Mrs. Preston W. Search and son, Frederick, left this afternoon for Portland, expecting to go down on the boat from The Dalles, in order to enjoy the beautiful scenery along the Columbia. Prof. Search joined them here today, having come over from Baker City, where he lectured last night.

DECISION WAS WITHHELD.

Arguments Were Made Today in Little Walla Walla Case.

In the circuit court this afternoon arguments were heard from the attorneys in the Little Walla Walla irrigation suit. The discussion was all on the motion which had been filed by the attorneys for the defendants asking that the order of Oregon a court making the state of Oregon a party to the suit and requesting the state engineer to make a survey of the lands involved, be set aside. For the defendants A. D. Stillman, Judge James A. Fee and Judge S. A. Lowell spoke in favor of the motion, while the side of the plaintiff was represented by Will R. King, of Ontario. Also aside from the above attorneys, R. J. Slater, G. T. Godwin and S. D. Peterson, all of whom have interests in the case, were present.

It was maintained by the defendant attorneys that the state was not properly a party to the suit, and that the ex parte order given by the court in August requesting the state engineer to make a hydrographic survey of the lands should be vacated.

At the conclusion of the arguments Judge Ellis stated that the decision of the court would be withheld, and that October 21 was set for the time for arguing demurrers that have been filed by the plaintiff attorneys. Also, it is probable that the decision regarding the survey will be given at that time.

HARTMAN & BENTLEY

PHONE MAIN 64.

COURT ST., PENDLETON, ORE.

travel has arisen in the railroad world. Since the completion of the San Pedro, Salt Lake and Los Angeles or Clark road from Salt Lake, direct across the American desert to Los Angeles, the distance from the northwest to southern California has been shortened. It is said that it is a shorter route from Butte, Helena, Spokane, Boise and all the inter-mountain districts to Los Angeles to go by way of this new line than by way of Portland and the Southern Pacific and hereafter many tickets will read by way of the San Pedro from Salt Lake.

Yesterday evening two families from Roseland, B. C., came in over the O. R. & N. and left last night for Salt Lake, from which point they will go to Los Angeles by way of the San Pedro road.

While the new road crosses the desert and in places it is necessary to haul water for the stations, yet the route is shorter and that is the main question.

The finishing touches are now being given to the San Pedro road, according to reports from railroad men who have just returned from there.

Hundreds of thousands of new ties are now being shipped from the Willamette valley mills to the San Pedro road, dozens of cars passing here every day destined for points along that line.

The San Pedro has a large number of new steel cars, which are being used in the tie shipments.

CAN'T RESIST BUYING.

Sale of Government Goods in the Bowman Building is Drawing Great Crowds.

The great sale of government goods in the Bowman building, continues to attract large crowds and more purchasers for the bargains that their neighbors have secured speak for themselves. Many are availing themselves of the opportunity to secure a Springfield rifle for use and others for relics. The price is so trifling as to be irresistible. Relics of various descriptions are being bought for ornaments, while hundreds of people are buying clothing, blankets, army hats, navy shoes, artillery boots, khaki suits and articles to wear, because they are so extraordinary cheap.

The sale positively closes Saturday. The price will not be lowered so don't put off buying.

Short Line After Artesian Water. Mountalnhome is congratulating herself on her good fortune in the Short Line installing a well drill with instructions to go deep enough to get a flow of water. The last place the drill worked a depth of 1700 feet was reached. An artesian flow has long been desired here and when flowing water is located to a certainty it is hoped that arrangements will be made to get a city water plant. Progress is being made at the rate of about 20 feet a day and a 12-inch hole has now been sunk 80 feet.—Mountainhome Bulletin.

General Isaac Wister, recently dead, left nearly \$2,000,000 to the Institute army soldiers. The widow is Mrs. Esther Wister of Pennsylvania, and also his brain and right arm.

OLD SORES

ROOTED IN THE BLOOD

Old Sores are the result of a deeply polluted, foul blood supply. The blood is filled with poisons, and as it finds an outlet through the ulcer, the surrounding parts become diseased, and the sore eats deeper into the tissues and flesh and becomes a permanent trouble.

Some years ago while at work, I fell over a truck and severely injured both of my shins. My blood became poisoned as a result, and the doctor told me I would have to have my shins amputated if they were closed up the result would be fatal. Under this discouraging report I sought treatment and resorted to the use of S. S. S. Its effects were prompt and gratifying. It took only a short while for the medicine to entirely cure up the sores, and I am not dead as the doctors intimated I would be. Having been so signally benefited by its use I can heartily recommend it as the one great blood purifier.

Wheeler, W. Va. J. W. FORDS. Care Schmilback Brewing Co.

Salves, powders, plasters, etc., do no good, and the sufferer gets disgusted and often despairs of curing an old sore. The trouble is in the blood and until the poisonous matter that is keeping up the ulcer is driven out the place cannot heal. S. S. S. reaches these old sores through the blood by removing every particle of poison or impurity from the circulation and building up the system. It makes the blood healthy so that as it circulates to the diseased parts the tissues are strengthened and the sore can heal naturally and permanently. If you have an old sore or ulcer do not waste time with salves, powders, plasters, etc., but write for our book and ask for any medical advice you wish. We make no charge for either.

THE SWIFT SPECIFIC CO., Atlanta, Ga.
