

AMONG THE EXCHANGES OF THE INLAND EMPIRE

To Exterminate Scab.
Governor Gooding is determined that sheep scab shall be exterminated in the state of Idaho and to that end has invited the federal authorities to take hold of the matter and conduct a systematic dipping of all Idaho flocks. Col. George S. Hickock of Salt Lake, in charge of the federal stock inspectors in the Northwest, is in the city today conferring with the governor on the work. According to the present plan five or six inspectors will be put to work at once and by the first of April at least 21 will be engaged in the work. Every sheep in the state will have to be dipped and those that show evidence of the disease will have to undergo the second dipping.

The federal inspectors will work in conjunction with Dr. George E. Noble, who has been appointed state veterinarian surgeon under the law passed by the state legislature. It is not the intention of the federal government to take the matter entirely out of the hands of the state government but merely to assist in getting the work started.

According to the present plan all the sheep running on the ranges of Idaho will have to be dipped before being turned out again. A conservative estimate is that there are about two and a half million sheep owned in the state, besides about three quarters of a million owned by non-residents that are run in the state. All are included in the general order. As it costs about two cents a head to dip a sheep it is estimated that it will cost the sheepmen of the state close to \$100,000 to comply with the order.

Sheepmen, however, are generally in favor of the plan and it is believed that they will heartily co-operate with the government as it practically means the elimination of the scab which is destroying the Idaho flocks. Two or three years of such work, with careful watching and close inspection it is believed will wipe out the disease.—Boise Capital News.

Woolen Mill at Baker City.
Secretary Johnson of the Baker City Development league is authority for the statement that there is a good show for the establishment in Baker City this season of a woolen mill and a wool-scouring plant.

The league is making every effort to attract here capital for the investment in such an institution with which it is promised local capital will join with the eastern investors and a

suitable site will be furnished for the plant.
Everybody knows that there is enough high grade wool produced in this vicinity and shipped in train lots from Baker City every year which could be kept at home, manufactured here into blankets and cloths, and a dinner pail brigade established which would be a credit to the community and keep the money in circulation at home. Those who are enthusiastic over the proposition are firmly convinced that a market can readily be found for the product of such a mill and that a little enterprise and pulling together on the part of the public spirited citizens will insure the success of the proposition.—Baker City Democrat.

Keep Off the Walks.
Without a word of debate and by unanimous vote the council last night instructed the city attorney to prepare an ordinance prohibiting bicyclists from riding on the sidewalks in any section of the city. The fact that there was no discussion strongly suggests that the bicyclist must take his medicine. Periodically in the past, when through the complaint of pedestrians, the subject of regulating the wheelmen came before the council, there was some disposition to endeavor to adjust the issue, and as a result compromises were reached from time to time allowing the bicyclist to use the walks in certain sections. But the agitation and complaints have continued, and now the cyclist is definitely in the nuisance class.—Lewiston Tribune.

Electric Line Branch.
The town council at Farmington, Wash., has received a petition from the president of the Eastern Washington Construction company for a franchise for an electric line from this place to connect with the Graves line at Oakesdale. This will give Farmington, if built, three railroads and an electric line.—Spokane-Review.

Eight Cars Off Track.
A wheel flange on a car wheel caused eight freight cars to be thrown from the tracks on the Clearwater branch, five miles west of Orofino, Idaho, on the 7th. No serious damage was done, and it is expected traffic will be resumed within 19 hours after the accident.—Lewiston Tribune.

FOOLED THE SEARCHERS.

How a Quick Witted Scotchman saved a Fugitive.

John Maxwell, a stout Protestant, who had taken part in the battle of Rullion Green, Nov. 28, 1695, successfully defied the many attempts that were made to capture him. Once he had a very narrow shave. The soldiers traced him to Edinburgh and there gave him a chase. Bolting down a close, he dashed into a tavern and explained his desperate case to the landlady, who locked him into the chest that held the oatmeal. The soldiers then entered and searched the house from top to bottom, but could not find their man. Vowing they knew he was on the premises, they called for drink and sat down to think over the matter. One of them, seated on the box that contained the fugitive, remarked: "I wouldn't say but the Whig is in this very kist (chest). Guidwife, gie's the key and we'll see."

In no way put about, the landlady went to the door and cried to her girl upstairs: "Jeanie, rin to the guidman for the key of the kist till we see if a Whig can lie in the men and no be hoasting (coughing) wif!"

At this the soldiers burst out laughing, felt there was truth in the guidwife's taunt, drained their cups and departed. Maxwell at last managed to escape to Ireland, where he died.

Baseball at Boise.
The baseball fans have been called to meet in the rooms of the Chamber of Commerce Wednesday evening for the purpose of forming a baseball association to put a team in the new league to be composed of Boise, Salt Lake, Ogden, Spokane, Butte and Helena. The call for the meeting is signed by a large number of business and professional men, who desire that Boise be represented in the new league and that the pennant winners be put again in the field to defend the reputation of Boise as a baseball town.—Boise Capital News.
