

Brains vs. Tears

A big commission is never paid by the Golden Rule Store to some foreigner to come in and run our business for us. We have nothing but sympathy and tears for those who by nature lack the capacity to manage their own affairs. It is their misfortune—they can't help it.

We believe there is but one thing that will draw and hold trade, i. e. real bargains. On these we rely. It makes no difference what others may advertise. We will save you money on every purchase.

The total of yellow fever cases at New Orleans to date is 2368, of which 170 have resulted fatally and 282 are under treatment.

A runaway team dashed into a San Francisco street car. Mrs. Della Gallagher, her 5-year-old son, and James Leaster, were severely injured.

A Dubuque, Iowa, firm has the contract for supplying 10,000 tons of vitrified brick for repairing the city of Panama. The Iowa brick is said to be the best made for withstanding that climate.

At Oyster Bay, New York, two white men, an Italian and an American, quarreled over a negro. John Murray was shot and killed by the Italian, who escaped.

The Dixie forest reserve with 455,500 acres, 99 per cent of which is now government land, has been set apart in southwestern Utah, in Washington and Iron counties.

A collective note signed by Great Britain, Germany, Austria, Italy and Russia has been handed to the porters declaring their unalterable purpose to assume charge of the finances of Macedonia.

A log raft 735 feet long, 55 feet wide and 23 feet deep, and containing 10,000,000 feet of lumber, was towed into San Francisco bay recently. It was five and one-half days from the Columbia river.

Alderman Moritz C. Weurz of Kansas City has started on a three weeks' fast with the view of reducing his weight. Before beginning his ordeal he tipped the beam at 250 pounds and he is determined to reduce this by at least 100.

The province of Newfoundland is deeply committed to the government ownership of public utilities principle, and has issued a loan of \$2,000,000, bearing 3 1/2 per cent interest for the purchase of all the telegraph lines in the province.

French and German naval experts have just discovered that the British naval base at Singapore is an absolute key to the China sea, and that it can be used to shut out all European navies, should Great Britain so elect. Great Britain "saw the point" about 40 years ago, when she obtained possession of the port.

The wreck of the lumber schooner Edward L. Allen has been floating off the New England coast ever since its abandonment June 24. The cruiser Columbia has searched for it several weeks, finding it September 24. It required three heavy charges of gun cotton to effectually break it in pieces. This dredget has been an especial dread to navigators, though it had done no damage except in loss of time by running slow, which all craft were compelled to do after night, in those waters.

REAL ESTATE.

We have more property listed for sale than we can handle, and consequently are compelled to refuse to list property unless the price is right. We get the seller's very lowest price, as if buying for ourselves, and frequently have absolutely refused to list property at prices other firms formerly had it listed.

We have been in the county for 20 years, and moreover have bought and sold approximately \$700,000 worth of city and country property and claim to know values.

We have good wheat lands and stock ranches, but we make a specialty of city property and can, for four hours fast driving with horse and buggy, show you city property for sale.

We select our own list and sell what we choose. If you are thinking of investing you cannot afford to do so before seeing us, and whether you buy of us or not is immaterial. We will be glad to see you, and show you samples.

We are members of the Interstate Investors' Association, composed of the leading real estate firms chosen, one from each of six hundred counties throughout Western United States and Canada. We can handle property for you in these counties as well as if we were there.

Familiar Features Well Known to Hundreds of Pendleton Citizens.

A familiar burden in every home. The burden of a "bad back." A lame, a weak or an aching back. Tells of kidney ills. Doan's Kidney Pills will cure you. Here is Pendleton testimony to prove it:

Mrs. C. C. Hendricks, wife of C. C. Hendricks, insurance agent, living at 408 Court street, says: "When I first heard of Doan's Kidney Pills I had been suffering for over a year with pains in my loins and back and with a weakness of the kidneys, and I therefore decided at once to try the pills. I got a box at the Brock & McComas Co. drug store. They entirely relieved the backache and up to this time I have had no return of the trouble. Only the other day I told a lady friend who is suffering from kidney trouble, to try them and have recommended them to others. I shall continue to do so."

HEPPNER PROPOSES NEW SOLUTION OF PROBLEM.

The Town is Prosperous, But Its Development is Greatly Impeded by Recognition of the Possibility of Another Flood—A Colorado Expert Says \$10,000 Would Make the Town Safe—The Relief Money "Balance" May Be Expended on Willow Creek.

Although about a dozen new residences have been erected in Heppner this year, the city has not gone ahead as rapidly as the conditions warrant, says the Heppner Times. The reason for this hesitating spirit on the part of our people to build more rapidly is the fear of high waters, such as visited our city in June, 1905. It is not because they do not have faith in the town in a business way, for the prospects were never brighter for a greater Heppner than they are today.

What we need now is to restore confidence in the people from a repetition of an avalanche of water such as visited our fair city two years ago. Such a disaster can be averted by straightening, widening and deepening the channel of Willow creek within the borders of the town. It is estimated that this can be done for \$10,000 to \$12,000.

Mr. G. W. Derrick of Creede, Col., who is here this week buying sheep, informs the Times that his town is situated in a canyon similar to that of Heppner, the only difference being that the Colorado stream, which is also Willow creek, is more treacherous than our Willow creek because the fall in the stream is much greater than ours.

To avoid such calamities as befell our city the Creede people applied to their state legislature for help and received \$6000 toward widening, fluming and straightening the channel of the stream through their town. To this sum the city and citizens added \$4000, which completed the work of half a mile in extent, the channel being widened to 25 feet and to a depth of five feet provided with check dams every 10 or 12 feet.

Mr. Derrick thinks that Heppner can be made perfectly safe from all high water at a cost not to exceed \$10,000. While we would have longer line of channel to reconstruct than did the Creede, we would not have the expense of check dams as the fall in our stream is not nearly so great as in the Colorado stream.

It is not improbable that Heppner could secure the fund subscribed by Portland for this city just after the flood, which was never used, as our town did not desire to receive any more than she absolutely needed. If we cannot get that fund there is a way to raise the money for making our city safe from high water, and it should be the first move of our commercial club to take the matter up and push it to a successful termination. Let us prove to the outside world that we are a progressive people and can make of our city what her resources justly entitle her.

FLOTO SHOWS COMING.

Circus Beautiful Will Be in Pendleton on October 6.

No tented amusement enterprise on earth has met with such continuous praise and applause as has the great Floto shows, which will appear here on October 6. An ovation greets this clean and beautiful organization at every point in its annual tour.

From the cold waters of Hudson bay to the Rio Grande and Pacific shores the name of Floto is a household word, and the coming of the great Floto shows that bear his name is greeted always with a hearty welcome.

From the genesis of the show until its present colossal perfection, there has not been a solitary season in which it has not led its fellows in the multiplicity and general excellence of its attractions, and now it towers above and dwarfs all other tented exhibitions in comparative insignificance, and this season it presents such an opulence of sterling and meritorious attractions as to entitle it to be designated as a vast amusement Golconda whose wondrous wealth of entertainment is unlimited and immeasurable.

The circus has always been the best and biggest, always in the van, always prolific in leading and sensational figures, and always fully equipped with the finest stud of horses and the most skillful and finished bareback riders, gymnasts and acrobats in the profession, that has a large, well ordered menagerie containing living, vigorous specimens of all that is strange, rare and curious within the range of natural history, and that this royal Roman hippodrome is a vivid and realistic production of that of the days of the imperial Caesar.

Like Finding Money.

Finding health is like finding money—so think those who are sick. When you have a cough, cold, sore throat, or chest irritation, better act promptly like W. C. Barber, of Sandy Level, Va. He says: "I had a terrible chest trouble, caused by smoke and coal dust on my lungs; but, after finding no relief in other remedies, I was cured by Dr. King's New Discovery for Consumption, Cough and Colds." Greatest sale of any cough or lung medicine in the world. At Tallman & Co. and Brock & McComas' drug stores; 50c and \$1.00; guaranteed. Trial bottle free.
