FOUR ESCAPED FROM THE JAIL

Made Getaway Through a Window in East Side of County Building.

MOSS, MURRAY, BROWN, HOCKINSMITH MISSING.

Murray Supposed to Have Gone During the Night, While the Others Are Known to Have Absented Themselves This Morning.

TWO ARE CAPTURED.

Moss and Hockinsmith were captured by Sheriff T. D. Taylor at 12:30 today at a point on the O. R. & N. track near the agency.

The capture was made single-handed by Sheriff Taylor. The sheriff was following the river on foot. When discovered the two were walking along the track at a lively gait, and were headed east. The sheriff ran considerable distance toward them without being seen by them, and was but about 100 feet away when he ordered them to surrender.

It is thought that the two boys can be picked up easily, and the search for them will be continued.

Remains Taken at Once to Palo Alto

by a Special Train—With the Party Accompanying the Casket Are Detectives, and Mrs. Stanford's Maid and Secretary Are Under Close Police Surveillance—Further Developments Are Looked For.

San Francisco, March 21.—The steamer Alameda, bearing the remains of Mrs. Stanford, arrived from Honolulu this morning.

The Alameda was met at the Golden Gate by two revenue cutters with representatives of Stanford university and relatives of Mrs. Stanford on board.

As soon as the quarantine officials finished the customary examination the Alameda was docked and the steel casket containing Mrs. Stanford's remains was taken off and placed on a special funeral car, which bore it to the Southern Pacific depot, where it was placed on a special funeral train and conveyed to Palo Alto.

Detectives Reynolds and Culland, sent to Honolulu to assist in the investigation into the death, were passengers on the Alameda and brought with them all the papers in the case gathered at Honolulu, and portions of Mrs. Stanford's organs, which will be analyzed.

The detectives were met on board by the chief of police, captain of detectives and attorney for Mrs. Stanford.

Unusual precautions were taken to prevent newspaper men interviewing Bertha Berner and May Hunt, the deceased's secretary and maid respectively. None were allowed on board and both women were surrounded by several men and hustled into carriages which immediately drove away.

In Miss Berner's carriage were her brother and Detectives Callis and Arnold. This is perhaps the most significant fact brought out in the day's series of deeply veiled events.

Questions regarding the reason for the invasion of Miss Berner's privacy, and whether or not she is under surveillance, remained unanswered.

Prof. Jordan and Attorney Wilson are non-committal beyond saying a statement completely covering the case has been prepared, but they did not know when it would be made public.

One of the detectives remarked significantly that the criminal aspects of the case are not yet closed.

Twelve Were Killed.

Buda Pest, March 21.—An explosion of fire damp in the Drankova coal mine today killed 12 and seriously injured four. Twelve more are missing.

appearance of the bar, where it is cut or saved, shows the work to have been done for quite a while, possibly for years. It could not be detected, as the top end extended into the cross iron, thus covering the break. The bar had been pried to one side by means of a short two-by-four board that was left inside yesterday by the masons who were doing some repairing inside the jail. The piece had been secreted by the prisoners, and escaped the eyes of the officials. Just how the work on the window was done puzzled the officers for a time, and at first it was thought that outside parties had made the opening. However, it developed later that when the prisoners were put into the cells last night young Murray had concealed himself on a ledge along the wall beside the sewer pipe, and had thus avoided being locked up. Had he been an important prisoner, the officials say, the trick would have been noticed; but as it was, it worked successfully. From all appearances it is probable that during the night the bar was pried to one side by young Murray with the aid of the two-by-four board, and his escape made. After escaping, some boards were placed by him to aid the others in their descent.

Not Planned by Murray.

It is the opinion of the officers the plan for the escape was worked out by Moss or Hockinsmith, and that they induced the boy to carry it out as he did, knowing that they would be detected themselves. Now that Murray has assisted in the jail break, he is himself liable to a term in the penitentiary for the act. He is the boy that was brought here a week or so ago from Adams and was accused of robbing different houses at that place. Maynard Brown, who also escaped, has been serving a sentence for stealing a pair of tin snips from a second-hand store here.

As soon as the break was discovered, Sheriff Taylor and Deputies Davis and Blakey set about to apprehend the escapes, and also enlisted the local police in the hunt. The entire country is being covered, and the railroad carefully watched in the hope that the four men may be recaptured.

BODY ARRIVED ON THE ALAMEDA

RENNENKAMPFF HAS BEEN LOST

Just Arrived at Tie Pass and the Japs Are Showing Him Where He is At.

IS BELIEVED THAT HIS DIVISION IS CAPTURED.

Reported in St. Petersburg That Russian Soldiers Are Deserting to the Japanese by Thousands—Panic on St. Petersburg Stock Exchange—No Attempt Will Be Made by the Russians to Make a Stand Before Reaching Harbin—Cossacks Slaughter Rioters at Riga—Linevitch is Reorganizing His Staff.

London, March 21.—Based on the report that cannonading was heard yesterday seven miles south of Tie Pass, the belief is expressed in military circles that General Rennenkampff's division, which was separated from the main army, has now just arrived at Tie Pass, which place was appointed as a rendezvous of all Russian divisions in case of retreat. Consequently Rennenkampff is surrounded and probably will be forced to capitulate.

Hiking for Harbin. St. Petersburg, March 21.—A dispatch from Linevitch states he has established headquarters for the present at Chen Chia Wai, at the crossing of the Sungari river, from whence he is directing the retreat of the three armies, and disposing of the fresh troops of the fourth corps arriving from Russia. With the passage of the Sungari the bridge will be blown up and the retreating army be safe from pursuit. The second army will fall back of the line of railroad, the first and third retreating along the mandarin road to Kirin. Both are destroying bridges and roads and denuding the country.

Making Many Changes. St. Petersburg, March 21.—Advice received from Harbin state that Linevitch is making drastic changes in the subordinate commands and entirely reorganizing the general staff.

OVERLAND TRAIN WRECKED. Probable Work of Would-be Robbers Who Flunked.

Des Moines, March 21.—The Rocky Mountain Limited on the Rock Island was wrecked near Homestead, Iowa, at 2:15 this morning. Railway officials assert the wreck was the work of robbers. Part of the train was derailed, and thrown down a 15-foot embankment.

Two trainmen and the mail clerk are probably fatally injured, and Engineer Hotchkiss will die. Several passengers were injured. Three hundred feet of track was torn up. The engine, mail car, composite car and the Denver and Colorado sleepers left the track.

No Attempt at Robbery. An unknown man removed bolts and spikes. No attempt was made to rob other passengers or the express car, which was heavily loaded. It is believed the robbers were frightened away.
