AMONG THE EXCHANGES OF THE INLAND EMPIRE

Big Fish Creek Project.

S. D. Boone left yesterday for the head of Fish creek, expecting to be away four or five days. He goes to look over the site of an irrigation reservoir that he said Charles Hernsheim proposed to construct next year.

The reservoir will be so situated on Fish creek as to conserve the water from that stream and its tributaries, and it will afford a supply of water sufficient to irrigate 75,000 to 125,000 acres of land even in the dryest years. This land will be within 10 to 20 miles of Carey and, therefore, directly tributary to that town. It being lava soil, it is very fertile and will produce almost any crop of the temperate zone.

While the water will be sold with the land, it will hardly be upon as great a pro rata as has been done heretofore, as too much water has generally been used in irrigating in this region. Better crops could have been gotten with less water. If the company follows present plans it will collect in its reservoir a sufficiency of water to irrigate 250,000 acres.—Hailey Times.

Big Coal Vein Near Council.

The best mining news ever brought to Council was the announcement that a four-foot vein of bituminous coal had been found, near the Warm Springs on the Middle fork, by Ben Shaw, C. A. Barber and others, who had been prospecting for some time in that section in hopes of finding the source from which the big slab of coal found near there a number of years ago had come. The piece of coal which led to the discovery, was found far down in the canyon and had apparently broken from an outcropping vein and rolled or been washed to where it lay when discovered. It was four feet thick, the same wide and full eight feet long, and absolutely pure coal.—Council (Idaho) Advance.

Idaho Prunes Are First-Class.

"This car from Weiser was the first really good car of prunes we have received this year." That is the message of a letter from the New York representative of the Earl Fruit company to F. V. Martin, of Boise, the local agent of the big fruit concern, that has just been received. On the same day that Oregon and Washington prunes brought 88 cents in the open market, the Idaho product brought 95 cents, with the words of warm praise above quoted thrown in for good measure.

There are now about 15 cars of fruit being shipped from southwestern Idaho each day, this including all the shipments from Mountain Home to Weiser. It is expected that between 75 and 100 cars will be sent out during the present week. C. J. Sinsel, of this city, is the largest individual shipper, the product of his force at the packing house being three and four cars per day.—Boise Statesman.

Water Scarce for Hydraulic Mining.

J. W. Grasty, the well known miner, is down from his mine on the upper Grand Ronde for the winter. Mr. Grasty reports unusual activity in the camps above and good prospects await him when the spring thaws come next season. He says the company that purchased the Muir mine is shipping in the machinery for their quartz mill to be erected. The Grand Ronde mining company is still using its hydraulic giant, although they can secure four and a half hours' use of the water every two days.—La Grande Observer.

Sumpter Postmaster Resigns.

Frank G. Jewett has tendered his resignation as postmaster at Sumpter, owing to continued poor health, coupled with a well developed Nevada fever, which has possessed him for something better than a year. Major H. S. Buck is said to be the most likely candidate to succeed him.—Baker City Democrat.

Incendiary at Baker City.

Early Sunday morning a man was discovered applying the torch to the piles of dry slab wood surrounding the Sumpter Valley railway tracks in South Baker. The watchman accosted the firebug who ran away before he could be caught. It is believed his identity is known and a close watch is being kept over the suspected party. —Baker City Democrat.

Cold Storage at Connell.

The Yakima Brewing company has secured a site on the Northern Pacific warehouse siding at Connell, on which it will at once erect a large cold storage plant. Connell will become the distributing point for beer and ice in Franklin, Adams and that part of Whitman tributary to the O. R. & N.

Phone Line to Steins Mountain.

A crew of men have again been started out by M. L. Lewis to build more telephone lines in this county. This time the men have gone to Lawen to begin work on the line to the Steins Mountain country, which they hope to complete as soon as possible.—Burns Times-Herald.

Eiler's Piano House

Their new store on Main street will soon be complete. In the meantime there are yet a few bargains left from the Gordon & Guernsey stock that were purchased at such a low figure. Discriminating buyers—those who want something fine in a piano but do not feel that they are able to buy an instrument good enough in the ordinary way—should investigate this greatest piano sale Pendleton has ever known. Many have purchased some of them, getting a piano for $200 that they would have ordinarily to pay $400 for, and please remember, if you come in tomorrow, you will get the greatest bargain of all, and also if this proposition is a little sudden, you can make a small payment down and a little each month; just like renting and you save from $100 to $200. Please remember, that Eilers Piano House are the largest piano dealers in the west; that they have taken a two-year lease on the Main street store; that they are here to stay; also, that they have not and will not have a dissatisfied customer.

PORTLAND DAY.

Saturday, September 30, Will Be the Big Day at the Fair.

Portland, Sept. 21.—September 30 will be the biggest day of the entire Lewis and Clark exposition. The people of the home city, and a great many from nearby towns, as well, will turn out in great numbers on that day, and it is expected that the attendance will break all previous records, exceeding even that of the Fourth of July, when the turnstiles registered 53,708 visitors.

September 30 is regarded as an especially fitting date for the big celebration, following, as it does, immediately upon the close of the stock show, which will be held from the 19th to 29th, inclusive.

A majority of the stores and other business houses of Portland will close for the day, in order to give their employes an opportunity to attend the celebration. There will be no formal exercises but the day will be made one of general merrymaking. Every visitor will be presented with a coupon which will entitle him to a chance for a valuable prize. In the evening there will be the biggest display of fireworks ever shown in the west.

The day of the home city at an exposition always has been its best day. At Chicago the enormous attendance of 716,942 was rolled up. At St. Louis it was 404,450; at Buffalo, 162,424, and at Omaha, 98,845. While each of these cities exceeds in population that of the exposition city of 1905, it is predicted that the attendance on Portland day will reach 60,000, while some estimates even place it at 100,000.

Second Fire at Grangeville.

Fire broke out Tuesday evening at Grangeville, Idaho, in Oliver's blacksmoth shop. A brisk wind was blowing and for a time it looked as though the balance of the business houses would be wiped out.

The blacksmith shop, a large square house and two buildings to the north, owned by Dr. Bibby, were completely destroyed.

Buildings on Main street were on fire several times from sparks, but the fire was checked by hard work on the part of the firemen.—Spokesman-Review.

National Convention Women's Christian Temperance Union, Los Angeles, October 25-November 2, 1905.

Account above occasion, the O. R. & N. makes a rate of $47.15 for the round trip. Dates of sale October 19 and 20. For particulars, call on or address E. C. Smith, agent O. R. & N.
