MARION COUNTY FRAUDS.

Two Prominent Citizens on Trial for Securing School Land Illegally.

Salem, July 13.—As a result of the land fraud investigations of the Marion county grand jury, which completed its work and reported its findings to the court on April 28 last, together with a number of indictments against individuals charged with commission of fraud in the manner of securing certificates of sale of thousands of acres of school land, warrants of arrest were yesterday served upon A. T. Kelliher and Justice of the Peace H. H. Turner, both of whom were jointly indicted upon two separate counts for forgery and uttering forged instruments, respectively. Both defendants were arraigned before Judge Burnett yesterday afternoon and given until 9 o'clock tomorrow morning to plead.

The recent action of the state land board in investigating the list of certificates furnished by the grand jury, as having been obtained through fraud and subject to cancellation, developed that the greater number of the certificates of sale held by the De Laitres and others of Minneapolis, Minn., were obtained from Mr. Kelliher, according to the statements of John De Laitre, and now the state land agent has made formal complaint to the land board of their alleged fraudulent character and the holders have been notified of the contemplated cancellation of the same by the board.

The list of certificates held by the De Laitres, and parties represented by John De Laitre, aggregate over 23,000 acres of valuable timber land, while that furnished by the state land board by the grand jury, as bearing evidence of having been obtained through fraud, represent a total of nearly 500,000 acres, and with the recommendation that an investigation be made into their legality with a view of cancelling them where the alleged fraudulent manipulations were proven to exist.

INDICTMENTS AT BOISE.

Federal Grand Jury Probing Idaho Frauds

Boise, July 13.—The first indictment by the special United States grand jury which is now investigating timber frauds in Idaho was found yesterday, being returned to the court during the afternoon. It charges Ivan R. Cornell of Portland, formerly of Lewiston, with perjury on two counts. The action was taken after Cornell himself had appeared before the grand jury for several hours on Monday afternoon, and the testimony of other witnesses had been taken, including the presentation of affidavits.

The first count charges Cornell with having made false sworn statements on June 19, 1903, in making his entry upon a timber claim in the Lewiston

land district. He asserted that it was made for his own use and benefit, when, in fact, it is alleged, he applied for the purchase of the lands in question as the agent of George H. Kester of Lewiston, and "other persons to the grand jury unknown."

The second count recites that in making the final proof of the timber claim in question he testified, in response to questions, that he had received the money from his father and other members of his own family four or five days previous, when in fact it was furnished him by Mr. Kester on the same day—September 10, 1903.

RAILROAD TO JOSEPH.

W. J. Cook, a Promoter, Said to Have Secured Right of Way.

If the alleged plans of W. J. Cook, a promoter claiming to represent New York capital, are carried out, a railroad will be built this year from Elgin to Wallowa bridge, and next year from Wallowa bridge to Joseph.

Engineers have been at Elgin several days and are now engaged in running lines down the Grand Ronde. The proposed route is from Elgin down the Grand Ronde to the mouth of the Wallowa and up the Wallowa river into the valley of the same name, one of the garden spots of Eastern Oregon, and said to be an undeveloped mining country, now removed from transportation.

The proposed road is supposed to be an independent one. Mr. Cook claims to have right of way secured as far as the fish hatchery on the Wallowa, via the junction of the Grand Ronde and the Wallowa. The promoter says grading will start in a month.

WASHINGTON'S PEN.

Jute Mill Manufactured 151,450 Sacks During Past Month.

There are 744 prisoners in the state penitentiary, according to the monthly report of the warden, says the Walla Walla Statesman. This is an increase of 17 over the previous month. The expenditures of the institution were \$523,556. The jute mill manufactured 151,450 sacks and 171,900 yards of burlap. The brick mill turned out 295,800 bricks.

At the eastern Washington hospital for the insane the average number of inmates during the month was 483, a net increase of 11. Twenty-two patients were received during the month, which, with the exception of March, 1905, when 23 were received, breaks all monthly records. Nine patients were discharged and two died. The expenditures were \$5647.13.

"Spotter" Was Whipped.

It is reported that a railroad "spotter" who has been working as a brakeman at La Grande, was given a wholesome whipping by several railroad men at La Grande last evening and driven out of town. The "spotter" is one of the most despicable characters in the entire railroad service and his reception among railroad men is not the most fraternal.

To Hold Court in Heppner.

Circuit Judge W. R. Ellis and Stenographer J. S. Beckwith, left for Heppner this morning, where a session of circuit court will be held.

GOT HIS HAIR BACK.

Was Perfectly Bald When He Started to Use Newbro's Herpicide.

Frederick Mansell, Maryland block, Butte, Montana, bought a bottle of Newbro's Herpicide, April 6, '99, and began to use it for entire baldness. The hair follicles in his scalp were not dead and in 20 days he had hair all over his head. On July 2 he writes, "and today my hair is as thick and luxuriant as any one could wish." Newbro's Herpicide works on an old principle and with a new discovery—destroy the cause and you remove the effect. Herpicide destroys the germ that causes dandruff, falling hair, and finally baldness, so that with the cause gone the effect cannot remain. Stops falling hair at once and a new growth starts. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

A. C. Koepfen & Bros., special agents.

THREE WERE FINED

DEFENDANTS CAME FROM IDLE HOUR PRECINCTS.

Were Taken in on Warrants Following Investigation by Night Officer Manning—Two Gave Alias Names, But All Were Fined on a Charge of Disorderly Conduct—One Offender Said to Have Not Put in an Appearance in Court.

Evidently the police officers propose to visit the Idle Hour saloon when they deem their presence necessary, regardless of whether or not they are requested to do so by the proprietor, John Garrison.

Night before last a party said to consist of Garrison, John Estes, Mrs. Estes and Jennie Kidd were in the office of the saloon and becoming boisterous were called upon by Night Officer Manning to quiet down. To this order exception was taken by the proprietor, who told the officer that he would send for a policeman when one was needed in his place.

However, the police apparently preferred to judge for themselves as to the need for their services, for yesterday a warrant was issued for the four members of the party, and they were requested to appear in police court this afternoon at 1 o'clock. At that time three of them, giving the names of John Doe, John Garrison and Jennie Doe, appeared and pleaded guilty to the charge of disorderly conduct. A fine of \$10 was given Garrison, while the other two were let off with \$5 each.

EXCELLENT SAMPLES OF GRAIN.

Umatilla County Exhibit Is Being Enlarged and Improved Every Day.

S. H. Foreshaw, who has charge of the collection of agricultural exhibits for the Lewis and Clark fair in Umatilla county has just sent down another lot of samples, including sheaf wheat and onions.

The samples of wheat included one sheaf of red chaff from the farm of Henry Lorenzen, north of the city, which it is estimated will yield 35 bushels per acre. Mr. Lorenzen has 580 acres of this kind of wheat which is excellent this season.

Another sample was a sheaf of Russian red from a 320-acre field owned by Purl Bowman, which it is said will yield 40 bushels per acre. The heads are well filled and fully three inches in length, and will be one of the finest wheat exhibits to be seen at the fair.

An exhibit of onions from the garden of A. L. Box just west of the city was also sent down today. These onions were Yellow Globe Danvers, and were very large and smooth and will surpass everything at the fair.

PENDELTON ART EXHIBIT.

Copy of New Telephone Directory Will Be Sent to Printing Exhibit at Lewis and Clark Fair.

"Pendleton will overlook a chance to win immortality in art if she does not send a copy of the new telephone directory to the printing trades exhibit at the Lewis and Clark fair," said a business man today, after a long and pleasurable perusal of the pages of this new production.

"It's chief claim to attention is that there is not a page free from mistakes, either in telephone numbers or in the names of well known citizens. "A copy of it should be deposited with other curios and mementoes in the corner stone of the new Eagles' building, to be preserved for future generations that they may look back in pride on the handwork of their forefathers."

WILL VISIT AERIES.

Mr. Hinkle Accompanied by His Wife and Sister-in-Law.

J. T. Hinkle, accompanied by Mrs. Hinkle and the latter's sister, Miss Florence Cooper of Washtucna, Wn., left this morning for The Dalles. At that place Mr. Hinkle will meet with the aerie of Eagles tonight, and from there the party will go by boat to Portland. While below they will also visit Oregon City and Astoria, where Mr. Hinkle will visit the local aeries at each place. The Astoria lodge will hold a flag-raising at Fort Clatsop, and Mr. Hinkle will deliver an address.

SACKS ARE 8 1-2 CENTS EACH.

Estimated That It Will Require 2,000,000 to Handle Umatilla County Crop.

Grain sacks are now being sent into the farming districts in large numbers, the price being 8 1-2 cents each now, although it is thought this price may be reduced later in the season.

LIKE OIL PAVING.

Walla Walla People Will Extend Oil Sprinkling Indefinitely.

The citizens in a number of different sections of the city are discussing the proposition of forming local improvement districts for the purpose of having their streets paved with oil, says the Walla Walla Union. They have seen the success of oiling the streets as exemplified in the experiments conducted by the council a short time ago, and as there is a threatened shortage of water during August they are anxious to get the dust started as soon as possible, that the dust may be eliminated before the water is gone.

The oil which was placed upon the streets in the most simple and economical manner possible by order of the council, has proved a wonderful success, and plainly shows what the

result will be if put on according to the California plan of paving.

No water is needed on any of the streets that were the subjects of the experiments and the odor is becoming noticeably less.

Among those who are endeavoring to have the street in front of their homes paved with the oil are S. B. Calderhead of the W. & C. R., and W. H. Stine. The cost of the paving is announced at \$1 per front foot.

BACK FROM SEATTLE.

Manager K. J. Taylor, of the Frazer, Secures Fine Line of Attractions for the Coming Season.

"Glad to get back expresses it mildly," said K. J. Taylor, manager of the Frazer theater, who returned from Seattle this morning. Mr. Taylor has been absent four weeks, most of this time being spent in his old home, Seattle.

In company with his sister he visited the Lewis and Clark fair and was delighted with the attractions there, being especially impressed with the government exhibit which is highly educational.

In speaking of the attractions for the coming season at the Frazer Mr. Taylor says he has secured a fine line of productions. The season will be opened early in September with "Si Perkins," one of the best comic rural plays on the road. Others which will come early in the season are the Williams Opera company on a return engagement here; Florence Roberts and a first-class repertoire company.

Mr. Taylor is now in love with Pendleton and has no desire to live in Seattle after residing here for almost two years. He will devote his time exclusively to making the Frazer theater an attractive and delightful theater for Pendleton, and is here to stay.

Increasing Passenger Traffic.

An extra passenger train consisting of eight cars followed No. 6 this morning, the east-bound O. R. & N. train. No. 6 had 10 loaded cars and there were two sections of No. 5, the west-bound last night, one of 12 and one of seven cars. There is scarcely standing room in any of the trains, and it is possible that a regular passenger train will be put into service until the close of the fair if the traffic continues as heavy as at present.

Stole From Burning Residence.

Yesterday during the fire in the J. M. Cook residence on South Thompson street some one stole a valuable watch from an upstairs bedroom and at this time it has not been recovered. Suspicion is fixed upon one or two people and every effort will be made to locate the thief and recover the property. Insurance losses on the building have not yet been adjusted.

Replevin of a Horse.

Suit was commenced in the circuit court today to test the legality of a sale of impounded stock. The action was brought by J. W. McCormick against F. Hemm, and is to replevin a horse that was purchased by the latter at a sale held in this place, a short time ago. The contention of the plaintiff is that the sale was not made according to the ordinance.

Will Bridge the Clearwater.

Since the announcement was made of the purpose of the O. R. & N. to build the Riparian line to Lewiston, where connection will be made with the new line to be built to the prairie country, there has been increasing discussion regarding the construction of a wagon bridge across the Clearwater at Lewiston.—Lewiston Tribune.

Portland Demands Hogs.

W. T. Cross, who has just returned from Portland with a train of 10 cars of hogs for the Union Packing company, left this forenoon for Kearney, Neb., for another trainload of 10 cars. He states that hogs are in great demand in Portland.—La Grande Observer.

After the Macques.

Under the new law which affixes a heavy penalty for ledw cohabitation, a number of instances have occurred recently throughout the state where prosecutions have been started. That the "macque" must go is plainly written and while the law is to be enforced let it strike Baker City. There is material here for prosecution.—Baker City Democrat.

New Park at The Dalles.

At their recent meeting the school board authorized the surrender of the lease to the Union street school grounds to the city to be used as a park. This was done at the request of the voters, who so expressed themselves at the school election.—The Dalles Chronicle.

Waiting to Hear From Wolverton.

No action was taken in the Martin case today, owing to the failure of Judge Fee to receive a reply from Chief Justice Wolverton, who was found to be absent from Salem when the message reached him yesterday. Consequently, the matter will now have to rest until the return of Judge Ellis.

At Hammond in Town.

At Hammond, formerly of this city, and now of Nelson, B. C., is here today, a guest at the Golden Rule. He was formerly an O. R. & N. conductor and for a time was in charge of the Golden Rule hotel, and is well known to all of the old-timers here.

Funeral of B. F. Lane.

The body of B. F. Lane, who died yesterday at St. Anthony's hospital, will be shipped this evening to Nolin, where the funeral will be held tomorrow. The wife of the deceased died two years ago last January.

Marriage License.

A marriage license was issued today to Chris J. Nograd and Petra Rasmussen, both of this county.

Daughter Born.

A daughter was born this morning at 10 o'clock to Mr. and Mrs. W. F. Taylor.

Ridicule is but a sword of lead when it strikes at righteousness.
