Oregon's mining display at the Lewis and Clark exposition will show astonishingly rich deposits of gold, silver and copper, with specimens of gold from very rich new discoveries that run as high as \$20,000 to the ton.

Two special trains magnificently equipped, will bring to the Lewis and Clark exposition in July several hundred of the leading business men of Denver, under the auspices of the Denver Commercial club. In the party will be a number of millionaires. This promises to be the most elaborate commercial "junket" ever undertaken in America.

Frank G. Bigelow, whose defalcation for over \$1,000,000 closed the First National bank of Milwaukee, is believed to be the most aggravated case of Dr. Jekyll and Mr. Hyde in the history of the United States. He is 65 years of age and it is said that his private life and business record have never shown a stain up to the present demerment.

ZOUAVES FOR WALLA WALLA.

Pictureque Military Company to be Organized.

The city of Walla Walla is to have a zouave organization. It is to be patterned after the world-famed Topeka, Kas., company, which visited all of the large cities and participated in all of the national political campaigns. The zouaves at night time, invariably march in a shower of fireworks, says the Walla Walla Union.

Their brilliant and picturesque uniform has always proved an inducement to enlist, and in the bloodiest of campaigns it has been incentive to bravery.

The Topeka zouaves carried a heavy carbine equipped with a sword bayonet of hardened and sparkling steel. Their dress consisted of a house jacket and waistcoat of blue cloth, handsomely ornamented with yellow braid. Added to this were madder colored Turkish trousers and a fez cap of the same color, having a yellow tassel and being surrounded by a soft green turban. A sky blue sash of wool, leggings of yellow leather and white gaiters completed the apparel.

Arrangements have been perfected whereby following the lodge work of the Foresters at the I. O. O. F. temple next Friday evening, a company will be formed to counterpart the Topeka body. At that time the committee already appointed will submit its report after which correspondence will be taken up with the state officials looking to the equipment being furnished from the general fund.

Grain Elevators in Manitoba.

The trade and commerce department, Ottawa, has received from the chief inspector of the Manitoba grain inspection district a comparative statement showing the number of licensed elevators and warehouses, with the capacity of each, in his district in the years 1902-3 and 1903-4. In the former year there were 322 elevators and warehouses, with a total capacity of 30,356,440 bushels; in the latter there were 982 elevators and warehouses, with a capacity of 41,186,000 bushels. The elevators increased by 178 and the warehouses decreased by 18, and the net gain in capacity was 10,829,560 bushels. In Manitoba the Canadian Northern last year had 37 more elevators than it had the year before and seven less warehouses. The Canadian Pacific railway had 56 more elevators and six less warehouses. In the Northwest Territories the Canadian Pacific railway has increased its elevators by 85, but has five less warehouses.—American consul at Ottawa.

Manufacturing Ice Cream.

The Blue Mountain creamery has installed its ice machinery and is now making ice cream in large quantities, which is supplied to the retailers of this city and other points in the county also.
