

PLEGGED HIS WORD

NOVEL CAMPAIGN METHOD INTRODUCED IN INDIANA.

Candidates at Tipton Pledged to Obey the Law Heretofore Violated With Shameless Impunity—Not Even a Cigar Was Used in the Line of Campaign "Argument"—Even Carriages Were Tabooed Except to Carry the Sick and Disabled to the Polls—All Parties in the Agreement.

Indianapolis, Ind., Nov. 7.—An election, unique in the history of Indiana, is being held today in the little city of Tipton, to fill the offices of the municipality. The campaign preceding the contest at the polls was so novel that the result of the experiment is being watched with keen interest by politicians as well as reformers.

For many years there has been a clamor for reform in campaigns in Indiana. The system of casting and safeguarding the ballot was somewhat improved by the Australian election law, but the corruption of the voters has increased to such a deplorable degree that the governor in his latest message to the legislature called attention to it.

The last legislature enacted a law to punish the vote buyer as well as the seller, but a similar regulation a few years ago did not bring about a reform, as it merely caused the parties to the transaction to be more careful.

But at Tipton, a county seat of nearly 4000 population, an agreement was reached that may give the reformers a glimpse of the ideal election. No money except for legitimate expenses was spent in the campaign just closed, every candidate having pledged his word that he would not buy even a cigar to influence a voter.

The understanding was that absolutely no effort was to be made with money to get out the vote of either party, and according to report the agreement is being rigidly kept. No conveyances were employed today to bring voters to the polls, except as were necessary in cases of sickness or physical disability. The candidates of both parties assembled at an appointed place at 6 o'clock this morning and marched to the polling places. When all had voted they returned to the public square with the understanding that they were to keep together until the polls close this evening. The plan is regarded as the best test of practical reform ever witnessed in this state and the outcome is awaited with much interest.

INTEREST AT WASHINGTON.

Much Concern Felt, but Little Shown, in the Election.

Washington, D. C., Nov. 7.—Washington presents the usual election-day anomaly today in that, while there is no locality which possesses and feels a deeper interest in the result of the political contests in the several states, there is no real outward local manifestation of that interest. This is due to the fact that citizens of the District of Columbia are disfranchised, and are thus rendered incapable of actual participation in a political contest.

Business in the government departments is apparently progressing as usual, but many desks are vacant, their occupants having gone home to vote. This applies as well to the higher officials. Probably the thinning out is not so noticeable as in the days before the civil service era, when position depended absolutely on political activity, but a sufficient number still adhere to the old custom to make their absence noticeable.

The United States supreme court constitutes one exception to the general rule prevailing at the national

capital. That tribunal has gone forward today as usual with its business, but even the members of the court have shown themselves to be not totally divorced from the general concern by sending out frequently for bulletins showing the progress of the contest.

At the White House the president did not attempt to conceal his interest in the election. Bulletins began to come in over the special wires in the executive offices shortly after noon and all were at once communicated to Mr. Roosevelt. The chief executive appeared particularly interested in news from Philadelphia, and it is safe to say that in no locality will the bulletins from Ohio, Massachusetts, Maryland and elsewhere be watched more closely tonight than at the executive mansion.

Crusade Against Wood Alcohol.

Washington, Nov. 7.—The assistance of the American Federation of Labor has been asked by the painters' international union in a crusade against the use of wood alcohol in the mixing of paints and varnishes. The union has made an investigation of the nature and effects of wood alcohol, consulting many medical authorities and has come to the conclusion that the only remedy is in a federal law prohibiting its use. Consequently the coming session of congress is to be asked to place a high tax on wood alcohol, high enough, in fact, to make its use prohibitive. A similar crusade is to be undertaken also by the painters' union in Canada.

The Race Question in Kansas.

Topeka, Kan., Nov. 7.—The race question in this state is coming to an issue here today before the state supreme court, when the mandamus issued against the board of education of Kansas City, Kan., requiring that board to show cause why colored pupils are not allowed to attend school at the same time and in the same building as the white pupils, will come up for hearing. The last session of the legislature passed a bill providing for separate high school buildings for white and colored pupils. The building for the colored children is now in course of construction and the school board has set apart half of each day at the white school for the use of the negroes.

Uncle Sam Buying Tobacco.

Washington, D. C., Nov. 7.—The time for submitting bids for supplying the navy department with 150,000 pounds of tobacco, to the paymaster general of the navy department expired at noon today and the bids will be opened this afternoon. The time of delivery will not begin until next year, but it was considered advisable to have the bids sent in early enough, to give the successful bidder or bidders ample time to make the necessary selections in the market. The next lot of tobacco to be furnished to the government for the use of the navy will have to go through inspection by sampling and otherwise at the Brooklyn navy yard.

Monument to Jefferson Davis.

Richmond, Va., Nov. 7.—An event of much interest throughout the southern states will be the laying of the cornerstone of the Jefferson Davis monument, which will take place in this city tomorrow under the auspices of the Daughters of the Confederacy. The monument is to occupy a commanding site at the intersection of Franklin and Lombardy streets, in close vicinity to the handsome monument of General R. E. Lee. The laying of the cornerstone will be accompanied by impressive ceremonies in which noted guests from all parts of the south will participate.

At Seattle George Beede fatally shot Sidney McDonald, and is under arrest. McDonald had met Beede's wife by appointment, and was walking with her at the time of the shooting.

A Famous Medicine

A remedy is known by its cures. The more numerous the cures the better it is known. The marvelous efficacy of Beecham's Pills has given them an international reputation and world-wide fame. The sale of over 6,000,000 boxes annually attests the confidence of the public in their merit. And it is merit alone that has made them famous over five continents. Nearly sixty years ago they were first offered to the people of England. Today they are sold wherever mankind exists.

BEECHAM'S PILLS

are the world's best remedy for Indigestion, Biliousness, Constipation and Kidney troubles.

If your digestion is slow, if you have heartburn, belching or distress after eating; if your tongue is coated, the breath foul or a dizzy feeling in the head; if your skin is yellow, or the eyes dull, your stomach and liver are out of order and you need Beecham's Pills. A short course of Beecham's Pills will remedy all these symptoms and prevent serious illness. Buy a box today and get well.

Sold Everywhere in Boxes. 10c. and 25c.

BOYCOTT IS WEAK

CHINA STILL CONSUMING AMERICAN GOODS.

Exports From Puget Sound Ports Have Rapidly Increased in Both Japan and China—One Hundred Per Cent Increase Has Been Enjoyed in Many Lines of Export Trade.

Notwithstanding the many reports which have been brought to this country regarding the boycott on American goods in China the trade in American goods exported to that and other countries of the orient continue to increase with unprecedented rapidity.

Figures compiled from customs house reports and published by the department of commerce and labor show that in some lines at least there has been an increase over the statistics of last year of 100 per cent.

The exports from the Puget sound customs district, for the nine months of this year for instance, amounted in value to \$39,349,425 as compared with but \$16,029,917 for the corresponding period of last year. Apparently the Chinese boycott has not materially militated against the export trade of this customs district.

The exports for the nine months of cotton to Japan amounted to 256,930 bales weighing 137,372,445 pounds and valued at \$13,673,412 as compared with 28,095 bales for the corresponding period in 1904 weighing 14,848,216 pounds and valued at \$1,799,622. Apparently there is no boycott on American goods in Japan.

The exports for the nine months of cotton cloth to the Chinese empire amounted to 431,673,268 yards valued at \$25,566,288 as compared with 127,772,980 yards valued at \$7,319,958 for the corresponding period of last year, an increase of more than 200 per cent. From this it is plainly apparent that the Chinese boycott has not yet extended to the discrimination against the purchase of American cotton piece goods.

A Disastrous Calamity.

It is a disastrous calamity, when you lose your health, because indigestion and constipation have sapped it away. Prompt relief can be had in Dr. King's New Life Pills. They build up your digestive organs, and cure headache, dizziness, colic, constipation, etc. Guaranteed at Tallman & Co., and Brock & McComas' drug stores; 25c.

Episcopalians in Conference.

Atlanta, Ga., Nov. 7.—Lay and clerical delegates from Mississippi, Alabama, Georgia, South Carolina, Florida and from the missionary districts of Cuba and Porto Rico gathered in Atlanta today for the initial conference of the fourth missionary department of the Episcopal church. The conference is to last three days and will be devoted to an exhaustive review of the missionary efforts of the church and the formulation of plans for the future.

Fisheries Commission.

Victoria, B. C., Nov. 7.—The British Columbia fisheries commission met here today preparatory to going to Seattle later in the week for a conference with the fisheries commission of the state of Washington. The chief purpose of the joint conference is to outline the measures regarded as necessary for the preservation and development of the salmon fisheries

in the Straits of Georgia and Juan de Fuca.

ONLY GUARANTEED CATARRH CURE.

"Hyomel Costs You Nothing If It Fails," Say Tallman & Co.

Among the many medicines upon the market that claim to cure catarrh none but Hyomel has enough faith in its own merit to offer to refund the money if it does not cure.

This scientific remedy for catarrh kills the microbes and germs of the disease and from its introduction has been sold under a positive guarantee to return the money to all dissatisfied customers.

Hyomel is the only method of treatment that sends by direct inhalation to the most remote parts of the air passages, a balsamic air that destroys all catarrhal germs in the breathing organs, enriches and purifies the blood with additional ozone, and makes permanent and complete cures of catarrh.

The complete outfit costs \$1.00 and comprises an inhaler, a bottle of Hyomel and a dropper. The inhaler will last a lifetime, and additional bottles of Hyomel can be obtained for 50 cents.

Breathe Hyomel for a few minutes four times a day, and your catarrh will grow better from the first day's use, and will be completely cured within a short time.

Do not try to cure catarrh with ordinary stomach medicines. Breathe the healing Hyomel which goes to every part of the air passages and reaches the entire respiratory tract, killing the catarrh germs and preventing their growth. It is the only treatment for catarrh where you can get your money back from a local dealer, Tallman & Co., in case it does not help.

Gold From Sea Water.

Washington, Nov. 7.—Consul Mahin writes from Nottingham, England, that the Belgian process has been found successful in securing gold from sea water. The process is described as follows: A ton of sea water is treated with about five cubic centimeters of concentrated aqueous stannous chloride, when the gold is converted into purple cassius and precipitated together with magnesium hydrate and the excess of tin, by the subsequent addition of about a pound of slacked lime. From the precipitate the gold is extracted with dilute potassium cyanide solution and isolated by any of the methods commonly used in the cyanide process. Sea water from the Mediterranean and English Channel yielded no gold by this process, whereas samples from the Atlantic furnished abundant traces.

Culdesac Needs School Room.

The public schools of Culdesac are experiencing considerable difficulty in the school question. All of the rooms are over-crowded, notwithstanding the new building that was recently erected. Those who graduated from the eighth grade are now waiting for the county superintendent to inaugurate a high school course. The schools are well equipped and have plenty of teachers. The finances are in good condition and there is nothing to hinder the establishing of another grade for the advanced pupils. —Culdesac Register.

Kidney Troubles

are easily relieved and cured in the beginning, but as the disease grows in severity we must find a more potent remedy. Here is where Irvine's Buchu Waters excel as a cure. Of course, they give quick relief, but more than that, they give a sure and lasting cure. They positively purify the blood. Sold at 50c a box by Tallman & Co., 623 Main street, Pendleton, Or.
