**REMEMBERED HIS CHILDREN.**

Boise Pioneer Leaves a Fortune of \$50,000 to Deserted Family.

Before he died in the hospital here a short time ago, John Wood made a will leaving his property, valued at \$50,000, to his children, says the Boise Capital News. None here knew he had children, though he had lived here 25 years. He was married after he came here and was afterward divorced, but there were no children of the union.

It now seems that Wood left a family in Crawford county, Mo., in 1840. They thought he went into the Southern army and was killed. His right

L. A. Wright, a well known druggist of Union, passed through this morning to Heppner, where he goes to attend the camp of the Woodmen. The other delegates from Union camp are Ira Messenger and Dr. F. L. Vincent, who will go over tomorrow.

Jefferson Myers, president of the State Lewis and Clark commission, passed down over the O. R. & N. yesterday from Eastern Oregon, where he has been working with county courts to secure appropriations for exhibits at the fair. He secured an appropriation of \$500 from the Union county court.

No. 1 westbound O. R. & N. train, consisted of 12 coaches this morning, every seat in the chair cars being occupied and many local passengers were seated in the tourist cars. The tourists from the East say the rush has not yet started, as most of the people are waiting for warmer weather before coming to the coast.

**SOME EIGHTY PER CENT LOSS.**

More Wheat Frozen Out Than Was Supposed.

A. L. Knight, the wheat buyer, is sponsor for the statement that 80 per cent of the fall wheat in the northwest portion of the county will have to be reseeded. According to Mr. Knight the warm weather of the past week has dried the ground out, and as a result wheat that at first was supposed to be uninjured has been found to be frozen. Farmers were deceived in the matter by the rain, which gave the wheat a growing appearance, and now that that moisture is gone it is found that the percentage of loss is much larger than was supposed.

From reports that have reached here during the past week it was known that additional losses were being found, but it was not until the last day or two that the real extent of the injury became known.

**FABULOUS ORE VALUES.**

Bonanza Said to Have Been Found in Wallowa Mountains.

E. J. Avery, foreman for the Tenderfoot Co., while in Joseph, exhibited some of the richest rock ever shown here, says the Wallowa Democrat. Miners, who claim to know what they are talking about, estimate the rock to run from \$10,000 to \$20,000 to the ton. Snow is the only thing that prevents a stampede to the Tenderfoot basin.

The foreman declined to talk concerning the strike as sufficient work has not yet been done to warrant any definite statement.

The ore is a free milling proposition and shows stringers of pure gold, some of them are one-sixteenth of an inch in width passing through it; another specimen shown is literally peppered with the yellow metal.

**Welcoming Meeting.**

Lieutenants Davegto and Storms will arrive tomorrow morning from Baker City to take charge of the Salvation Army work in this place, and will be given a welcoming meeting at the hall on West Webb street tomorrow evening.

**Off to Alberta.**

J. W. Gulliford and Clay Degraff left this morning for Claresholm, Alberta, for the purpose of looking over that country with a view to locating and securing some farming land.

**Chartered a Train.**

March 22 is the day agreed upon by the Alberta emigrants for leaving here with their special train. Besides the emigrant families the train will also carry the stock, household goods and farming implements of the settlers.

**Millinery Opening.**

Monday, Tuesday and Wednesday Mrs. Campbell will have on display the largest and most complete stock of fashionable millinery ever shown in Pendleton.

**STANDARD HOLDS A MEETING**

Prominent Mining Men From Sumpter, Chicago and Portland in the City.

Stockholders of the Standard Mining company of the Quartzburg district are holding a meeting at the offices of W. E. Davidson & Co. today, among the prominent mining men interested being the following: Zoeth Houser, of Echo, president of the company; S. D. Foss, of Chicago; J. F. Peterson and F. Richey, of Portland; H. H. Nicholson and D. L. Killen, of Sumpter.

The object of the meeting is the election of officers for the ensuing year and the transaction of other business connected with the development of the property. At time of going to press the election of officers had not taken place.

The Standard company owns a group of the richest claims in the Quartzburg district, and is now operating a stamp mill on the property. The ore carries a large per cent of cobalt, this being an especially valuable metal and in great demand by the manufacturers of heavy cannon.

The Standard company has had an offer from the Krupp gun factory of Germany for the entire output of cobalt from the mines, but has not closed a deal yet, hoping to develop still greater cobalt values with a possibility of the metal being refined here, instead of being shipped in the crude state.

The stockholders present at the meeting express themselves as being highly pleased with the showing made on the property as it developed.

A. W. Nelson, of Klickitat county, Washington, was drying out some giant powder in his cabin. The powder exploded, blowing the cabin in pieces. Nelson "came to" lying on the ground 20 feet from where the cabin had stood. He was practically uninjured.

### REFORMS IN PENSION OFFICE.

Washington, D. C., March 4.—The new commissioner of pensions, Vespasian Warner of Illinois, who entered upon his official duties today, announces his intention of introducing many reforms in the management of the office. Some of its customs, that during recent years have almost crystallized into laws, are to be abrogated in their entirety.

In speaking of the proposed reforms, Commissioner Warner says: "The policy of secrecy as to essential matters will be abrogated, and every information proper to give out will be made public. Another thing, failure on the part of clerks to take vacations to which they are entitled will not count with me in their favor. I want them to take their vacations—to get out of the city and into the country and to breathe the fresh air and enjoy the healthful exercise for the month the law allows. I shall expect and require good work, and I shall not certainly put any obstacle in the way of its being performed. I would think I was doing this if I should put a premium on any clerk's interrupted presence at his post of duty."

**Ontario Livestock Show.**

Ottawa, Ont., March 6.—The annual exhibition of the Eastern Ontario Livestock and Poultry association opened auspiciously today and will continue until the end of the week. The show is on the same lines as those of previous years, the exhibits consisting of horses, beef and dairy cattle, sheep, swine and poultry. The liberal prize offerings have attracted large and excellent exhibits in all departments. The show is being held in the new building especially erected for the purpose.

**Building Trades Conference.**

Washington, D. C., March 6.—An important conference of the board of governors of the Structural Building Trades Alliance began in this city today. The primary object of the conference is to take steps to effect a closer alliance with the American Federation of Labor. The executive council of the federation meets in annual session here next week, and a delegation from the alliance will be present and urge that the two organizations work in harmony.

**Association of Colored Dentists.**

Washington, D. C., March 6.—The National Association of Colored Dentists began its fifth annual session today at Howard University. Many sections of the country are represented among the several score of members in attendance. The sessions will last several days and will be devoted to the discussion of various matters relating to the dental profession.

**Buffalo Auto Show.**

Buffalo, N. Y., March 6.—Bigger and better than ever before the third annual exhibition of the Automobile Club of Buffalo opened in Convention hall today and will continue through the week. The exhibits include a large majority of those displayed at the shows held in New York and Chicago earlier in the year. Every variety of motor car is on exhibition, together with the latest things in the way of improvements and accessories.
