GENERAL NEWS.

Venezuela's "interior" debt is \$15,500,000, but a large part of it is held by Frenchmen who are citizens of that country.

The Manchurian Chinese are in large part now openly hostile to the Russians, to the point of bushwhacking Russian troops, refusing them supplies, and spying for the Japanese.

Few people know that the orthodox Greek church forbids the drinking of milk during Lent. The Molokans are a sect of non-conformists whose only deviation from strict orthodoxy, is that they drink milk during Lent.

At Lowell, Mich., a fire started with an explosion in a gasoline store-room back of R. B. Boylan's hardware store, destroying 15 store buildings, comprising about one-fifth of the business section of the town. Loss, \$75,000.

The Missouri state supreme court has decided that baseball is a recreation pure and simple, and being such, cannot be prohibited on Sundays by the city ordinances, or in any other way than by amending the state constitution.

It was proven to the satisfaction of a New York court and jury that a street car guard knocked a passenger down without provocation, and the passenger gets a judgment for \$2500 for the loss of two teeth knocked out by the assault.

At a great chiefs' council of the Improved Order of Red Men held at Chicago, John W. Cherry, of Norfolk, Va., was chosen Great Inchoonee to succeed the late Thomas Watts, of Montgomery, Ala., and W. A. S. Bird, of Topeka, Kan., great senior Sagamore.

Mrs. Adeline Spears, wife of a day laborer, died at Coffeyville, Kan., in a two-room hut in which she lived with her husband. Just before death she called for a lawyer and made a will leaving to her husband \$40,000, which she declared she had on deposit in a bank at Oakland, Cal.

NORTHWEST NEWS.

At Mutte, Mont., a mastiff puppy weighing 50 pounds, jumped upon a bed and lay down upon the 3-month-old baby girl of Mr. and Mrs. John Finnegan, smothering it to death.

Governor Gooding today designated September 7 as Idaho day at the Portland exposition. It is the intention to make the day the occasion for a large gathering of Idaho people at the fair.

Spokane's league team defeated the Lewiston Normal school ball team this afternoon by a score of 12 to 9. Spokane's Indians proved to be a fast bunch, and were playing hard ball from the first to the last inning.

According to the statement of E. I. Crawford, formerly president of the Northwestern Accident Insurance company, of Everett, Wash., that institution has gone out of business and will probably not issue another policy.

An engine jumped the track on the Columbia river bar jetty at Fort Stevens, and fell 30 feet. The engineer, E. E. Phillips, was killed by having his head and one arm cut off. H. E. Campbell, fireman, was slightly injured.

The Illinois building at the Portland fair will probably be a replica of Abraham Lincoln's home in Springfield, Ill., and in it will be seen much of the furniture which was used by the Lincoln family when they left Springfield for Washington, in February, 1861, and to which Mr. Lincoln never returned.

FOR STATE ENGINEER

WHO WILL RECEIVE THE STATE APPOINTMENT?

Rumor Has it That J. H. Lewis, of the Reclamation Bureau, Headquarters at Pendleton, May Be Appointed, But He Is Not an Active Candidate—The Duties of State Engineer Are Given Below.

Who will be appointed by Governor Chamberlain as state engineer when the irrigation law passed at the last session goes into effect in May? Rumor has it that J. H. Lewis, one of the force of reclamation men now here may be given the honor should he desire it. Under the provisions of the act the engineer is appointed by the governor upon the recommendation of the director of the geological survey, and usually in such cases the recommendation is made upon the suggestion of some subordinate officer. In this case it would seem that the division engineer, John T. Whistler, should be consulted. Should such be the case it would seem that Mr. Lewis is in a good position to secure the appointment, provided he is given the endorsement of his present chief.

Inquiry yesterday revealed the fact that Mr. Lewis is not a candidate for the position of state engineer. In fact, under the rules of the service he could not be an applicant without first resigning his present position. While there are many attractions about the state appointment, besides the salary of \$2400 per annum for four years, there are doubtless some disadvantages also. In view of these and the fact that he already holds a good position in the reclamation service Mr. Lewis is said to have no great desire for the appointment, though, of course, he might accept it were he named for the place.

The following from the act creating the office of state engineer shows the duties of that official:

He shall have general supervision of all the measurements, and records of appropriation, of waters of the state, and of all surveys and engineering work in which the state may be interested, and for which funds are provided, and shall perform all work in connection therewith. He shall receive a salary of \$2400 per annum, and actual and necessary traveling expenses while away from his office in the discharge of official duties, and shall not engage in private practice. He may employ assistants and purchase materials and supplies necessary for the proper conduct and maintenance of his office and department, in pursuance of appropriations as made from time to time for such purposes.

The salaries and expenses of the office of the state engineer shall be paid at the same time and in the same manner as those of other officers of the state. The office of the state engineer shall be located at the seat of government in the capitol building. The state engineer and his authorized agents and assistants, may enter upon any private property for the performance of their respective duties, doing no unnecessary injury thereto.

The state engineer shall prepare and deliver to the governor, on or before November 30th of the year preceding the regular session of the legislature, and at other times when required by the governor, a full report of the work of his office, including a detailed statement of the expenditures thereof, with such recommendations for legislation as he may deem advisable.

ALBA NEWS.

Extraordinary Horseback Ride Made by Brehm and Connell—Epidemic of Mild Form of Grip—Poor Transportation Facilities Retard Development of Lumber Interests.

Alba, April 11.—The weather has been rainy most of the time for the past three weeks, but at present is very pleasant.

Last week Helim Connell and Ed Brehm rode from Alba to Iona in one day, between 6 and 6—a distance of 70 miles, which goes to show that we raise the right kind of saddle horses in Camas Prairie.

The neighbors are having la grippe, although not seriously. Eastern lumbermen are writing asking about the timber resources of this locality, and the means of transportation to market, that is the only reason an immense lumber plant will not be built here.

Trout Out of Idaho Season.

Clinton Chaney, accompanied by his father, came to Halley, Idaho, and gave himself up. He was wanted to answer to the charge of spearing 20 trout, which he attempted to bring to town in a box under the name of butter and aroused the suspicion of Joe Burbridge, the baggage-master, who, after opening the box, preferred charges against him. Chaney was arraigned in the probate court and pleaded not guilty. His preliminary examination was set for today and his bond placed at \$200.—Boise Capital News.

Frightful Suffering Relieved.

Suffering frightfully from the virulent poisons of undigested food, C. G. Grayson, of Lula, Miss., took Dr. King's New Life Pills, "with the result," he writes, "that I was cured." All stomach and bowel disorders give way to their tonic, laxative properties. 25c at Tallman & Co.'s drug store, guaranteed.

The American Trust & Savings Bank, and the Federal Trust & Savings Bank of Chicago, have agreed upon consolidation. The capital and surplus of the new bank will be \$5,000,000; total deposits, \$20,000,000.

BARB AMERICAN SILVER.

Canada Will Ship Out All Foreign Coins.

The following from Canada is significant from a commercial standpoint:

There has recently been a renewal of the discussion of the prevalence of American money in circulation and special disapproval is expressed at the general use of American silver in Canada.

The executive council of the Manufacturers' association passed, February 15, the following resolution: "That as it is in the interests of Canada, for reasons both financial and political, that the coinage in use shall be Canadian, be it resolved that the Dominion government and the chartered banks of Canada be urged to co-operate in the removal from circulation in Canada of all foreign silver coinage, and that copies of this resolution be forwarded to the minister of finance and the president of the Bankers' association."

The Canadian Bankers' association has proposed that the government reimburse the banks for charges in shipping American silver to the United States upon condition that the banks take at the same time from the government an equivalent amount of Canadian silver. The bankers indicate no disposition to refuse American bills, for the balance of the trade is in favor of the United States, and it is desirable for the banks to obtain American notes at par in order to ship them to correspondents in the United States.—John G. Foster, consul general, Ottawa, Ontario.

Finances of Lewiston.

The report was made by Miss Poe, city-treasurer, giving data relative to the operations of the office of the city treasurer during March. The report shows that \$2976.47 was received during the month and that the disbursements amounted to \$6269.43. The amount of cash on hand March 31 was \$10,651.63.—Lewiston Tribune.

Bishop Spaulding (Catholic) went to Hot Springs, Ark., some months ago expecting to soon die. He has completely recovered.

LAUNDRY

Shoes and Clothing

SCHOOL FIELD MEET

WALLA WALLA AND PENDLETON TEAMS TO COMPETE.

Annual High School Track Meet in This City Saturday, April 22—Captain Frank Pierce of Pendleton Team, Has Confidence in His Line-up—Walla Walla Will Also Come Down to Win.

The annual high school track meet, which will take place on Saturday, April 22, on the Fraser racetrack, on the hill south of the city, between the Walla Walla and Pendleton high school teams, promises to be one of the best events of the school year.

Captain Frank Pierce of the Pendleton high school team is drilling his team hard and expects to make the best record ever made by this city at a like event.

The assignments for the different events are as follows, with a possibility of a few changes, as the boys develop in the training:

100-yard dash—Two Bollerman boys and Pierce.

220-yard dash—Bollerman, Pierce and McCarty.

440-yard dash—Pierce, Hill and Leezer.

One-half mile dash—Leezer, Harvey and Hill.

One mile dash—Milne and Harvey.

Weights—Means, Strand and Scott.

High Jump—Jay and Leezer.

Broad Jump—Jay and two Bollerman boys.

Pole vault—Jay and Leezer.

Hurdles—Jay, Leezer, Bollerman and Warner.

The relay team will be picked from the following: Pierce, Leezer, Harvey, Hill, Bollerman, Nolton and Milne.

Walla Walla sends word that they have a strong team and expect to carry home the honors. The track is in fair condition and great interest is being taken in the event by the schools. Walla Walla will send down a large number of visitors and "rooters," and the day will be one of importance in Pendleton school history.

"Black Flag" Rehearsal.

The local talent drama, "The Black Flag" to be presented on April 20, under the auspices of the Eagles, is being rehearsed under the special direction of Richard Lawrence, who was on the stage many years before locating in Pendleton, and is therefore quite competent to place a creditable performance on the boards.

ARE YOU AGEING?

Dr. Holmes used to say he was "seventy years young." Some men are old at half that figure.

Age is not in years. It is in the blood. Scott's Emulsion helps to keep you young by keeping your blood young; by supplying it with an abundance of rich, pure, vital nourishment; carrying constant life and renewal to every fibre of your body. It will help you to rob advancing years of half their sting.

We'll send you a sample free upon request. SCOTT & BOWNE, 409 Pearl Street, New York.

"OH! THOSE 'SAW EDGES'!"

Sometimes the exclamation is still stronger as regards collars and cuffs returned from some laundries. Not so here—such a calamity is avoided by having us wash, starch and iron your linen. Our system is safe and conducive to linen health. Try it.
