A LENTEN SERMON. If you heat a kind word spoken of some worthy soul you know, it may fill his heart with sunshine. If you only tell him so. If a deed however humble. Helps you on your way to go. Seek the one whose hand has helped you. Seek him out and tell him so! If your heart is touched and tender. Toward a sinner, however low. It might help him to do better. If you'd only tell him so! -Denver Post.

DISCOVERING THE WEST.

The agricultural department has just discovered the West. The reclamation department has known of its existence for about four years, but has not yet admitted that it can teach a lesson to the older settled sections of the country.

It is a revelation to the experts who are now visiting the West, to find that improved methods of irrigation, strange to anything they have found in their books, have remained and beautified whole sections of the deserts. When these experts find such methods of irrigation grounded in basic facts, and established on 30 years experience, they then reluctantly admit the wisdom and feasibility of such methods.

Before they came and investigated personally such methods, they could not be brought to believe them. Irrigation by winter flooding is a well founded method, that can be depended upon, as has been proven by results in Butter creek. Yet the reclamation department cannot be induced to admit that such a method exists except in rare instances.

The agricultural department is willing to admit of its feasibility and would attempt to found new settlements upon it. But the reclamation department has been educated to the reservoir idea and is unable to shake it off. It must have its body of stored water in sight, to be measured and used by mechanical system, before it can consent to found a settlement.

There is little optimism in the reclamation department's system, and no imagination. It cannot admit of winter freshets flowing through an open canal, in January, to make crops in July. If it cannot have so many cubic feet of water stored for use in July, it cannot see a crop growing at that time, by any stretch of the imagination.

Washington is so far from the West and the methods studied by the experts are so far removed from the actual experiences of the West that much of the education of the experts must be learned over, before they can really discover the West. But as they venture into these far regions and study the ways of the natives, the truth will dawn upon them.

NO MORE YELLOW DOGS.

The new branch of the republican party in Portland, which is now working to control the coming city election, has declared that candidates must be nominated in mass meetings, and in order to be voted for must be decent, honorable men, as well as partisan republicans.

No more yellow dog politics will go with them. If these politicians can but carry out their designs, the future decency of Portland is assured. If the yellow dog can be eliminated from partisan politics, not only in municipal, but in county and state campaigns, the people will be blessed by good government

and the state will be spared the humiliation that is now hovering over its leading political leaders and representatives.

Kick out the yellow dog brand of partisanship. Say to members of all parties to vote for a decent man first, a partisan afterward. There are thousands of men and newspapers in politics, that live by keeping the yellow dog alive in campaigns. Independence among voters would put them out of business. Thinking among members of a party would drive them out of their jobs and force them to earn a living on their merit.

HOT AIR AGE IS PAST.

What Willamette valley expects to gain by hot air development leagues, inspired by Portland's hot air batteries, is not understood.

Portland has been talking and raking in profits from Eastern and Southern Oregon for 20 years. Resolutions enough to reach from Portland to Shanghai and return have been formulated and speeches long enough to make two Atlantic cables have been delivered in Portland commercial clubs and Chambers of Commerce, but when the day of performance arrived, Portland was always too busy with her own personal schemes to make good her promises to the outside districts.

Goldendale, Wash., was connected with the world by rail by Portland capital, and Prineville, John Day, Wallowa and other Oregon points equally as promising have been left to their own fate. All Portland has done for these Oregon towns and rich Oregon districts has been to make hot air speeches about them and soft soap them to keep them from arising in their indignation and boycotting Portland institutions.

The hot air age has passed in Eastern Oregon. The day of performances is at hand.

SHAME ON BUFFALO BILL.

Denied a divorce from the patient wife who shared the hardships of his youth, accused of excessive drunkenness and of driving his daughter to the grave by malicious accusations against her mother and his wife, Buffalo Bill, once the proud hero of frontier stories, is now a despised old reprobate, stripped of honor and naked before the gaze of the world.

Thirty years ago, the wife whom he has accused of being incompatible and jealous, lived in a sod hut on the North Platte, during the murderous Indians, nursing her infants, deprived of civilized associations and bereft of all the pleasures of a luxurious home, all because of her love for her then gallant scout and hunter, Buffalo Bill.

As she grew old in his service, she became despised and at last he determined to cast her off in her old age, for a more dashing young woman whom he had found among his show-women.

Instead of granting his divorce, the Denver court strips the old rake naked and points the finger of scorn at him. Let him take his medicine. Hereafter let us mention his name only in disgust. The man who casts off his wife because she has grown old is the worst yet.

Seven dollars per head per month is an average income from one common cow, in furnishing butter fat to a creamery. The better the cow and the better the care given her, the greater will be the income. Ten dollars per month per cow has been earned by Grand Ronde dairymen. This industry is now one of the most promising before the small farmers in Umatilla county. How many are prepared to take advantage of it?

Umatilla county farmers say that owing to the dry weather which prevailed when the fall wheat was sown, it is fortunate that they have been compelled to reseed in the spring, as they will now secure a larger yield than if the fall wheat had been allowed to make the crop.

Although an entire Russian regiment was slaughtered in Mukden after its evacuation by the main Russian army, not one member of the Russian medical staff of Mukden was injured. The civilized manner in which Japan is conducting her butcheries is commendable.

NEW TYPE OF LOCOMOTIVE.

Three thousand miles without a stop, and at the rate of 100 miles or more an hour, is the capacity of a new type of locomotive which has been ordered by the Southern Pacific railroad. The locomotive, or really power house on wheels, is entirely different from anything now in use. The cost of operating it will be less than one-half the cost of operating the present type of steam engine. Fuel oil, costing but a few cents a gallon, is the only fuel that has to be purchased, and there is no necessity for erecting and maintaining expensive water tanks or coal chutes. The machine is what is known as

CATARRH THE MOST DANGEROUS OF ALL CHRONIC DISEASES.

"Pe-ru-na is a Blessing to Those Troubled With Catarrh," Says United States Senator Corbin.

Ex. U.S. Senator D.Y. Corbin.

Colds Not Promptly Cured Are Sure to Cause Catarrh.

Catarrh Improperly Treated is Sure to Make Life Short and Miserable.

Many Wonderful Cures Are Made by Pe-ru-na.

CATARRH spares no organ or function of the body. It is capable of destroying sight, taste, smell, hearing, digestion, secretion, assimilation, and

the four stroke cycle. There is a compressed air reservoir, from which the power is obtained for starting. This gives the piston its first stroke, when it takes in the air alone at atmospheric pressure and temperature. The second stroke compresses this air and raises it to a temperature of about 1000 degrees Fahrenheit. The third stroke is what is known as the working stroke.

The oil is sprayed into the hot air, the amount being regulated by governors. During the first part of this stroke the combustion of this oil is carried on at a constant pressure for a period that is regulated by the amount of oil sprayed. The second part of the stroke is practically an expansion, with transference of heat, and the fourth stroke exhausts the gases.

Nasal CATARRH. Ely's Cream Balm. In all its stages. Ely's Cream Balm cleanses, soothes and heals the diseased membrane. It cures catarrh and drives away a cold in the head quickly. Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Drug stores or by mail; Trial Size, 10 cents. ELY BROTHERS, 56 Warren Street, New York

Once tried always used. Sold only in Pendleton by

Murphy. PAPER HANGER AND PAINT ER, COURT STREET. Illustrated book on Jap-a-lac for the asking.

Walters' Flouring Mills. Capacity, 150 barrels a day. Flour exchanged for wheat. Flour, Mill Feed, Chopped Feed etc., always on hand.

cannot help but add weight and importance to the thousands of testimonials from the humbler walks of life.

Catarrh is the cause of at least one-half of the ills to which the human family is subject. Is there no way to escape from it? There is.

Peruna never fails to cure a cold. Peruna never fails to cure catarrh in the first stage. Peruna cures catarrh in the second stage, nine cases out of ten. Peruna cures catarrh in its last and worst stages in the majority of cases, and never fails to benefit every case, however bad.

A book on the cure of throat and lung diseases, and catarrh in all stages and varieties, sent free to any address by The Peruna Medicine Co., Columbus, O.

"My Life Hung by a Mere Thread, Pe-ru-na Cured Me."

Mrs. Sarah Smart, 276 Hayward St., Brooklyn, N. Y., writes:

"I can't tell in words how low I was. My life hung by a mere thread. I was waiting for months to die. My trouble was consumption or bronchitis. I suffered no pain when I was low, but coughing and breathing kept sapping what little strength I had. I could not eat, sleep or even lean back on a chair. I was a mere skeleton. I said to my husband, 'I can't last much longer.' My neighbors say they do not know how I ever recovered. It was almost a miracle.

"I took your medicine but three months, when I could do my housework and washing, and have been doing it ever since. Now I am able to do anything. You would never think I had been troubled with such a serious illness. I shall always keep your medicine in my house."—Mrs. Sarah Smart.

Despaired of Recovery.

Mrs. R. L. Aulich, Vice President American Genealogical Association, 604 H street, N. W., Washington, D. C., writes:

"I know whereof I speak when I say that Peruna is a wonderful remedy for colds and catarrhal trouble. Last fall I was very much debilitated from the effect of a cold contracted early in the summer and which I neglected. I knew that my system was in need of medicine and rest, but to find the right thing was the problem. Happily I gave Peruna a trial first and have no reason to complain of the results. Within a month I had entirely recovered my strength and good health and really felt better and stronger than before."—Mrs. R. L. Aulich.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address, Dr. Hartman, President of The Herman Sanitarium, Columbus, O.

Gentlemen—The use of Peruna has been a blessing to those troubled with catarrh. So many of my acquaintances have been cured and benefited by its use that its curative qualities should be generally known. I do not hesitate to recommend it as the best remedy yet discovered for that disease."—D. Y. Corbin, 916 Chicago Opera House, Chicago, Ill.

Peruna also cures bronchitis, cough, and consumption in the first stages with unfailing certainty.

Hon. D. Y. Corbin, is ex-United States Senator and cousin of Adjutant General Corbin of the United States Army. Judge Corbin is one of the best known lawyers in Chicago and stands high professionally and socially. The above endorsement comes from such a man
