PENDLETON, OREGON

## THE OHIO PLATFORM

### DEMOCRATS COMMEND PRESIDENT ROOSEVELT.

Says the National Administration is Doing Right in Buying Canal Supplies in the Open Markets of the World Instead of Buying of American Trusts at Robber Prices--- Ringing Declarations Are Made.

In the recent democratic state convention in Ohio, Mayor Tom L. Johnson of Cleveland, brought up again the plan on which he was defeated last year and won by a vote of 11 to 9, declaring for taxation of railroads as other property is taxed, although he was defeated 8 to 12 on the 2-cent railroad fare proposition. The platform follows:

"The democracy of Ohio in convention assembled announces the following declarations of principles:

"We note with satisfaction the determination of the national administration to purchase supplies for the Panama canal in the markets of the world, and not pay tribute to our protected monopolies. We trust the day may soon come when the common people of this country may enjoy the same privilege and not be compelled to pay the manufacturers for the necessities of life a higher price than these articles are sold for by the same manufacturers to foreign purchasers.  
"We demand of our representatives in congress to aid in the enactment of such laws as will prevent all rebates and secret contracts by railways and will guarantee the same service to every citizen.  
"We favor the conferring upon the interstate commerce commission the power when it finds a rate unreasonable to fix a reasonable rate.  
"The democratic party pledges itself to use its utmost endeavors to eliminate the graft and political corruption that has been nourished and fastened upon the state by the republican party in the last few years. We have seen the blighting effect of boss rule in one of our cities and we call upon the voters irrespective of party to unite in preventing its permanent lodgment in control of our state.  
"We believe in free and unqualified

home rule, free from state interference. Each city, town and village should be allowed to decide for itself all matters of local policy especially as between public and private ownership of all public utilities, including street railways as well as water works and lighting systems, and that provision should be made for submitting such questions to the people upon request from a reasonable number of voters, and at such elections the votes of a majority shall decide. Such public ownerships should be safeguarded by the merit system of appointment and tenure of office so as to prevent the building up of a political machine and the perpetuation of boss rule.

"We declare that the present laws for assessing the property of steam railroads and other public service corporations should be so changed as to compel the assessment of these properties at no less than their salable value and to prevent their evasion of just taxation.  
"We favor the initiative and referendum especially with reference to the issuing of municipal and county bonds and the granting of house franchises."

### IN POWER TEN YEARS.

English Conservatives Are Yet in the Saddle.  
London, July 1.--It will be 10 years tomorrow since the conservatives entered on their long lease of office, Lord Salisbury having become prime minister for the third and last time July 2, 1895.

In spite of incessant attacks on the government in parliament during the last year or so and the difficulty at times of maintaining anything like normal majorities, there is no reason to believe that Mr. Balfour has any present intention of tendering his resignation, nor have the liberal leaders at this moment any real desire to attempt to force him to take this step.  
It is known that Mr. Balfour desires to remain in power at least until important pending questions are settled, such as Morocco and the Russo-Japanese war.

### New Secretary of the Navy.

Washington, D. C., July 1.--In the presence of the president, the cabinet, the Maryland delegation in congress and a number of other friends in official life, Charles J. Bonaparte of Baltimore, took the oath of office as secretary of the navy today.

## NEWS OF ONE HUNDRED YEARS AGO

Advertisements like the one appended are rare even in the North American of a century ago, a publication that contained many announcements that afford one a view of many matters that cannot be secured in histories of the time. The swindler referred to must have been captured for the description is doubtless more valuable than would be one provided by the Bertillon system today. It is evident that the newspapers of the time were employed in the detection of criminals:  
Twenty Dollars Reward.

The public are cautioned against a Swindler, Absconded from Somerville, Somerset Court House, New Jersey, on Tuesday evening the 30th of April last, a man who called himself John Mills and says he is a Scotchman---had taught school near Princeton, New Jersey, and last in the above place. He was a man between 20 and 25 years of age, of middle stature, round face, remarkably proud and foppish, and when walking almost constantly viewing himself, has large angle joints and when he walks they nearly touch the ground, he plays on the flute, is very fond of extolling his own abilities and pushing himself into company---wore a superfine black cloth coat, with round top pinback buttons and a very high crowned black Castor hat, and says he has acquaintances in Baltimore, having first arrived at that place in business there---he rode a remarkable horse which was not his property---the horse is pale dun with cropped ears, wind broken, and muddling old and generally travels a rack. Whoever will secure said Mills in any goal in the United States, and send a letter to the Subscribers at Somerset Court House, New Jersey, by mail, informing thereof, shall receive the above reward from us.  
DANIEL LATOURETTE,  
JOHN T. ARASMITH.

The different printers in the United States will do an essential service to the public by giving this a place in their papers for a short time.  
Women readers were not overlooked by the editor of the North American at that time, for many issues contain matters of especial value to the fair sex. The inflammability of muslin dresses doubtless vexed the

women of a century ago; but a remedy was discovered by this paper:

### Hint to Our Fair Readers.

The inflammability of muslin dresses may be prevented by rinsing them out in alum water, made by dissolving the proportion of a hen's egg (or even less) in a quart of water. That by this simple means all danger of life will be prevented, and any one may see, by burning a rag of muslin so rinsed and dried, against another rag unprepared. The first will burn gradually, and with difficulty, whilst the second will flame away instantaneously.

"The Mail" department of May 29, 1895, contained foreign news to April 13, from which the following items have been extracted:  
By the ship Hardware, Capt. Matlock, in 39 days from Liverpool, the editors have received London papers to the 13th of April. The most prominent article is that of the resignation of Lord Melville, on account of being charged by the house of commons of having made an important use of the public money.  
The secret expedition has not yet sailed.--Philadelphia North American.

### MODERN MANGLE.

Pendleton Steam Laundry Adds One of the Most Improved Machines.  
The Pendleton Steam Laundry, Fishman & Peters proprietors, have just put in their modern laundry a Nelson & Kreuter mangle, which was awarded the gold medal at the St. Louis fair.

The new mangle is the first that has been shipped to the far west, but it is in use in all the big cities of the east.  
The new mangle is used for ironing linens, table cloths, towels, napkins, handkerchiefs and other flat work and gives a nice soft finish and they look beautiful. In an actual test 185 sheets, 498 pillow slips were ironed in one hour.

The Pendleton Steam Laundry has also added electric heated band irons which work most satisfactorily and permit of more even and better work.

Those skirts Lee Teutsch is selling for \$2.45 this week, are beauties.

## Whiskey and Beer Habit

PERMANENTLY CURED BY

### ORRINE,

ABSOLUTELY SAFE, SURE AND HARMLESS.

Physicians pronounce drunkenness a disease of the nervous system, creating a morbid craving for a stimulant. Continued indulgence in whiskey, beer or wine eats away the stomach lining and stapes the digestive organs, thus destroying the digestion and ruining the health. No "will power" can heal the inflamed stomach membranes.

ORRINE permanently removes the craving for liquor by acting directly on the affected nerves, restoring the stomach and digestive organs to normal conditions, improving the appetite and restoring the health. Can be given secretly if desired.  
Cure Effect or Money Refunded.

Ask your druggist whom you know what he thinks of ORRINE; he will indorse our statements as truthful in every respect. If ORRINE fails to cure we will refund you every penny paid for it as cheerfully as we took it.  
No Sanitarium Treatment or Publicity!  
No Absence from home or loss of time!

Mothers, wives and sisters, you cannot cure those who are afflicted with this most terrible of all diseases by your fervent prayers, or eyes red with tears, nor by your hope that they may stop drinking. It can be done only with ORRINE. You have the remedy---will you use it? If you desire to cure without the knowledge of the patient, buy ORRINE No. 1; if the patient desires to be cured of his own free will, buy ORRINE No. 2. Full directions found in each package. Price \$1 per box.

All Correspondence Confidential.  
For free book---Treatise on Drunkenness---Write it---write to THE ORRINE CO., Inc., WASHINGTON, D. C.
