COMPANY IS BOGUS

BUILDING AND LOAN CONCERN IS EXPOSED.

Denver Office of the Home Co-operative Company Closed and Federal Authorities Investigating the Dealings of the Concern—Many People in Eastern Oregon Have Recently Become Members.

One by one the fakers are run to earth and get their just deserts. The following announcement of the failure, or at least the closing of the Denver office of the Home Co-operative company, will be news of importance to many Eastern Oregon people, as agents for this concern have recently secured many members especially in Union and Baker counties.

The Denver Post, of Wednesday, says of the concern:

The Home Co-operative company, a building and loan concern which has a number of investors in Denver, has abandoned its office in this city and those who have purchased homes through the company have been informed that they must deal with the home office in New Orleans. The discontinuance of the Denver office is the result of the resignation of E. L. Dale, who has represented the concern here.

Mr. Dale's resignation was tendered at the expiration of his contract with the company because, he says, the business methods of the concern were not progressive enough. He denies that the company is in any financial trouble and says that all contracts made by the Co-operative have been legally fulfilled, but the depositors in the concern are greatly agitated and are making efforts to learn why, when Mr. Dale resigned, another representative was not appointed for Denver.

Government Interferes.

The Co-operative company has attained public notice on several occasions, as a result of complaint from depositors, who claimed that after paying in money to the concern for several years they had been able to get only a small percentage of the amount invested on withdrawing.

Some months ago the federal authorities investigated the concern and put a stop to its operations under the rule then in effect, holding that it was a lottery. The system was one by which the value of property acquired by different investors depended on chance. It was claimed, and the authorities forced the company to reorganize and adopt new methods of doing business.

Mr. Dale said yesterday that the abandonment of the Denver office would in no way affect the depositors. The company has about \$40,000 worth of contracts in the state, and those interested are making inquiries as to the financial status of the concern.

TABLET IN MEMORY OF MONROE

Fourth President Died in New York July 4, 1831.

New York, April 28.—The women of the American Scenic and Historic Preservation Society today placed a memorial tablet upon the old house in Prince street, where James Monroe, president of the United States, died. The day was appropriately chosen, as this was the 147th anniversary of Monroe's birth.

The dedication of the tablet was made the occasion of interesting exercises. The program consisted of prayer, music and addresses. General Frederick Dent Grant was present, and the military band from Governor's island furnished the music. Miss Mary Van Buren Vanderpoel, president of the society, presided over the ceremonies, and the tablet was unveiled by Gouverneur Hoes, of Washington, a lad of 15, and a great-grandson of President Monroe.

The old colonial house, 63 Prince street, is fast falling to decay. There is a cheap restaurant in the once beautiful drawing room, a shoe factory occupies the second floor, and from the quaint old dormer window swings the sign of a small furrier.

Monroe was connected with several old New York families, and after the death of Mrs. Monroe he left his Virginia home and came to New York to live with the Gouverneurs in Prince street, then a fashionable section of New York, and there he died on July 4, 1831.

Partition of China.

Medford, Mass., April 28.—The annual intercollegiate debate between representatives of the Tufts college and the University of New York takes place this evening in Goddard chapel and promises to be the event of the college year. The question of debate is embraced in the following proposition: "Granted that a reasonably equal partition of China among the great powers can be peacefully accomplished, Resolved, That such a partition of China would be more advantageous to the world than the preservation of its national and territorial integrity."

THREE LECTURES BY SEARCH.

Will Be Delivered at the Christian Church Next Week.

Preston W. Search, of Worcester, Mass., the noted educator and lecturer, came in last night on the evening train from Weston, where he has been lecturing during the past week. Prof. Search took a prominent part in the convention of the teachers of the Inland Empire which was held here last fall, and was enthusiastically received. Many of his subjects were of foreign travels and customs, one of the most interesting being "The Music of the Fatherland."

Arrangements have been made for Prof. Search to lecture here at the Christian church on Thursday, Friday and Saturday of next week upon subjects which will be announced later. In the meantime he will deliver a series of lectures in Baker City.

FOR HERO MEDALS.

Act Providing for the Reward of Persons Preventing Accidents.

Following is the complete text of the act providing for the rewarding of persons who by daring and heroism prevent wrecks, accidents or other destructive occurrences.

It was suggested by President Roosevelt as is known as the "Hero Medal act."

Applications for medals under this act must be made in writing to the secretary of the interstate commerce commission, Washington, D. C. All the evidence submitted will be referred to a committee which shall pass upon the merit of the claim. Following is the act:

An act to promote the security of travel upon railroads engaged in interstate commerce, and to encourage the saving of life.

Be it enacted by the senate and house of representatives of the United States of America in congress assembled, That the president of the United States be, and he is hereby authorized to cause to be prepared bronze medals of honor, with suitable emblematic devices, which shall be bestowed upon any persons who shall hereafter, by extreme daring, endanger their own lives in saving or endeavoring to save lives from any wreck, disaster, or grave accident, or in preventing or endeavoring to prevent such wreck, disaster or grave accident, upon any railroad within the United States engaged in interstate commerce: Provided, That no award of said medal shall be made to any person until sufficient evidence of his deserving shall have been furnished and placed on file under such regulations as may be prescribed by the president of the United States.

Sec. 2 That the president of the United States be, and he is hereby, authorized to issue to any person to whom a medal of honor may be awarded under the provisions of this act a rosette or knot, to be worn in lieu of the medal, and a ribbon to be worn with the medal; said rosette or knot and ribbon to be of a pattern to be prescribed by the president of the United States; provided, that whenever the ribbon issued under the provisions of this act shall have been lost, destroyed, or rendered unfit for use without fault or neglect on the part of the person to whom it was issued, a new ribbon shall be issued to such person without charge therefor.

Sec. 3 That the appropriations for the enforcement and execution of the provisions of the acts to promote the safety of employees and travelers upon railroads are hereby made available for carrying out the provisions of this act.

Approved February 23, 1905.

Four Hundred Druggists in Idaho.

Dr. L. W. Smith, secretary of the state board of pharmacy, is kept busy answering inquiries and registering druggists in compliance with the new law. He expects to register close to 400. All druggists must register, who desire to continue business. The fee is \$5. Those who have had two years' experience may register as assistants if they were not in business in Idaho previous to the passage of the new law. Those who have had four years' experience may register as pharmacists.—Bolsé Capital News.

The Glory of Maternity.
Nature, if left alone, will care for itself; this might have been true at some prehistoric time, but since for ages it has not been left alone, but has been bound down and fettered by the obscurantism and materialism of society, it can no longer care for itself.
At no time does the truth of this appeal to us more strongly than at that period of a woman's life when she is about to become a mother.
Nature must be assisted at this crisis, and for this very contingency
MOTHER'S FRIEND
has been devised that the muscles and tissues imprisoned and weakened as they have been by the dress of our higher civilization, may find relief without undue suffering and possible lasting harm, the functions for which the Creator intended them.
Mother's Friend by its kindly offices softens and relaxes these parts and enables the mother to be, to pass through the parturient period and actual crisis with practically no suffering to herself and an easy delivery of her offspring.
It is applied externally as a massage, and is a non-irritating, soothing, and most efficacious liniment. \$1.00. All druggists. Our book "Motherhood" sent free on request.
