

The CHURCHES

Methodist Episcopal Church.
Regular services in this church as follows: Sunday school, 10 a. m. A. J. Owen, superintendent; sermon, 11 a. m.; class meeting, 12:15 p. m. J. B. Mumford, leader; Junior League, 3 p. m.; Epworth League, 7, and evening service, 8 p. m. A cordial invitation to all services. Robert Warner, pastor.

Congregational Church.
Meetings tomorrow as follows: Sunday school at 9:45. Morning preaching service at 11 o'clock; reception of members at this service. No meeting at the West End at 2:30 on account of the Woodmen of the World memorial services held at Olney cemetery. Meetings of the Junior C. E. at 4, Miss Della Burton in charge; Y. P. S. C. E. at 7 followed by evening song and preaching service at 8. Prayer meeting and choir meeting Thursday evening. You are cordially invited to any or all of these meetings. T. R. Egerton, pastor.

Baptist Church.
Corner Johnson and East Alta streets. Rev. G. LeRoy Hall, pastor. Morning: "The Surrendered Life"; evening: "Heaven's Surprises." These sermons are closely connected, the morning subject being introductory to that of the evening. A cordial welcome to all. Let us fill the church. Plan to be present at both services.

First Christian Church.
Sunday school, 9:45 a. m. Morning service, 11 o'clock. Christian Endeavor, 7 p. m. Evening services 8 o'clock. Miss Fraker will sing at each service. Prayer meeting Wednesday evening. Everybody cordially invited to attend. N. H. Brooks, pastor.

M. E. South Services.
Sunday school at 10 a. m., and preaching services as usual at 11 a. m. The evening services, both preaching and of the Epworth League immediately preceding will be held with the Thompson street church, at the latter place of meeting. Junior League services will be held at 3 o'clock in the afternoon, Miss Carroll Crook directing.

CHICAGO SHEEP MARKET.

Wool Lambs Reached \$6.25 as the Climax of the Week's Prices.

The Chicago Livestock World gives the following comprehensive review of the past week's sheep markets in that city:

Trade was uneven, generally steady but in many spots 10c lower. Weight was at a discount, demand centering on handy and light stuff. An outside killer paid \$6.20, however, for some 94-pound lambs. There was considerable uncertainty early in the day as to what the run would be, estimates varying from 20,000 to 25,000, but later there was assurance that the count would show over 25,000. Generally speaking trade was slow.

A few wool lambs arrived and were shipped out. Bulk of good to choice clipped lambs made \$6.25, the latter being an outside price. Few native lambs worth more than \$5 were in evidence. Cull lambs sold freely at \$4.45, with medium and half-fat lambs in the \$5 to \$5.50 class scarce and wanted. Lambs weighing around 80 lbs were the most popular.

Spring lamb trade was done close around \$7. A feature of the run was a consignment of Pacific coast spring lambs that stood shipping well and sold at \$7.25.

Yearlings were quotable at \$5 to \$5.50, light weight being essential to securing best prices.

Texas grass sheep were in evidence, selling at \$4.85 to \$4.90. A few choice native wethers might have sold at \$5.25, otherwise \$5 was an outside price for sheep, good export stuff going at \$4.85. A few choice native wethers might have been quoted at a nickel, but it was a \$4.50 to \$4.85 market on natives, with western at \$4.45 to \$4.55, although they were not of good quality. It was a decidedly up and down market. Bucks sold at \$3 to \$3.50 mostly.

While the bulk of the stuff sold steady, quite a little was 5 to 10c lower. A hand of Arizona feeding sheep made \$2.50.

STOWAWAYS FOR ALASKA.

Sailing of Vessels for the North is Delayed by Sea "Tramps."

The sailing of the first contingent of the Nome fleet Thursday was marked by more excitement than has prevailed since the beginning of the Nome rush, says the Seattle Star.

The steamship men were greatly troubled by stowaways, for which the officers of the different vessels were forced to employ their time in searching during the whole morning.

Many of the men who sought to evade the officers had secreted themselves on the vessels for more than three days. The steamship men say that the stowaways are men who in many cases have not a cent of money, and are going north simply because they hope to "kill" that much time in securing a place to sleep and something to eat.

Others are of that class of men who have money, but hope to work a passage to Nome without paying for it.

At Pier B Thursday morning Port Captain Patterson had every member of the crew as well as the passengers file out of the ship, after which the crew were allowed to go aboard the vessel followed by the passengers.

The steamship Senator, of the Pacific Coast Steamship company, was scheduled to sail at 9 o'clock, but was unable to put to sea until Thursday afternoon.

All of the vessels will be from four to six hours late in sailing. The greater portion of this delay has been caused by the necessity of searching the vessels for stowaways, but many of the steamships did not have their freight on board.

Jubilee of St. Boniface.
Berlin, June 3.—Scores of eminent churchmen are gathered at the city

of Fulda to take part in the eleven hundred and fiftieth jubilee of St. Boniface, the apostle of Germany. The jubilee festivities are to open tomorrow with solemn pontifical mass by Cardinal Kopp of Breslau. The participants will include the whole hierarchy of Germany, the nuncios at Munich and Vienna, and the generals of religious orders and high church dignitaries of Germany, Austria, Denmark, Norway and Sweden.

IN UMATILLA COUNTY 45 YEARS.

H. Stewart Has Lived Here Continuously Since 1860.

H. Stewart, who is now the owner of one of the livery and feed stables on Cottonwood street, lays claim to being the oldest resident of Umatilla county. According to Mr. Stewart, he came to this county in 1860, when a lad of 16 years. At that time he says there was not a house where Pendleton now stands, and that there was but one family, that of Dick Coombs, in this section of the county, though there were a number of bachelor stockmen living near here then.

On coming here, Mr. Stewart's parents lived near Pilot Rock, and he has lived near there most of the time since, it now being 45 years since his arrival. While now in his 61st year, the oldest resident is still hale and hearty, and does not look his age. One who did not know him and his history would not take him to be the oldest resident of a county that has been settled now for nearly half a century.

CONFEDERATE MEMORIAL DAY.

Observed by Decorations and Unveiling.

Nashville, Tenn., June 3.—Confederate memorial day was observed throughout Tennessee today by the closing of state offices, banks and business houses. In this city the chief observance was the holding of exercises at Mount Olive and the decoration of the graves of the 1500 confederate soldiers buried there.

Little Rock, Ark., June 3.—The feature of the confederate memorial day observance in Little Rock today was the unveiling of a handsome confederate monument. There was a large parade of confederate veterans and other military and patriotic societies. The unveiling took place in the presence of a large crowd and was accompanied by impressive ceremonies.

Savannah, Ga., June 3.—The confederate decoration ceremonies were observed in this city today. It is a legal holiday, all the banks and exchanges being closed. There was a military parade and ceremonies at the graves of the confederate dead.

Big College Meet Today.

Chicago, Ill., June 3.—The annual carnival of relay races and field sports under the auspices of the Western Intercollegiate association will be held on Marshall field this afternoon. Eleven colleges, including the universities of Chicago, Michigan, Illinois, Wisconsin, Iowa, Missouri, Notre Dame and Purdue, are represented. As in the last three years, the first place in the meet seems to lie between the universities of Michigan and Chicago.

Commencement at R. E. Lee Institute.

Tombston, Ga., June 3.—Commencement week exercises at R. E. Lee Institute will be inaugurated tomorrow, when the baccalaureate sermon will be delivered by Rev. H. S. Bernard of Atlanta. The graduating exercises proper will be held Tuesday. The address to the graduates will be delivered by the Hon. Hoke Smith.

A private test of Professor Montgomery's aeroplane at San Jose, Cal., proved highly successful. The maneuvers were conducted at a height of 2000 to 3000 feet, and the machine, after wheeling and turning in all directions and driving and darting upward at the will of the aeronaut, was brought to earth safely without even a scratch.

THE LAXATIVE OF KNOWN QUALITY

There are two classes of remedies: those of known quality and which are permanently beneficial in effect, acting gently, in harmony with nature, when nature needs assistance; and another class, composed of preparations of unknown, uncertain and inferior character, acting temporarily, but injuriously, as a result of forcing the natural functions unnecessarily. One of the most exceptional of the remedies of known quality and excellence is the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., which represents the active principles of plants, known to act most beneficially, in a pleasant syrup, in which the wholesome Californian blue figs are used to contribute their rich, yet delicate, fruity flavor. It is the remedy of all remedies to sweeten and refresh and cleanse the system gently and naturally, and to assist one in overcoming constipation and the many ills resulting therefrom. Its active principles and quality are known to physicians generally, and the remedy has therefore met with their approval, as well as with the favor of many millions of well informed persons who know of their own personal knowledge and from actual experience that it is a most excellent laxative remedy. We do not claim that it will cure all manner of ills, but recommend it for what it really represents, a laxative remedy of known quality and excellence, containing nothing of an objectionable or injurious character.

There are two classes of purchasers: those who are informed as to the quality of what they buy and the reasons for the excellence of articles of exceptional merit, and who do not lack courage to go elsewhere when a dealer offers an imitation of any well known article; but, unfortunately, there are some people who do not know, and who allow themselves to be imposed upon. They cannot expect its beneficial effects if they do not get the genuine remedy.

To the credit of the druggists of the United States be it said that nearly all of them value their reputation for professional integrity and the good will of their customers too highly to offer imitations of the

Genuine—Syrup of Figs

manufactured by the California Fig Syrup Co., and in order to buy the genuine article and to get its beneficial effects, one has only to note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package. Price, 50c per bottle. One size only.

PENDELTON WILL PLAY ECHO.

Interesting Baseball Will Take Place Here Tomorrow.

Tomorrow Echo and Pendleton will play ball here provided the climatic conditions are such as to allow of that pastime. While the Echo team would seem to be a little out of the class of the team with which most of the games have been played so far, they have a good team and will make a very interesting game for the local boys. Their battery, which consists of Kennedy, pitcher, and Smith, catcher, is said to be a good one.

For the local team the line-up is not fully determined upon, but King will be in the box and Lisenbald behind the bat. The rest of the team will have to be made up as best it can, as quite a number of the old players will not be here tomorrow.

Royal Neighbors Delegate.

Mrs. Ida Hamblin, supervising deputy of the Royal Neighbors of America left last evening for Topeka, Kan., to attend the biennial session of the supreme camp of that order, which convenes there on June 6. Mrs. Hamblin will be absent from the city for several weeks.

The first railroad engine reached Condon May 31, amid great excitement.

A. D. T. Helps the Stores

In thanking you customers for the splendid business they gave us during May, we assure them that the same careful attention will continue. Anyone having errand work can call on us and have the work done right.

A. D. T. is So Convenient

Our messenger force is organized to handle business promptly. We make a specialty of running errands, delivering notes or invitations, distributing announcements, samples, etc., notifying lodge members of special meetings, delivering parcels—anything that a boy can do.

Phone Main 9

G. C. HATT, Local Manager.

A. D. T. Deliver Invitations

The cost of our service is small—only 15 cents for half an hour or less—and for distributing we make special rates. For invitations we charge 25 cents per hour, and take a signature for each invitation delivered. Our service guarantees the customer against loss on valuable packages up to \$25.00.

We pick up and deliver Western Union Telegrams. No charge to customer for this service. All messengers mounted on bicycles, which insures prompt attention and speedy completion of work.

Millions Know

That Liquozone Does What Medicine Cannot Do. A 50c Bottle Free

There are at least three million homes in America which know from experience the value of Liquozone. Some of those homes use it simply to keep well, as we do. But tens of thousands have lives that were saved by it.

Yet some remain sick with a germ disease while all of those millions know that Liquozone cures. Some still cling to drugs for what drugs never can do. They are wronging themselves. Their own friends—their own neighbors—can tell them the way to get well.

We ask those sick ones to write us. We will buy for each one the first bottle of Liquozone, and pay the druggist ourselves for it. Each is welcome to try it at our expense, then let the results decide about using it afterwards.

Don't try to kill inside germs with drugs, for you cannot. Don't cling blindly to old methods of treatment, used before germs were discovered. Let us prove what this new way means to you.

Not Medicine

Liquozone is not made, like medicine, by compounding acids and drugs; nor is there any alcohol in it. Its virtues are derived solely from gas, made in large part from the best oxygen producers. The process of making takes 14 days, and requires immense apparatus. At the end of two weeks, we get one cubic inch of Liquozone for each 1,250 cubic inches of gas used. The attainment of this product has, for more than twenty years, been the constant subject of scientific and chemical research.

The main result is, to get into a liquid, and thus into the blood, a powerful, yet harmless germicide. And the product is so helpful—so good for you under any condition—that even a well person feels its instant benefit.

This is a product which, in the past two years has sprung into worldwide use in the treatment of germ

disease. It is now used by the sick of nine nations; by physicians and hospitals everywhere. It is daily used in millions of homes in America.

We Paid \$100,000

For the American rights to Liquozone, and the rights in other countries have sold for proportionate sums. We mention this fact to indicate the value of Liquozone—the value to you. Men have never before paid such a price for any discovery used in the cure of sickness.

We need not tell you that we provided Liquozone well before buying it. For years it was tested through physicians and hospitals, in this country and others. It was employed in every stage of every germ disease; in all the most difficult cases obtainable. With thousands of sick ones, considered incurable, we proved that it did what medicine could not do. Then, and then only, did we pay the price.

Since then we have spent nearly \$2,000,000 to make Liquozone known. We have bought the first bottle and given it free to every sick one we learned of. These people told others, and the others told others. The result is that Liquozone is now more widely employed than any medicine ever was. And no one can doubt that it is doing more for sick humanity than all the drugs in use combined.

Kills Inside Germs

When we purchased the rights to Liquozone, the great problem was how to let the sick know its power. For years we had watched it cure diseases which medicine could not cure. We had proved that, in germ troubles, its results were almost inevitable. We were using it daily in our own homes, as a preventive of sickness, and we knew that every home should have it.

In every neighborhood, all over America, there was sickness which nothing but Liquozone could cure. There was everywhere suffering which Liquozone alone could stop.

And thousands were dying whom Liquozone could save. What was the right way—the best way—to quickly let those sick ones know it?

We decided to buy the first bottle and give it free to every sick one we learned of. And we published this offer in 2,500 papers. The result is that millions know Liquozone almost as well as we do. And half the people you meet, wherever you are, know some one whom Liquozone has cured.

Germ Diseases.

These are the known germ diseases; all due to germs or to the poisons which germs create. These are the diseases to which medicine does not apply, for drugs cannot kill inside germs.

All that medicine can do for these troubles is to act as a tonic, aiding nature to overcome the germs. But those results are indirect and uncertain, depending on the patient's condition. A cure is always doubtful when drugs are used, and some of these diseases medicine never cures. Liquozone alone can destroy the cause of these troubles. It goes wherever the blood goes, so that no germ can escape it. The results are almost inevitable. Diseases which have resisted medicine for years yield at once to Liquozone. "Incurable" diseases are cured by it. In any stage of any disease in this list the results are so certain that we will gladly send to any patient who asks it an absolute guaranty.

Asthma—Anemia—Hay Fever—Influenza—Kidney Diseases—La Grippe—Leucorrhea—Liver Troubles—Malaria—Neuralgia—Many Heart Troubles—Piles—Pneumonia—Rheumatism—Sciatica—Scurvy—Skin Diseases—Stomach Troubles—Throat Diseases—Tuberculosis—Tumors—Ulcers

Goitre—Gout—Varicose Veins—Gonorrhea—Gleet—Women's Diseases—All diseases that begin with fevers—all inflammation—all catarrh—all contagious diseases—all the results of impure or poisoned blood. In nervous debility Liquozone acts as a vitalizing agent accomplishing what no drugs can do.

First Bottle Free.

If you need Liquozone, and have never used it, please send us the coupon below. We will then send you an order on a local druggist for a full-sized bottle—a 50c bottle—and will pay the druggist ourselves for it. This applies only to the first bottle, of course—to those who have never used it.

The acceptance of this offer places you under no obligations. We simply wish to convince you; to let the product itself show you what it can do. Then you can judge by results as to whether you wish to continue.

This offer itself should convince you that Liquozone does as we claim. We would certainly not buy a bottle and give it to you, if there was any doubt of results; you want to be well and to keep well. Then be fair enough to yourself to accept our offer today. Let us show you, at our expense what this wonderful product means to you.

Liquozone costs 50c and \$1.

CUT OUT THIS COUPON

For this offer may not appear again. Fill out the blanks and mail it to the Liquozone Company, 458-464 Wabash Ave., Chicago.

My disease is _____ I have never tried Liquozone, but if you will supply me a 50c bottle free I will take it.

763 Give full address—write plainly

Any physician or hospital not yet using Liquozone will be gladly supplied for a test.
