

AMONG THE EXCHANGES OF THE INLAND EMPIRE

Enterprise Needs Better Water.

The movement to procure a better water supply for Enterprise is commendable. The present system is wholly insufficient for a progressive young city. But while we are about it, the new system should be complete and owned by the city. The proper steps are to bond the city for a sufficient amount, purchase the present system, take water from Hurricane creek, the purest and best obtainable, and put in a complete system of sewerage, and do away with the present cesspool system that is befouling the wells and endangering the health of the entire city. The present city council should look into this matter carefully before granting further franchises.—Wallawa Democrat.

Waterspout on Muddy.

A waterspout coming down Muddy Friday afternoon is reported to have done great damage to the Mays ranch, taking out a bridge that had withstood the fury of previous onslaughts, and covering the alfalfa fields with mud and debris. A band of 4000 sheep which was being trailed through to Shaniko, narrowly escaped destruction, being checked within 30 yards of the flood. There were four bands in the outfit, being owned by Chapman & Shown, R. N. Donnelly, Butler Bros. and Robert Keys.—Aptelope Herald.

Sacrifice Sheep Sale.

Sheriff Havird today sold 2600 head of sheep owned by George Baldwin, under execution on account of a claim that the Bank of Commerce was pressing. Owing to the conditions Mr. Baldwin did not realize more than half what the sheep were worth. They were sold in two bands. The yearlings in No. 1, brought \$1.99 per head, while the ewes and lambs brought \$1.70. J. F. Rees being the purchaser. Band No. 2 was sold to John Gerry for \$1.10 per head all around.—Boise Capital News.

Killed by Lightning.

Roy Okey, who was killed at Dingle on Thursday, mention of which was made in yesterday's Capital News, was 15 years of age. At the time he was killed he was engaged in moving sheep camps for Quayle brothers, and was up in the mountains. The lightning struck him on top of the head and killed him instantly. His body was found some hours later by some boys. The funeral will take place tomorrow at Dingle.—Montpelier (Idaho) Examiner.

Fire at Bend.

Hadley & Stevens' saloon building at Bend was destroyed by fire at an early hour last Sunday morning. The blaze started about 3 o'clock from a defective flue and consumed the entire building with its contents. There was no hope of saving the building.

SHEEP TO MICHIGAN.

Charles C. Gage Will Ship 4000 Head From Meacham Thursday Morning.

Charles C. Gage, of Jonesville, Mich., has purchased 4000 head of mixed sheep from J. E. Smith and will load them at Meacham Thursday morning. The shipment will be sent from here to Chicago and transferred from there to Jonesville, Mich., the home of Mr. Gage. He will feed them for the summer there and market them this fall in the Chicago markets. This is somewhat of an experiment in Michigan, but Mr. Gage is satisfied that it will prove to be profitable. He has an abundance of grass and cheap corn and other feed in that country and thinks it is the most profitable way in which to turn it into money.

Mr. Gage and Mr. Beach, who accompanied him, left for Portland this morning to visit the Lewis and Clark fair for a few days before starting home. They will have been in the vicinity of Pendleton for about two weeks and are delighted with the country, and believe it is one of the best countries they ever saw, for a young man to start in. There are hundreds of opportunities here to where there are none in the east for young men.

MOUNTAIN RANGE POOR.

Moving of Idaho Sheep Delayed in Consequence.

The moving of the large bands of sheep to the upper range will commence this week and within a short time the river pasture will be abandoned for the summer. The Thiessen sheep will be taken to the Pierce City section and the Steen sheep will go to the Buffalo Hump. Other stockmen will range in the Hump section and the headwaters of the Salmon river.

On account of the cold weather during the spring the range in the mountains is in poor condition compared with other years while the feed on the lands adjacent to the river is now plentiful. On this account the sheep have been kept on the low lands much later than is the custom, but it is now deemed advisable to vacate the winter range to insure good feed when the sheep are brought from the mountains next fall.—Lewiston Tribune.

Excellent Crop Prospects.

Prof. G. A. Peebles, who is here today upon legal business, says that owing to the abundant rain that has fallen in the Weston country during the past spring, the outlook for a good grain and fruit crop is now excellent. Within the past few days he states the warm weather has caused everything to grow rapidly, and consequently the residents of that neighborhood are well satisfied with the outlook.

A new paving brick combine has been organized at Seattle, with a capital of \$1,000,000. It has absorbed the Renton Clay Works and Denny Clay company.

Itself and the work of the firemen was confined to saving the buildings in the immediate vicinity. None of these was damaged. The loss amounts to between \$8000 and \$9000 with an insurance of \$4000.—Crook County Journal.

Will Vote on Water Bonds.

The city council at its regular meeting last night, passed a resolution authorizing the ordinance committee to draw an ordinance submitting to the citizens of Montpelier a proposition to bond the town for a sufficient sum to install a water system, to be owned and operated by the city. An election will be held about August 1, and it is confidently believed the proposition will carry by a good majority.—Montpelier (Idaho) Examiner.

Alberta Crop Prospects.

According to Dan McIntyre, formerly of Athena, and now of the Alberta country, the crop conditions there are now splendid. In his opinion the outlook is fully as good as it is in this country, and he believes that a good crop will be harvested. While this is the first crop that has been raised by any of the Umattilla county people now in Alberta, other yields have been had by those who went there earlier.

Two Factories Certain.

Word from Salt Lake today removes all lingering doubts as to the immediate construction of the \$2,000,000 sugar plants in this section. Both the Payette and Nampa factories have been financed and the work of construction will begin soon, so that the great plants may be fully equipped for next season's crop of beets.—Boise Capital News.

New Creamery Plant.

The machinery for the new creamery arrived yesterday and is being placed in position today. The building will receive the roof next week, and by the end of the week the building will be practically ready for the machinery, and within about two weeks the plant will be ready for operation.—Troy (Idaho) News.

Reported Big Deal.

It is reported this week that U. S. Cowles has sold his ranch and sheep for \$25,000. But it is also said he only sold a portion of his sheep and a part of his ranch. No one being in town from whom the facts can be learned the rumor can be taken for what it is worth.—Madras Pioneer.

Escaped From Jail.

Last Monday evening Peter Hooper, who was serving a sentence in the county jail on a charge of selling whiskey to Indians, made his escape. Although search was made, no trace of him can be found.—Madras Pioneer.
