Snows in Harney. We have had considerable more snow the past week and a phone from the McKinney sawmill yesterday states there are now between four and one-half and five feet of snow at that place. This is certainly good news as it insures another good season for crops and Harney county will make a mark. Good range and big yielding crops mean prosperity. Burns Times-Herald.

### WOOL SALES DATES

WILL BE ESTABLISHED IN THE NEAR FUTURE.

Very Little Wool Will Be Sold Outside of the Sales Dates This Year—Elgin Will Not Have a Wool Sales Date This Year—All Other Usual Sales Points Will Have Dates Set With the Possible Exception of Antelope.

Secretary James H. Gwinn, of the Oregon Woolgrowers' association, has written to the eastern wool buyers in regard to the sales dates to be fixed in Umatilla county this season, and when he hears from them will at once fix the dates of public sales for all the Eastern Oregon district.

Last year the first sale date was fixed for Pendleton on May 29, and the last on July 1, about 19 sales between those dates being held throughout Eastern Oregon.

Mr. Gwinn feels confident that unless an unusually high price is offered for the clip of Umatilla county, that very little of it, if any, will be contracted or sold outside of the sale days. The sale days have been successful and the sheepmen are satisfied with results, and as they have paid considerable money to keep up their organization, most of them will remain loyal and will hold their wool until all can sell.

Because of the contracting of Walla wool in advance, the Elgin wool sale date will not be placed on the list this year, as there would be nothing to sell there, all the wool tributary to Elgin having been sold.

The points at which the sales will be held are Pendleton, Heppner, The Dalles, Arlington, Shaniko, Prineville, (Antelope, possibly), Baker City, Huntington, and possibly Echo. The clip this year will be heavier than last, because of the uniformly good condition of all sheep during this winter. The lamb crop is expected to be excellent, some sheepmen fully expecting 100 per cent increase. The ewes are in prime condition and will enter the lambing season in full flesh. The prospects for sheep shipments cannot yet be forecasted, as the buyers will not enter this territory until the sheep are turned on the summer ranges.
