

AMONG THE EXCHANGES OF THE INLAND EMPIRE

Baker County Has Moisture.

A number of prominent farmers were in the city yesterday and in conversation they all reported that not in many years had there been as much moisture in the ground as there is in this present season. The announcement came as a startling revelation to those who had not studied the situation.

Everybody knows that the snow-fall in this territory, even in the high hills, has been less than half the average, and the extremely mild winter has carried the snow off gradually until even now little is left on the highest peaks. The practical man, however, says that the reason for the extra moisture in the ground notwithstanding the light snowfall is the long open winter. Little frost entered the ground and what moisture there was, was retained. This means that in spite of seemingly disadvantageous conditions, Eastern Oregon can expect perhaps better than the average crops. This opinion is augmented by the present rains.—Baker City Democrat.

One Line as an Advertisement.

Yesterday morning there appeared in the Democrat an item stating that in the prosecution of the survey work on the Eagle Valley railroad teams had to be abandoned and pack horses used over the trail on account of the narrow roads. The headline to the article read, "Pack Horses Needed for the Vinson Railroad." All day long Mr. Vinson's office was thronged with people anxious to sell him horses and the bookkeeper could do nothing the entire time but answer horse questions and explain it was not necessary to examine the animals brought in as the road was not buying horses, only using its own on the trail. Evidently the horsemen had not stopped to read the article itself. This only shows what advertising will do.—Baker City Democrat.

Boulders on the Track.

What might have been a very serious accident occurred on the Sumpster Valley railway yesterday afternoon at a point about eight miles from Baker City near the Gorge, which delayed the evening passenger train so that it did not arrive in the city until after 7 o'clock.

It seems that two large boulders rolled down the mountain side, from nearly a mile distant, and cut the track in pieces, even destroying the rails and smashing the ties into kindling wood. The boulders were as large as a good-sized house and fell on the track just ahead of the logging train, which was stopped in time to avoid being smashed.

Taffe Deeds to the State.

Yesterday afternoon a deed was filed for record conveying to the state from L. H. Taffe, land on which to construct the Celilo canal, the consideration being \$18,852.—The Dalles Chronicle.

around the obstruction and the train

loaded with passengers arrived only about three hours late. It is believed that the recent rains so loosened the earth in the mountains that the landslide was made possible, which would not have occurred under ordinary conditions.—Baker City Democrat.

Railroad Up Hood River.

Next week a force of graders will be put on the new railroad which will run up Hood River valley with the hope of having it completed by October. The road will leave the O. R. & N. Co.'s tracks just east of the Hood River depot, cross the stream of Hood river just above the city, continue up the east bank for some distance and strike the East Side apple belt near the Sears orchard. The road will skirt the valley, making a stop at Odell, and continue thence southwest to the timber lands of the Oregon Lumber company, a distance by rail of about 17 miles from Hood River. It is the company's intention to continue on to the Mt. Hood settlement, but not this year.—The Dalles Chronicle.

Suit Against O. R. & N.

Circuit court yesterday was engaged all day in the continuation of the trial of the case of R. C. Thomson and W. T. Thomson against the O. R. & N. company for the value of a burned grain field. The case has been on trial four days; Thursday the jury went to the premises and viewed the situation, and up to 5 o'clock yesterday evening 16 witnesses had been introduced for the plaintiffs and 15 witnesses for the defendant. A working model of a portion of a locomotive, charts, plans and maps were also put in evidence. The case is one of the most closely contested suits ever to come before the court.—Baker City Democrat.

Will Soon Begin on Dam.

The committee which has charge of the construction of the dam at the Lake will start work next week. Charles M. Foster of Baker City, an expert engineer, is expected to arrive in Joseph Saturday when he will look the ground over and draw up plans and specifications. As soon as they are approved by the committee, work will be commenced and pushed to completion.—Joseph Herald.

The Colonel's Waterloo.

Colonel John M. Fuller, of Honey Grove, Texas, nearly met his Waterloo from Liver and Kidney trouble. In a recent letter, he says: "I was nearly dead, of these complaints, and although I tried my family doctor, he did me no good; so I got a 50c bottle of your great Electric Bitters, which cured me. I consider them the best medicine on earth, and thank God who gave you the knowledge to make them." Sold, and guaranteed to cure, Dyspepsia, Biliousness and Kidney Disease, by Taitman & Co., druggists, at 50c a bottle.

Herrn, Bebel and Bernstein, socialist members of the German reichstag, are openly and on the legislative floor bitterly assailing the German government for its sympathy with Russia and allege a secret treaty between the two countries at the expense of liberty, justice and progress.

Two six-story buildings nearly completed in New York, collapsed. No one was injured. Defective construction. Six other new buildings of the same height, adjoining, are expected to fall.
