STOCKMEN'S EXCURSION.

O. R. & N. Will Run Special to Portland on September 18.

In order that Oregon stockmen may attend the Lewis and Clark livestock show, which opens at Portland on September 19, the O. R. & N. company will run a special stockmen's excursion from Huntington to Portland on Monday, September 18, the train to reach here about noon, of that day. The livestock show promises to be

one of the principal attractions of the fair, and every stockman throughout the state is making preparations to go. Over 500 head of cattle will be on exhibition, 300 head of horses, 300 head of sheep and 200 goats. The

sheds for the livestock are now com-plete and many of the stock are there now being prepared for the exhibit. A. C. Ruby, of this city, will exhibit several head of imported horses, this

exhibit promising to be one of the principal attractions of the show.

The Penalty in China.

A San Francisco Chinaman, with the sententiousness of his kind, after some experience of American law, once remarked: "Chinese law firstman killiee man China, head no ketchee him, somebody head off, mebbe cousin head off. English law second-class; him ketchee man, mebbe allee same head off. Melican law no good, too muchee slupleme court."—The Argonaut.

THE LAXATIVE OF KNOWN QUALITY There are two classes of remedies: those of known quality and which are permanently beneficial in effect, acting gently, in harmony with nature, when nature needs assist-

ance; and another class, composed of preparations of unknown, uncertain and inferior character, acting temporarily, but injuriously, as a result of forcing the natural functions unnecessarily. One of the most exceptional of the remedies of known quality and excellence is the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., which represents the active principles of plants, known to act most beneficially, in a pleasant syrup, in which the wholesome Californian blue figs are used to con tribute their rich, yet delicate, fruity flavor. It is the remedy of all remedies to sweeten and refresh and cleanse the system gently and naturally, and to assist one in overcoming consti-pation and the many ills resulting therefrom. Its active principles and quality are known to physicians generally, and the remedy has therefore met with their approval, as well as with the favor of many millions of well informed persons who know of their own personal knowledge and from actual experience that it is a most excellent laxative remedy. We do not claim that it will cure all manner of ills, but recommend it for what it really represents, a laxative remedy of known quality and excellence, containing nothing of an objectionable or injurious character. There are two classes of purchasers: those who are informed

to the quality of what they buy and the reasons for the excellence of articles of exceptional merit, and who do not lack courage to go elsewhere when a dealer offers an imitation of any well known article; but, unfortunately, there are some people who do not know, and who allow themselves to be imposed upon. They cannot expect its beneficial effects if they do not get the genuine remedy.

To the credit of the druggists of the United States be it said that nearly all of them value their reputation for professional integrity and the good will of their customers too highly to offer imitations of the
