## RATE IS REDUCED

OREGON SHORT LINE TO IDAHO SHEEPGROWERS.

One-Third Less to Pay on Salt Shipments From Utah Than Two Years Ago—Measures to Manufacture Salt by the State Association Is What Made the New Schedule—Idaho Uses 5000 Tons of Stock Salt Per Year—Saving to the State of \$50,000 Per Year.

Fifty thousand dollars a year as a saving to the livestock men of Idaho has been effected by the Idaho Woolgrowers' association through its establishment of an independent salt plant, says the Boise Statesman.

Another victory in the association's long fight against the salt trust was won yesterday, when Assistant Traffic Manager Tuttle, of the Oregon Short Line, who was in Boise on business, announced that the rate on salt to common points in Idaho had been reduced to \$6 per ton. The rate two years ago from Utah to Idaho on stock salt was \$9 per ton. Last year this rate was reduced to \$8. Yesterday Mr. Tuttle knocked two more dollars from the tariff, and Idaho sheepmen as well as all men who use stock salt in quantity, are consequently happy.

Secretary J. E. Clinton, Jr. of the Idaho Woolgrowers' association, was visited yesterday morning by Mr. Tuttle and told that the new rate had been established. He said that the changed tariff had not yet been officially promulgated, but that it would be in a few days, or as soon as he returns to Salt Lake.

Mr. Tuttle was formerly livestock agent of the Short Line, and when he was advanced to his present high position one of the first duties was to use his influence with the Short Line to accede to the prayers of the Idaho sheepmen and reduce the rate on stock salt to common points in this state.

"The Idaho Woolgrowers' association," said Secretary Clinton to a Statesman reporter yesterday, "suffered for a long time from the high prices on stock salt established by the Inland Salt company, better known as the 'salt trust.' We were compelled to pay \$9 per ton f. o. b. in Utah, with an additional freight charge of \$9 per ton. When it is remembered that we use in this state more than 5000 tons per year of stock salt, it will be seen at once that the trust was reaping a rich harvest in the 'Gem state. We finally hit upon the scheme of establishing our own salt factory, which we did at a cost of about \$25,000. The plant is located 13 miles from Ogden, on Great Salt lake. The capacity of our plant is 25,000 tons per year, and the salt costs us to manufacture exactly \$1.75 per ton, which is a reduction of \$7.25 over the price which the trust compelled us to pay.

"We then turned our attention to securing a reduction of the freight rate from Utah to Idaho points, and after enlisting the interest of Assistant General Traffic Manager Tuttle, who was formerly livestock agent of the Short Line system, and who consequently understands the merits of the fight we have made against the salt trust, we were able to secure a reduction to the present figure of \$6 per ton.

"The establishment of our plant has therefore effected a total reduction in the cost of stock salt to Idaho consumers of \$7.25 plus the \$3 freight reduction. Idaho consumes more than 5000 tons per year, so that the saving to the state amounts to over \$50,000 per annum. I think this is a record of which the Idaho Woolgrowers' association may well feel proud."

FROM MONUMENT TO THIS CITY. Compliments for Departing Citizen of the Former Place.

With deep regret we bid adieu to E. L. McBroome, the congenial, progressive fruit and vegetable grower and one of our most highly esteemed citizens. Mr. McBroome came here about four years since, and during his stay here he has made many warm friends who are sorry to see him leave. Four years ago he purchased a ranch for \$2100, which he sold Saturday for \$4000 and in speaking of his financial progress he states that he has done well in the short time spent in this county. During the past 18 months Mr. McBroome has been engaged in livery and horse business at Pilot Rock and Pendleton, also handled a number of thoroughbred horses for C. A. Ruby & Co. Having disposed of all of his property interests here he took his departure Wednesday for Pendleton, but stated that he had not laid out any definite plans for the future. Mr. McBroome is a conservative financier and a hustler. —Monument Enterprise.

MOTOR CAR A SUCCESS. Heavy Car Cannot Be Smashed Easily in a Collision.

Returning from a brief trip a Union Pacific motor car—the third—was given a test on the program, but which proved its wreck proof qualities in a way which delighted the designer, W. R. McKeen, Jr., says a dispatch from Omaha. The car was returning down a long decline from the summit into Omaha. On the run everything worked well, and all improvements worked the earlier motor proved satisfactory. The car, however, was not yet supplied with air brakes, and when an attempt was made to slow up the motor brake chain broke, and the car dashed down the track to Eleventh street where a switch engine was struck.

McKeen and the others escaped absolutely without injury. The car sustained some slight damage to the rear frame, but remained on the track. The locomotive was badly smashed. It is one of the many advantages claimed for the new car by the designer that it is as near wreck-

proof on account of its shape and steel construction as it is possible to build a car.

The car has a 100-horse power engine, a separate compartment for baggage and mail, and seats for 15.

FIRST LIBRARIES OUT.

Freewater Gets One of the First Traveling Libraries.

Salem, Nov. 7.—The first traveling libraries to be used in Oregon were started on their endless journey this morning. They are three in number, and the secretary of the state library commission, Miss Marvin, was busy all day yesterday getting them in readiness.

One goes to Freewater, Umatilla county, one to Nyssa, Malheur county, and one to Silver Creek Falls, Marion county. The libraries are neatly arranged in substantial chests made especially for the purpose by the pupils of the blind school, and contain from 50 to 60 of the best books.

In connection with these libraries Miss Marvin is sending letters to the teachers in towns to which they are sent, in which she urges them to cooperate with the commission to fit the books into school work as much as possible, and report results to the commission.

"KNIGHTHOOD IN FLOWER."

Beautiful Drama Coming to the Frazer November 17.

There are some critics in this broad land who would have some of the best speeches that grace the play "When Knighthood Was in Flower," struck out, saying that they are unfit and out of the period.

It is this blending of 16th and 20th century atmosphere that contributes most of the charm of dialogue and suggestion that enriches its five acts and makes them a perfect and lasting delight to the theater-goer.

Rosello Knott, who appears as Mary Tudor in the piece this season, under the management of Kane, S'lyman and Colvin, has positively refused to allow any of the dramatist's (Paul Lester) work to be stricken out lest the play be deprived of the original beauty that has made it so wonderfully successful and popular. Coming to the Frazer November 17.

"The Marriage of Kitty."

Without question "The Marriage of Kitty," as presented by the Jules Murry Comedy company, was one of the few big hits of last season, both play and company proving their unmistakable merit. This year, with Miss Alice Johnson at the head of the organization which Manager Murry has provided, the same success is resulting everywhere. The appearance in this city of this delightful play and excellent company will be on November 14, at the Frazer.

Lem Tvey Pardoned.

Word has reached the city that Lem Tvey, a Chinaman who was convicted on the charge of assaulting another Chinaman with a deadly weapon, has been granted a pardon by the state board, the pardon to be effective on November 8. Tvey has served seven months of a 15-month sentence. He is well known in Lewis-ton, having resided here for a number of years. —Lewis-ton Tribune.

The Mcclips hotel on Long Beach, Wash., burned from unknown causes. It was entirely new, with its furnishings, at the opening of the last bathing season, and cost \$15,000. No insurance. It was owned by Dr. Edward Lyeon.

## ECZEMA ON LITTLE GIRL

Sleepless Nights for Mother and Awful Suffering of Child.

## CURED BY CUTICURA

Had Given up All Hope of Ever Making Any Cure.

Mrs. I. B. Jones, Addington, Ind. T., writes: "My little girl had been suffering for two years from eczema, and during that time I could not get a night's sleep, as her ailment was very severe. I had tried so many remedies and spent so much money, deriving no benefit, I had given up all hope of making any cure. As a last resort I was persuaded to try Cuticura, and to my great delight a marked change was manifested from the first application. I gave the child a bath with Cuticura Soap, using a soft piece of muslin cloth. This I did twice a day, each time following with Cuticura Ointment, and at the same time gave the Resolvent, according to directions. One box of Ointment and two bottles of the Resolvent, together with the Soap, effected a permanent cure. I submit this for publication, hoping it will assist other sufferers in curing themselves."

## COMPLETE TREATMENT

Consisting of Cuticura Soap Ointment and Pills.

The first step in the treatment of chronic Eczema is to remove the scales and crusts and soften the skin, by warm baths with Cuticura Soap. Dry carefully and apply Cuticura Ointment, lightly at first, and where advisable spread it on pieces of soft cloth and bind in place. Take the Resolvent Pills, or liquid, in medium doses. Do not use cold water in bathing, and avoid cold, raw winds.

Sold throughout the world. Cuticura Resolvent, 25c. (in form of Chocolate Coated Pills, 25c. per vial of 10). Ointment, 25c. Soap, 25c. Patent Drug & Chem. Comp. Boston, Sole Proprietors. Get your "How to Cure Eczema."

# The Well-dressed Person Is The Successful One

To be expensively dressed is not always to be well dressed. It is always desirable to be neatly, becomingly and fashionably dressed.

This store's ready-to-wear garments for men, women and children are of the highest possible standard in quality of materials, styles and workmanship and absolutely the best in every respect, thoroughly dependable, always satisfactory.

This store's success has been the result of selling only the Highest Class Merchandise, backed by the guarantee, that what is sold here is absolutely dependable or your money back for the asking—and one thing more, you'll not find a shoddy, poorly made garment offered for sale here.

This store wants satisfied customers only. We want all to feel when they come here, that they are not going to be deceived but are going to get their money's worth.

No store can possibly satisfy any ordinary intelligent customer by crowding on him cheap trashy stuff, and no store can "soak" a customer more than once with trash.
