

BLOODSHED AT POLLS EXPECTED

New York City is Seething With the Hottest Political Fires in the City's History.

ALLEGED THE POLICE ARE FAVORING HEARST.

Many of the City's Conservators of Order Openly Fighting the Administration From Which They Get Their Orders and Their Livelihood—The Champion of Municipal Ownership Has a Tremendous Following—Largest Vote in the History of the City is Expected—Jerome for District Attorney is Making a Rousing and Spectacular Campaign.

New York, Nov. 6.—Bloodshed is expected at the polls tomorrow. The police wield an enormous influence, and it is almost certain they will be active tomorrow. They are for any candidate as against Tammany, and will probably show favoritism for Hearst. Every man in the city is talking politics, and every citizen expects to work for his favorite candidate. The largest vote in the history of the city is expected.

All Wall street stopped work at noon, and brokers and bankers all went to a meeting in favor of Jerome. There was a great throng, which listened to a rattling speech by Jerome by Everett Colby. Colby urged his hearers to give the grafters a knock-out blow.

Jerome spoke. He was forced to climb through a window on account of the crowd. He was very hoarse and only spoke a few minutes. He was forced by the crowd to speak again out of doors.

STRUCK A STICK OF DYNAMITE.

Velocity of Train Saved it From Complete Disaster.

Santa Barbara, Nov. 6.—The first section of No. 3, an overland passenger on the Southern Pacific, had a miraculous escape from a wreck at 11 last night, 75 miles from Surf, while making 40 miles an hour over a trestle spanning a chasm 85 feet deep. The head engine struck a stick of dynamite in the middle of the trestle. The force of the explosion cut out a section of rail two feet long, demolishing the pilot of the first engine and damaged the woodwork of the trestle, but the great velocity sent the train over safely.

A wrecking crew went to the scene, accompanied by the sheriff and deputies. The latter are scouring the country for the perpetrators, but find no clue.

INSURANCE MAN ARRESTED.

Charged With Grand Larceny and Bribery—Pleaded Not Guilty.

Minneapolis, Nov. 6.—W. A. Bechtel, former president of the Northwestern National Life Insurance company, and others indicted Saturday, were arraigned today. Bechtel, Campbell, Kerr and Sackett, charged with grand larceny, and Dearth with bribery, all pleaded not guilty.

ADVANCE WOOL SALE.

750,000 Pounds, at a Price That is Held Confidential.

Another big wool buy, covering the clip of 1905, was consummated in Ogden today, when Eisenman Bros. of Boston, contracted for several clips at Casper, Wyo., the aggregate of the purchase amounting to 750,000 pounds. The deal was closed by J. Strenge of Ogden, state representative of Eisenman Bros., and is believed to be the biggest lot contracted for in one day this season though the purchase was made from several different woolgrowers. The price paid was not announced. The buyers are not giving this away. But it was intimated that it was lower than the prices that have recently been prevailing.

Others who are familiar with the deal say that the purchase covers the coarse and heavy wools and that, considering the grades, the figure was an exceptionally good one, even if less than has been paid for some Utah, Idaho and Nevada clips. All of which would bear out the contention that wool will reach higher figures before the delivery of the clip of 1906.—Salt Lake Tribune (Ogden cor.)

Adjourned His Own Trial.

Cleveland, Nov. 6.—Albert H. Darwin, on trial for the murder of Mrs. Anna Gray, of Joliet, Ill., committed suicide in jail this morning. He hanged himself to a steam pipe with his handkerchief. He was probably demented.

RULES FOR DES CHUTES.

Irrigation Company and State Board Reach Agreement.

Salem, Nov. 6.—The rules which were drawn up jointly by the state land board and the representatives of the Des Chutes Irrigation & Power company, for the benefit of the settlers on the lands of the company, were received at the state office this afternoon. They were sent from Portland, where they had been submitted for approval to the directors of the company. It is expected that the rules will be signed by all parties today, and that the Des Chutes controversy will therefore be closed.

The principal rule provides for a fair water supply for settlers. The company agreed to release settlers from their present contracts, with which they are dissatisfied, and make new ones, with the new rules incorporated. After the matter of rules is finally settled, State Engineer Lewis will sign certificates for a small portion of the land of the company, which will then be able to draw interest from the state.

HEAVIEST SHEEP SALES.

Chicago Furnished Market for 267,848 Feeders in October.

Chicago, Nov. 6.—During the month of October there were 267,848 sheep and lambs bought by feeders. This was the largest number in the history of the trade, but the remarkable thing was that this large volume of business was done at prices which were the highest on record.

The fact that values of mutton soared so high when nearly 700,000 head were received in a month proves that unless this supply keeps up the market will continue to be good and may possibly go higher. This is the encouragement that is stimulating feeders to jump in. As soon as the western run ceases and killers have to depend on the native supply, receipts will decrease to small proportions.

Feeders realize that they will be depended on to supply the markets with mutton and there is reason to believe that the demand will need all that is available. Chicago is receiving nearly twice as many sheep as 10 years ago and seven times as many as 20 years ago. It is hardy to be presumed that this ratio of increase will continue in the future.

SIX THOUSAND SLUM WOMEN

PROTEST FROM LONDON'S VICTIMS OF POVERTY.

They Appeal to the Powers That Be for Legislation That Will Relieve Their Misery—Are Told That Their Demands Are Impractical Though They Only Ask for Employment for Those Who Are Now Idle—Inflammatory Speeches Follow the Rebuff Given Them by the Prime Minister, and Threats Intersperse Argument.

London, Nov. 6.—Six thousand women from the slums marched through the city today and presented a demand that the Balfour government take action in their behalf.

The premier and his brother, Gerald Balfour, received a deputation of 18 women, two of whom carried babies. The premier would not promise a special session of parliament.

The women were greatly dissatisfied because they were told their demands were impractical. Leaving Balfour the women listened to violent speeches by some of their number. The speakers were interrupted with cries, "We must follow the example of the Russians."

They adopted resolutions to continue the agitation until every unemployed man willing to work has secured a position.

ASSESSING THE FAITHFUL.

Peace Hath Its Expense List, No Less Imperative Than War.

That peace is costly as well as war, is evident from some of the gentle requisitions for the "needful" that have been sent out by State Chairman Baker since the famous republican gathering at Portland recently.

Along with others of the clan a communication is said to have been sent Hon. R. Alexander of this place, who for some time past has been prominently mentioned for the state treasurer's office. The letter was from Mr. Baker and is said to have been a masterly piece of composition, calling attention to the fact that money is needed to succeed the sacred offices from the hands of pagan democrats, and naming the trifling sum of \$500 as a sufficient amount to be given by one so high in the ranks of the party as the gentleman addressed. However, it is said that the "effort" was in vain, and that thus far no half thousand has been sent from here to replenish the impoverished party exchequer.

E. H. Harriman, it is stated, has declined to join Senator W. A. Clark and his associates in the construction of the proposed railway between Las Vegas and Bullfrog, a distance of 113 miles.

THIRTY OR FORTY THOUSAND JEWS HAVE BEEN MASSACRED

Every Faction of the Mass of Brutality Called the Russian Nation Regards Them as Legitimate Prey.

Several Hundred Peasants Burned to Death, Their Only Offense Being the Gathering Together to Discuss Their Woes and Petition for Relief—Fire Was Deliberately Malicious, and the Deed of Cossacks—Helsingfors, Finland, is Resuming Its Normal Aspect—Business is Being Resumed at Odessa—Linevitch Said to Have Suppressed a Revolt at Irkutsk Without Waiting for Orders From St. Petersburg—Empire is in Turmoil From the Baltic to the Pacific.

St. Petersburg, Nov. 6.—Official and liberals this morning said the attempt to fasten the responsibility for the Jewish massacres upon the bureaucracy is unsatisfactory. They say: "The whole Russian nation is to blame. Every one in Russia regards the Jew as a legitimate prey. When the full reports are in it will show that 30,000 to 40,000 Jews were killed or injured, while not a voice is raised in protest in all Russia, and not an authoritative or official word is said in condemnation. This fact is more horrible than the massacres themselves, and present doubts that the Russian people are capable of governing themselves."

The Jews cannot gain their freedom under a liberal government unless they fight for it then as the liberals are now fighting the autocracy.

Peasants Burned to Death.

Berlin, Nov. 6.—A dispatch says that several hundred peasants were burned to death in the Russian village of Jodosovograd, province of the Don, through the firing by Cossacks of a shed where a political meeting was being held. A thousand persons had gathered to discuss the situation. The prefect was unable to suppress the meeting and approved setting fire to the building. The structure was ablaze a moment after the torch was applied. Only about 200 escaped through a single narrow exit.

Strike Ends at Helsingfors.

Helsingfors, Finland, Nov. 6.—The general strike ended today, and the city is assuming its normal aspect.

Business Resumed at Odessa.

Odessa, Nov. 6.—All is quiet today and business is being resumed. Vessels are being loaded.

Revolt at Irkutsk Suppressed.

St. Petersburg, Nov. 6.—With the resumption of telegraphic communication with the army news of the serious state of affairs at Irkutsk and other stations in trans-Baikalia has arrived here. Upon reception of the news of disorders in Russia, a mob arose at Irkutsk, took possession of

either Burroughs or Saling, was here Saturday and looked over the report. However, he stated that there was nothing to say regarding the affair excepting that he would immediately pay whatever was found to be due from him, and that the errors came through lack of proper information regarding the charges that should be made in the office.

CRITICS ARE CRITICIZED.

Officials Take Exceptions to Clark & Buchanan's Report.

Among the officials at the court house the main topic of conversation during the past few days has been the report which was made to the commissioners by the experts who examined the county records. There is considerable criticism of the report from officials and deputies, for they hold that some molehills were made to loom like mountains. Because some of the methods followed were not just as experts desired, officials were subjected to a criticism which they resent.

In the office of Treasurer Sommerville the work was found to be absolutely accurate and in splendid shape, yet the report on that office would indicate otherwise to the uninformed reader. The bookkeeping work in that office has been done by F. W. Hendley.

In the office of the county recorder the work was also found to be practically perfect and to reflect credit upon Recorder Folsom, who is serving his second term in that office, and on J. W. Maloney, who also held the position for two years.

The severe arraignment made of all the officials by Messrs. Clark & Buchanan is not being taken in all kindness, for it is held to be too much on the Thomas W. Lawson order, and done with the intent to exploit the work of the experts at the expense of the officials. However, proper credit is given Clark & Buchanan for valuable work which they did in discovering the fraudulent work in the sheriff's office and the laxness in that of the clerk.

The report of the experts is still being considered by the commissioners, and no action regarding the collection of the amounts due from the clerks has yet been taken. However, one member of the board said today that it was the intention to require payment of all amounts reported to be due excepting for those charges which can be explained.

W. D. Chamberlain, who was in office during four years of the period investigated, and who consequently has a larger amount to pay than

any other, was found to have been in the county for a longer period than any other official.

SALEM FORGES AHEAD.

Over Two Miles of Cement Walks Built in Past Year.

Over two miles of cement walks have been laid in the city of Salem since Street Commissioner Kurtz took office, the first of last January, says the Salem Journal. This breaks the record for any similar time in the city's history. Cement walks, from being the exception in pavements, a few years ago, are fast becoming the rule. These walks laid this year are both inside and outside of the districts created by the city council wherein all new sidewalks that are put down must be of cement.

The great majority of the walks have been put down in residence districts and have a width of five feet. Their cost averaged 9 and 10 cents a foot. Some walks, however, have been laid in the business section that are 12 feet wide the full distance from the property line to the curb.

Samuel E. Bibby, M. D., is dead at Grangerville. He was surgeon general of the Idaho National Guard.

TO WIN SPORTSMAN'S CUP.

Shooting Tournament Will Be Held at El Paso Mining Congress.

El Paso, Texas, Nov. 6.—Teams of five men each will compete for possession of the silver loving cup offered by the Silver City Gun club for the gun shoot during the American Mining congress to be held here November 14 to 18.

The terms of the shoot were learned this morning by the local gun club from a letter to W. J. Rand. Instead of being a personal trophy, the team winning the shoot will land the prize. While the letter did not contain the information, it is understood that Silver City has a team of five men who are constantly practicing for the shoot. They have no intention, it is said, of permitting the trophy to pass out of their possession.

El Paso will make a strenuous effort to land the trophy. A team will be selected soon and will begin preparation for the contest. It is hoped that other cities will enter teams for the contest.

The program for the shoot during the contest will soon be prepared.

JEALOUS MURDERER.

Kills Wife and Babe With an Ax, and Leaves a Note.

Ottawa, Nov. 6.—Philetander Buerkholder, near Hamilton, killed his wife and 1-month-old baby with an ax and committed suicide with a razor. Neighbors found him pinned to the door with a fork this note of warning:

"We are all dead upstairs; go up with care, nerve yourselves, an awful sight awaits you."

The note also explained the reason, saying he was jealous.

CHICAGO WHEAT MARKET.

Quotations From the Greatest Wheat Market in the United States.

Chicago, Nov. 6.—Wheat closed at \$3.12, corn at 46.1-8 and oats at 37.1-4. The market is extremely dull and little grain of any kind is changing hands at the present.

Two Were Killed.

Chicago, Nov. 6.—A Grand Trunk train hit a street car in the Grand suburb this morning, killing two and injuring five.

NINETY-FOUR APPLICANTS

THAT MANY ARE ON FILE AND MORE ARE COMING.

Present and Prospective Membership of the Pendleton Commercial Association Breaks All Records for the Size of the Place—With the Admission of the Applications Mentioned the Enrollment Will Reach Four Hundred Nearly or Quite—List of Names of Applicants Printed in Full Below.

Ninety-four applications for membership in the Commercial association are now on file with A. W. Nye, librarian, and there is little doubt but that over 100 will be presented at the meeting tomorrow night. Tomorrow being the first Tuesday in the month, is the regular monthly meeting date for the association, and in regard to the initiation of new members the November meeting will be a record-breaker. There are now 276 members in good standing on the roll, and with the addition of the new ones tomorrow, the number will be brought close to the 400 mark, if it does not reach it.

The following is the list of applications now on file:

Newton Johnson, S. A. Leonard, Frank Williams, N. R. Davis, F. H. Coolidge, Walter C. Whitman, H. P. Whitman, Frank Fulton, Edgar Smith, Dave Smith, Clint Brown, J. W. Tulloch, Earl Tulloch, W. A. Leathers, J. A. Blakeley, Arthur Means, L. H. Kohn, A. A. Lathrop, C. L. McGinnia, C. A. Funk, J. E. Cherry, George Wright, L. K. Blakeslee, J. P. Leely, Thomas Gordon, George Leaty, F. S. Hoffman, Sam Thompson, Thos. G. Aston, Ed Eben, Jack Wohlenberg, Charles J. Greulich, J. Albert Lee, L. R. Traver, J. M. Spence, Charles Hanna, H. F. Eckhart, C. J. Jackson, R. R. Wolf, Albert Boylen, Herbert Ruppe, Frank A. Stroble, George Castle, Clarence Roach, G. A. Hartman, sr., Will Moore, Charles E. Gray, Clarence Penland, Frank E. Welch, Lewis M. La Dow, Frank F. Perham, Walter Stewart, John Ormond, A. E. Lambert, Henry G. Gray, Joe D. Kinery, Lee D. Boughman, L. Greenwald, T. J. Lloyd, Walter Arnold, Frank L. Krassig, John Bacon, L. R. Wood, L. L. Larone, E. Bordsaux, M. O. Rose, Thomas Jordan, Glenn Winslow, Henry May, C. W. Lyman, Ivan Yancy, A. B. Lyman, Elmer Lyman, C. S. Collier, Dean S. Tatam, B. P. Milnes, C. E. Howard, Mr. Chapman, C. E. Strickland, L. E. Clark, C. A. Brown, Charles Sample, F. G. Oster, C. E. Nelson, M. S. Korn, J. C. Gallagher, Bertram Strum, H. F. Wise, Luther Diney, Elvin Craig, Frank Neagle, William Hanscom, John Marshman.

SPECTACULAR FRISCO FIGHT

Democrats and Republicans Join Forces Against Mayor Schmitz.

SAID TO BE WAR BETWEEN GRAFT AND ANTI-GRAFT.

Schmitz is Candidate for a Third Term as Mayor, and is the Champion of All the Labor Unions of the City, and Against Him is Opposed Every Political Machine—Registration is Many Thousands More Than Ever Before in the History of San Francisco—Fusion Managers Claim the Election of Partridge by Between Five and Six Thousand Votes.

San Francisco, Nov. 6.—After the most spectacular campaign in the history of this municipality, the forces are lining up for the battle of ballots to decide the issue of graft and anti-graft, which has been the keynote of graft, which has been the keynote of two elements in the community.

As the candidate of the fusion of democrats with republicans for mayor, John S. Partridge, a young lawyer, has made a brilliant and stirring appeal for reform in all departments of city government in opposition to the union labor candidate, Eugene E. Schmitz, now serving his second term.

The interest in the campaign is unprecedented, the registration reaching a total of 90,000, as against 70,000 at any previous election.

Lined up for Schmitz are 3200 saloons, two-thirds of the employees in the city departments and all organized labor, all under the leadership of Abraham Ruef, a former republican boss, now champion of the Schmitz forces. Against Ruef as a boss, a reform fight has been directed.

The fusion managers today claim the election of Partridge from 5000 to 6000, basing these figures on the high registration and an aroused public sentiment against bossism and municipal corruption.

Heney Mixes in the Fight.

The utterances of Francis Heney, who as agent of the government, prosecuted the Oregon land frauds, at Mechanic's Pavilion Saturday night, have injected a sensational feature into the campaign.

Heney made specific charges of graft against the present administration, and said that Ruef is the man who is responsible. He said Ruef is a grafter and he could prove it. The attention of the grand jury has been called to Heney's statement, and the foreman announced he would probably call a meeting of the jury to investigate the charges.

Heney this morning refused to discuss what the grand jury would probably do, but said, "If I ever start after Ruef I'll land him in the penitentiary."

It Is Up to Heney.

"It's up to Heney to make good his statement by producing before the grand jury the proofs and evidence he says he has in his possession which will send Ruef to the penitentiary," said District Attorney Ewington this morning. "The grand jury will meet at 4 this afternoon, and I shall call their attention to the alleged statement by Heney, and ask that he appear before that body with his proof."

NORTHWEST MILLER'S TRUST.

Agreement Daily That Eliminates Competition.

"If anybody doubts," said State Grain Commissioner W. H. Reed, last week to the Dayton Courier-Press, "that the Miller's association was organized to eliminate competition in grain buying, I refer him to the following statement in the articles of agreement entered into by the millers, and which they are now working under. It reads:

"The Portland committee and the Puget sound committee shall consult each day, early in the morning, through their representatives, and agree on limits, which shall be sent out by the various members, at the same time, and expire each evening at 8 o'clock."

"This agreement is dated August 18, 1905, and it was only by accident that a copy of it fell into my hands, as the meetings of the association are secret, and the purport of the agreement was not intended to be known by any person not a member of the trust."

El Paso Opera House Burned.

El Paso, Texas, Nov. 6.—Myers opera house was destroyed by fire last night. Loss, \$75,000. The mining congress, which was to be held here, may be postponed, as no other place in town is suitable for it.
