ORIENTALS SUBJECT TO TAX.

Chinese and Japanese Must Help Maintain the Roads.

Many inquiries are being made by the supervisors and others interested in road improvement relative to the matter of collecting road poll tax from Chinese and Japanese. The Marion county court as well as District Attorney J. H. McNary holds that all Chinese and Japanese are subject to road poll tax and that it is the duty of the supervisors in the different districts to collect the same. The tax was collected from these classes in Marion county last year, in one instance 75 Japanese being "held up" in a crew of railroad laborers. At the rate of \$3 per man the road tax from this source is an important item and adds considerably to the road fund. The law does not specify that citizens only are subject to the payment of road poll tax, but all "inhabitants" of the state.

The section of the law covering the matter reads as follows:

"Every male inhabitant of this state over 21 years and under 50 years of age unless by law exempt, shall annually pay a road poll tax of \$3, which shall be collected in cash by the road supervisor of the district in which any person liable therefor resides, and which must be collected by the road supervisor on or before the first day of December of the year for which such poll tax is due. Such poll tax must be paid on demand to the road supervisor."

WHERE IT PAYS TO TRADE

Tricks in Trade.

At least 75 per cent—maybe more—of the clothing now being sold is made from fabrics adulterated with mercerized cotton. It is a fact of vital importance to the dealer as well as to the wearer.

To the dealer, because it jeopardizes his reputation for good quality. The fabrics look good; if he sells them for all wool, either innocently or deliberately, the effect on his business is the same. The temptation of greater profits may blind him to the injury, but will not lessen it.

To the wearer, because whether he buys them for what they are, or for what they appear to be, he is sure to be disappointed in the looks and wear of his clothes. Fabrics of cotton and wool don't wear like all wool; and not even the best tailoring will keep such clothes in good shape.

But if it is easy to be deceived in buying clothes, it is just as easy to escape deception. The Peoples Warehouse clothes are made from all wool and silk fabrics; no cotton of any sort in them. Silk sewed seams, best of tailoring and style. Your safety is in our label, a small thing to look for, a big thing to find.

The play will be rehearsed thoroughly and many of the slight defects corrected and the second performance will be much more perfect than the former. This second performance is given at the urgent request of many who witnessed the play last week.
