PICTURES.

Beautiful Life-size Crayon Drawings Made for the Masses.
Prof. W. E. Gunn, a talented artist who is a graduate of the Chicago Art School, has been employed by the Peoples Warehouse to make life-size crayon portraits for their customers at the almost nominal sum of 75c.
The Peoples Warehouse has on display some samples of the professor's work, which are remarkable specimens of high-class art. Orders for about 100 of local people have been taken and will be executed as rapidly as the artist can do them on his easel in the window. There are some fine children's portraits, done from photographs and beautiful portraits of Longfellow and Gladstone, also one of Father Peters, the head of the Santa Barbara mission.
A coupon is given with each one dollar purchase at the store; this coupon and 75c additional to cover cost of material, secures anyone an enlarged picture.

PORTAGE CHANGES

THE DALLES HOPES TO GET ROAD EXTENDED
Is Willing to Put Up \$10,000 for the Terminal Facilities, Including Docks, but Expects the State to Appropriate \$30,000 for Balance of Extra Work—Finally "It All Depends on the Extra Session."

When asked today as to whether or not the members of the portage commission during their visit here Tuesday committed themselves as regards the extension of the portage, Mayor Seufert answered that they had no occasion to, since the Dalles people failed to take enough interest to meet them and present their side of the question. The secretary of state and treasurer are known to have been disposed to oppose the project when the appropriation was asked for, Governor Chamberlain favoring it, realizing that the Big Eddy is not a desirable terminal for boats and probably could not be operated during high water.
While Dalles citizens were very negligent and did not display the proper amount of interest in the matter, it is safe to say the few who did obtain a hearing, together with the enthusiastic members of the Open River Association and Captain E. W. Spencer, who is an ardent worker in the extension, made the most of the opportunity to air their views, and should an extra session of the legislature be called, substantial results from their visit would be forthcoming in the desired appropriation of \$30,000.
Senator Wheelon expresses the opinion that if he had had the proper support from that source he would have been successful in the undertaking.
Inducements have been offered from all sides. The Dalles is willing to expend \$10,000 in building public docks for terminal purposes. A mile and a half of track would have to be built to connect with the Great Southern, and another mile at the lower end of the line, and the officers of that company have offered through President John Heimrich to have the matter of traffic agreement, terms and operation entirely to the portage railroad commission. Contractor Nelson has also made a splendid offer as regards the work.
But it all hinges on an extra session.—The Dalles Chronicle.
