NEW YORK LETTER

New York, June 23.—Two noted singers, Etelka Gerster and George Henschel, have been engaged by Dr. Frank Damrosch to teach in the school of musical art which was recently founded by James Loeb with a gift of \$500,000, known as the Betty Loeb endowment. Dr. Damrosch is now in Europe engaging instructors, and he has cabled that he has made contracts with the singers named.

Both Madame Gerster and Mr. Henschel are well known as singers and teachers of the voice. Mme. Gerster, in her time, was one of the most noted of operatic coloratura singers. She came to this country in 1878, 1883 and 1887. Her first two American tours were highly successful, and she was acclaimed as one of the most remarkable operatic sopranos of the century. In 1896 she opened a school for singing in Berlin, where she now lives.

Mr. Henschel is a baritone singer, who has been prominent on the concert stage in this country for 25 years. He spent part of last winter in New York, engaged in lecturing.

Worry and Shock Kill Them.

In commenting upon the great increase in the number of deaths here from heart disease, Dr. Thomas Darlington, president of the board of health, declares that worry and excitement, together with many nerve shocks which come to all New Yorkers in their daily life, are the principal causes which snap the heart strings and make living so uncertain.

The strain of business and cares attendant on fierce competition in the financial center of the city and the worry attendant on anxiety to gain wealth are given as an explanation by physicians of the conditions which exist in the metropolis today. Many young men now succumb to the complaint, where 50 years ago a case was rare when a person under 30 years, unless bothered by a hereditary complaint, died from heart disease.

Three Roads Order 5500 Cars.

The fact that 5500 freight cars were ordered recently by only three railroads gives an idea of what our country can do when it is let alone by strike organizations, rate disturbers, personal profit politicians and the like. Two thousand of these freight cars were ordered by the Burlington, besides 500 box cars. Fifteen hundred are freight cars for the Chicago and Northwestern, in addition to the 1500 ordered by the same company in May. The other 1500 are ventilated cars for the Atlantic Coast line.

It may be noted that in 1904 only 13 roads, of an aggregate mileage of 524, were sold under foreclosure; while in 1896 no less than 58 roads, of an aggregate mileage of 13,720, suffered that fate. This comparison is the more striking in view of the fact that 30,000 miles of new road have been added since 1896.

New Bowery Mission.

Efforts are being made by the board of managers of the famous old Bowery Mission to raise a fund to purchase a new site and erect thereon a new building, the present quarters at 55 Bowery being inadequate for the needs of the mission. New Yorkers who are interested in social betterment work are subscribing liberally to the fund, as it is recognized that few institutions have accomplished more in aiding stumbling men than the Bowery Mission.

Since its beginning in 1879, the work of the mission has been carried on near its present site without interruption. On Thursday nights throughout the year, for the last 11 years, Mrs. Sarah J. Bird, the "mother of the Bowery," as she is called, has regularly held services in the mission. She also conducts a Sunday morning meeting there, and it is estimated that more than 90,000 men yearly attend these meetings.

At the close of each of these meetings Mrs. Bird serves a luncheon and always at Thanksgiving and Christmas the poor downtown families are supplied with large, well-filled baskets. During the last winter breakfast was given to 129,000 homeless men and boys, and the mission has yearly supplied not less than 200,000 meals and from 8000 to 10,000 lodgings.

It has been through the Bowery Mission that men who fill honorable positions in the world today have been reclaimed. For the most part the men stories heard at the Bowery Mission are not told by native New Yorkers, but are related by men who come from homes of comfort and refinement to take up the wage-earning battle here, eager in their belief of the fortune which awaits effort in New York.

Expect Big Corn Crop.

Washington, D. C., June 23.—The government reports from the leading corn producing sections indicate that the condition of that grain is by no means uniform. Reports tell of delay in planting on account of excessive moisture, yet the final acreage does not appear to have been much reduced on that account, and in many states the outlook is bright for a large harvest, provided weather conditions are not below average during the remainder of the season. The expense of the yield will be heavy, because of the extensive planting necessary, but the quantity should be large, since only a small area has been abandoned or other crops substituted.

Huge Task.

It was a huge task to undertake the cure of such a bad case of kidney disease, as that of C. F. Collier, of Cherokee, Ia., but Electric Bitters did it. He writes: "My kidneys were so far gone I could not sit on a chair without a cushion; and suffered from dreadful backache, headache and depression. In Electric Bitters, however, I found a cure, and by them was restored to perfect health. I recommend this great tonic medicine to all with weak kidneys, liver or stomach. Guaranteed by Tallman & Co., druggists; price 50c."

ELEVENTH TRIENNIAL

Over 2,000 Delegates to Sunday School Convention.

Toronto, Ont., June 23.—Everything is in readiness for the formal opening this afternoon of the eleventh triennial convention of the International Sunday School association. The gathering will be opened in the Metropolitan Square M. E. church, with a devotional service to be conducted by the Rev. Floyd W. Tomkins.

Over two thousand delegates are in the city, together with a large number of other visitors. They represent 67 states, provinces and territories of North America, with Cuba, Mexico and Central America.

From all indications this is destined to be the most notable gathering of Sunday school workers ever held on this continent. Many matters, including advanced lessons, teacher training, adult classes and expansion of the international work, will be considered. The list of speakers includes Bishop John H. Vincent, founder of the Chautauqua movement; Bishop W. F. McDowell of Chicago, president of the Religious Education association; John Wainmaker of Philadelphia, superintendent of the largest Sunday school in America; Robert E. Spear of New York, associate secretary of the Presbyterian board of foreign missions, and the Rev. Dr. Jesse L. Hurlburt of South Orange, N. J.

Y. P. M. M. CONFERENCE.

Gathering of Young Missionary Promoters.

Asheville, N. C., June 23.—The third annual conference of the Young People's Missionary Movement began here today and will continue until July 3. Each day of the conference there will be symposiums on vital topics, or one or more platform addresses by prominent speakers, on missionary or devotional themes. The afternoons will be devoted entirely to rest and recreation. The evening hour will be occupied by an out-door vespers service, followed by denominational group meetings, where denominational representatives will formulate, under the guidance of their denominational leaders, plans for the work of the year.

Among the participants are prominent educators, evangelists and divines from many states, both north and south.

A Bad Scare.

Some day you will get a bad scare, when you feel a pain in your bowels, and fear appendicitis. Safety lies in Dr. King's New Life Pills, a sure cure for all bowel and stomach diseases, such as headache, biliousness, constipation, etc. Guaranteed at Tallman & Co.'s drug store, only 25c. Try them.

Seaside Resorts and Return.

To Long Beach, Breakers, Ocean Park, Ocean Side, Sea View, Clatsop Beach, via O. R. & N., \$13.15, permitting stopover at Portland. For particulars call on or address E. C. Smith, Agent, O. R. & N.

Smoke Good Cigars.

A full line of the excellent cigars made by the Pendleton Cigar factory, 13 different brands are sold at the Model Bakery, on Court street.

A stab wound sustained by a young Italian, which had punctured the wall of the heart and penetrated the right auricle, has been sewed up by surgeons at the Harlem hospital, New York city. The operation is difficult and rare, but the patient is still alive and hopes are entertained that he will recover. The operation required 35 minutes.
