The CHURCHES

Methodist Episcopal Church. Sunday school, 10 a. m., A. J. Owen, superintendent. Sermon, 11 a. m.; class meeting, 12:15 p. m., J. B. Mumford, leader. Junior League, 3 p. m.; Epworth League, 6:30 p. m. At 7:30 a special service will be held under the auspices of the Woman's Foreign Missionary society. Short addresses will be made by Rev. J. B. Tallman, Mrs. Warner and the pastor. This will be the 34th anniversary of the W. F. M. S. in the United States. A cordial invitation is extended to all. Robert Warner, pastor.

Christian Church. At the Christian church, Sunday school convenes at 9:45 a. m., followed by the regular communion and song service at 11 a. m. In the evening J. V. Coombs will preach, his subject being, "The Reasons Why." Miss Fraker will sing, morning and evening. Mr. Coombs will preach every night during next week. His topic Monday night will be, "Who Are the Saved?"

Congregational Church. The usual services at the church at the corner of East Webb and Johnson streets tomorrow, beginning with Sunday school at 9:45 a. m. At 11 a. m. and 7:30 p. m., Mrs. T. B. Egerton will preach, the pastor being absent. Christian Endeavor at 3 p. m. No services tomorrow at the West End chapel.

Baptist Church. Corner East Alta and Johnson streets, G. LeRoy Hall, pastor. Sabbath school at 10 a. m., subject, "Remember the Covenant." B. P. Y. U. prayer meeting at 6:30. Rev. Dean Hamilton of Weston, will preach in the evening at 7:30. Good singing by quartet choir.

Methodist Episcopal, South. Sunday school at 10 a. m., I. E. Earl, superintendent; preaching at 11 a. m., subject, "A Call to Prayer." Junior League at 3 p. m., Miss Crook, superintendent. Epworth League at 6:30 p. m.; preaching at 7:30 p. m. "Come, let us go into the house of the Lord."

Church of the Redeemer. Rev. Henry Dixon Jones, rector. Services for the third Sunday in Lent: Sunday school and Bible classes, 10 a. m.; morning prayer and sermon, 11; evening prayer and sermon, 7:30. Subjects of sermons: Morning, "Our Lord in the Wilderness: the church with Him there; the third assault of the tempter; the most subtle temptation of all; the victory; thou shalt not tempt, thou shalt not try, thou shalt not put to the proof, the infinite power of God; the result, the ministry of angels." Evening subject, "An answer to those who say, 'I am not good enough to join the church'; no question that sin reigns in the world and in the heart of many one of the objects of Lent is to deepen the sense of sin; sin infects, corrupts, poisons the very life of our life; yet Christ teaches, the church teaches, that the Son of Man came into the world to overcome sin, to root it out, to annihilate it completely; He came into the world to call not the righteous, but sinners to repentance; the church a refuge for sin-sick souls; a hospital for those who wish to be healed; these great truths illustrated by one of the most dramatic, tender, appealing and striking stories in the history of literature." Services during the week: Tuesday, Thursday and Friday at 4 o'clock. Note the change of hour. Short service and meditation Wednesday evening, 7:30, evening prayer and sermon. Saturday, 4 o'clock, service and confirmation lecture. A most cordial welcome is given to all services. Vestrymen await strangers in the vestibule of the church to greet them and show them to places in the church.

A Vicarious Cure. Dr. Woodrow Wilson tells of a doctor of philanthropic bent, who lived in a Pennsylvania town the inhabitants of which are for the most part coal miners.

The good doctor was much distressed by the existing sanitary conditions of their cottages. So, presenting a nice new thermometer to each household, he carefully explained to the inmates the necessity for maintaining in one's living apartments a wholesome atmosphere. The thermometer, he added, would of course, indicate the proper degree of temperature.

One day as the doctor was making his rounds he inquired of the woman at the head of one establishment in which he observed his thermometer proudly displayed, dangling at the end of a string, whether she had remembered his instructions. "Indeed, sir, I do," was the reply. "I take great care about the temperature. I hang the thing right up there and watch it careful." "Good!" exclaimed the doctor much pleased. "And what do you do when the temperature rises beyond 65 degrees?" "Why, sir," answered the woman, "I take it down and put it outside a while till it cools off."—Saturday Evening Post.

Beginners Wanted. Four or five beginners are wanted to learn weaving at the Pendleton Woolen Mills. Apply at mills. Steady work to those becoming proficient.

During the latter part of the winter and up to the present time, there have been plagues in and in the vicinity of Irigon upward of 25,000 fruit trees, 40,000 European grapes, 14,000 blackberries and raspberries, 20,000 strawberries, 25,000 poplar trees, 15,000 mulberry and locust, 100 acres of potatoes and 150 acres of melons.

It is now believed the exact number of lives lost in the factory fire at Brockton, Mass., was 99.

THE IDEALS COMING.

Three Night Engagement at the Frazer Next Week.

The next attraction to come to the Frazer theater is one that has been given more than usual attention by the newspapers along their route on account of the unusual high standard of their productions.

The Ideals are a first-class company of good actors and actresses and are producing some of the best plays ever seen anywhere at popular prices.

On Monday, March 27, they will open here for a three nights' engagement, producing "A Bachelor's Housewife," "A Wicked Woman" and "The Woman in the Case."

Frank Vincent du Mond, the famous artist and proprietor of the Lyme school, has been appointed chief of the art department of the Lewis and Clark exposition.

We judge from our records that one home in five in this country over, has some one whom Ligozone has cured. Some have been cured of little ills; some know that their lives have been saved by it. And most of those homes still use Ligozone daily, as we do, to keep well.

Those homes are scattered everywhere. Your neighbors and friends live in some of them. If you will only ask about Ligozone there are plenty to tell you about it. Why will you suffer with any germ disease while millions know how to end it?

Don't you realize that a product which is used like this must have remarkable merit? We have never asked a soul to buy Ligozone. We have published no testimonials, no evidence of cures. We have simply asked the sick to let us buy the first bottle—to let the product itself prove what it can do. And we ask that of you, if you need it. If you are still using drugs to cure germ troubles, let us, at our expense, show you something better.

What Ligozone is, Ligozone is a product which, in the past two years has sprung into world-wide use in the treatment of germ diseases. It is now used by the sick of nine nations; by physicians and hospitals everywhere. It is daily used in millions of homes in America.

The virtues of Ligozone are derived solely from gas, made in large part from the best oxygen producers; this gas enters into it. The process of making takes 14 days, and requires immense apparatus. At the end of two weeks we get one cubic inch of Ligozone for each 1250 cubic inches of gas used. The attainment of this product has, for more than 20 years, been the constant object of scientific and chemical research. The main result is, to get into a liquid, and thus into the blood, a

GRAND OPENING SALE

We have moved this week into our FINE NEW STORE ROOM, OPPOSITE THE POSTOFFICE. We will celebrate this move by giving a

GRAND OPENING SALE

The sale will continue eight days, beginning Saturday, March 25, and continue until Saturday night, April 1.

During this time prices will be greatly reduced on many lines. We want Pendleton to remember this sale and we have decided that the best way to make people remember such an occasion, is to give each customer something that will recall the sale as long as the article lasts.

Every lady customer will be given FREE a handsome souvenir of the Opening Sale. The souvenir is something that will please you. In addition to the souvenir, each department has its special premiums for this Opening Sale.

Every gentleman customer will be given FREE a fine guaranteed gold-plated collar button. The above FREE GIFTS are for Saturday March 25th, and will be given to our customers on that day only. The DEPARTMENT SPECIAL PREMIUMS will last the full time of the sale until April first.

Shoe Department

A pair of shoes Free to the party or family who buys the most shoes during this sale. Fathers, mothers! Outfit the family during this sale. The one who buys the most during the week of this sale gets choice of any pair of shoes in the store.

Clothing Department

Every suit sold during this sale has a good hat FREE. Boys' suits, men's suits, all kinds at special prices, and we give you free, a hat or cap to remember this sale by.

Hosiery and Underwear Department

We have all our competitors SKINNED when it comes to Muslin Underwear. We buy in a combination that buys \$50,000.00 worth of muslin underwear at one purchase. This gives us our muslin underwear at the lowest possible price, and having "skinned" our competitors in buying, we do not have to SKIN our customers when we sell. We can sell our undermuslins almost as cheap as some stores buy theirs. For this sale we will make a special premium on a \$5.000 purchase of muslin underwear. Any customer who buys at one time \$5.00 worth of muslin underwear will get, FREE, a NICE CORSET, of the newest style.

Ladies, don't overlook this! You can't get a corset free every time you want one. Anticipate your needs a little, buy your undermuslins now, and get the corset free.

Millinery Department

A nice veil FREE with each ladies' hat sold during this sale. DON'T FORGET THE OPENING DAY, SATURDAY, MARCH 25TH.

The Fair Department Store

THE LIGHTEST STORE IN PENDLETON.

BERTILLON SYSTEM.

Effort Being Made to Introduce it to Spokane Police.

An effort will be made by officials of the police department to secure from the city council, an appropriation to install the Bertillon system of measuring criminals, says the Spokane Spokesman-Review.

The Bertillon system is in vogue in all the departments of the large cities in the United States and Europe. A criminal who has reached his full growth, once measured according to this system, can be identified almost invariably years afterward.

Under the Bertillon system those portions of the body are measured which are least subject to change. The meter system is used. The ordinary police system of measuring for identification is to take a criminal's

height, weight, complexion, color of hair and eyes, and scars. As a criminal may lose or gain weight, dye his hair and remove the scars, this method of identification is very unsatisfactory.

Under the Bertillon system the first measurement taken is the height. As the scale used in measuring is graduated into centimeters, the height of a criminal can be taken to a hair's breadth. The next measurement taken is that of the trunk. The length and width of the hand are also taken by a compass, graduated to centimeters. The left foot, the arms, the right arm from the elbow to the end of the middle finger, and the middle finger are also taken.

One of the chief features of the Bertillon system is the measurement taken of the right ear. The length and breadth of the ear are measured.

Bertillon, who is considered one of the greatest criminologists in the world, has educated the detectives under him in Paris to identify criminals by means of their ears.

It is held that a clever criminal may alter other portions of his features, but can never change his ears. The nose may be changed from the stub variety to the Greek or Roman, cheeks may be filled out, dimples eradicated or created, but the ears are irremovable.

To install the Bertillon system it is necessary to secure a set of finely graduated scales and compasses. If the system is installed, it will be necessary to keep a set of indexes.

The persons living in Portland who own automobiles, are organizing a club. It starts out with a membership of 60.

Three Million Homes Know What Ligozone Can Do. Who Else Will Try it Free?

powerful, yet harmless germicide. And the product is so helpful—so good for you under any condition—that even a well person feels its instant benefit.

We Paid \$100,000

For the American rights to Ligozone, and the rights in other countries, have sold for proportionate sums. We mention this fact to indicate the value of Ligozone—the value to you. Men have never before paid such a price for any discovery used in the cure of sickness.

We need not tell you that we proved Ligozone well before buying it. For years it was tested through physicians and hospitals, in this country and others. It was employed in every stage of every germ disease; in all the most difficult cases obtainable. With thousands of sick ones, considered incurable, we proved that it did what medicine could not do. Then, and then only, did we pay the price.

Since then we have spent nearly \$2,000,000 to make Ligozone known. We have bought the first bottle and given it free to every sick one we learned of. These people told others, and the result is that Ligozone is now more widely employed than any medicine ever was. And no one can doubt that it is doing more for sick humanity than all the drugs in use combined.

How Ligozone Cures

The greatest value of Ligozone lies in the fact that it kills germs in the body without killing the tissues, too. And no man knows another way to do it. Any drug that kills germs is a poison, and it cannot be taken internally. For that reason, medicine is almost helpless in any germ disease. Ligozone is a germicide so certain that we publish on every bottle an offer of \$1000 for a disease germ that it cannot kill. Yet it is not only harmless but of wonderful benefit—

better than anything else in the world for you. No one is so well that he cannot be helped by it.

The reason is that germs are vegetables; and Ligozone—like an excess of oxygen—is deadly to vegetal matter. To the human body Ligozone is exhilarating, vitalizing, purifying—the most useful, the most helpful thing possible. But to germs it is certain destruction; and these facts are true of nothing else in existence.

Germ Diseases.

These are the known germ diseases; all due to germs or to the poisons which germs create. These are the diseases to which medicine does not apply, for drugs cannot kill inside germs.

All that medicine can do for these troubles is to act as a tonic, aiding nature to overcome the germs. But those results are indirect and uncertain, depending on the patient's condition. A cure is always doubtful when drugs are used, and some of these diseases medicine never cures. Ligozone alone can destroy the cause of these troubles. It goes wherever the blood goes, so that no germ can escape it. The results are almost inevitable. Diseases which have resisted medicine for years yield at once to Ligozone. "Incurable" diseases are cured by it. In any stage of any disease in this list the results are so certain that we will gladly send to any patient who asks it an absolute guaranty.

Cholera—Gout. Gonorrhoea—Gleet. Varicole. Women's Diseases. All diseases that begin with fevers—all inflammation—all catarrh—all contagious diseases—all the results of impure or poisoned blood. In nervous debility Ligozone acts as a vitalizer accomplishing what no drugs can do.

First Bottle Free.

If you need Ligozone, and have never used it, please send us the coupon below. We will then send you an order on a local druggist for a first bottle—a 50c bottle—and will pay the druggist ourselves for it. This applies only to the first bottle, of course—to those who have never used it.

The acceptance of this offer places you under no obligations. We simply wish to convince you; to let the product itself show you what it can do. Then you can judge by results as to whether you wish to continue. This offer itself should convince you that Ligozone does as we claim. We would certainly not buy a bottle and give it to you, if there was any doubt of results; you want to be well and to keep well. Then be fair enough to yourself to accept our offer today. Let us show you, at our expense what this wonderful product means to you.

Ligozone costs 50c and \$1.
