WEATHER FORECAST. Fair tonight. Saturday increasing cloudiness.

VOL. 18.

PENDLETON, OREGON, FRIDAY, NOVEMBER 10, 1905.

NO. 5510

INSURRECTION IS SUPPRESSED

Loyal Troops Surround Mutineers at Kronstadt and Compei a Surrender.

SAILORS, STRIKERS AND SOLDIERS ARE IN REVOLT.

The Streets Ran With Blood—For Some Time It Appeared the Insurrection Might for the Time Meet With a Degree of Success, the Loyal Troops Being Surrounded—Admiral Nebogotoff Puts Up a Defense for His Surrender in the Battle of the Sea of Japan—War of Extermination Against the Jews Said to Be Planned to Begin November 11.

St. Petersburg, Nov. 10.—Seven thousand loyal troops are now in control at Kronstadt, having caught the mutineers where they were surrounded.

Ruthless Slaughter. St. Petersburg, Nov. 10.—The American charge d'affaires, Spencer Eddy, has telegraphed to the governor of Kronstadt requesting protection of American interests.

Later reports only magnify the horror of the situation. The mutiny was complete, not only the sailors but the garrisons of some of the forts joining in the insurrection. The few soldiers and sailors who remained loyal fought all night against the mutineers and the workmen who enlisted under the banner of revolt. Barricades were thrown up.

The report that machine guns were used is apparently confirmed. The panic-stricken refugees who escaped by boats say the Maxim guns were fired all night and this morning the streets were literally flooded with blood. They place the number of dead and wounded far into the hundreds. Today two regiments of Cossacks and the imperial horse guards were dispatched to Kronstadt from St. Petersburg and a regiment of Uralians was sent there from Oranienbaum, a few miles west of Peterhof. Altogether about 10,000 troops are engaged in quelling the insurrection.

According to some reports the sailors and strikers were finally surrounded but have not yet surrendered. Both sides have been losing heavily. The troops lost eight officers killed or wounded. Other reports say the Uralians deserted to the mutineers and are now fighting against the imperial troops.

Troops Surrounded by Mutineers. St. Petersburg, Nov. 10.—It is reported the troops at Kronstadt are surrounded by 6000 mutinous sailors. The troops are holding them in check.

Says He Had to. St. Petersburg, Nov. 10.—Admiral Nebogotoff has arrived at home and is going as a martyr, declaring he deliberately sacrificed his name and honor by surrendering at the battle of the Sea of Japan, and thus saved the lives of the 2000 sailors of his division. The admiral's sons was subject to much derision by his comrades and he was forced to leave the naval academy.

Religious War of Isrality. St. Petersburg, Nov. 10.—It is reported the "Black Hundred" is planning a great massacre of Jews and intellectuals for Saturday night. It is said all Jews' houses are being marked with red crosses.

ALLEGED DEGENERATE. Son of a Section Hand Said to Be Dangerous. Albany, Or., Nov. 10.—After nearly two weeks' investigation by the detective department of the Southern Pacific company, John Jones, who did the shooting at a passenger train near Tangent, Linn county, Sunday, October 29, was apprehended and was taken to the reform school this morning. For some time offenses against the railroad company have been committed in the Tangent neighborhood, principal among them being the putting of stones of a large size on the rails. Jones is 16 years old and is the son of a section hand. He is a degenerate, and entirely beyond the control of his parents.

Besides offenses against the railroad young Jones has been a great trouble to the entire community of Tangent, and people have been in fear of serious loss from fires, etc. His father stated that he has expected something more serious than the reform school for some time.

EXPLODED 2000 KEGS POWDER. Practical and Costly Object Lesson to a Jury. Chicago, Nov. 10.—A dispatch to the Inter-Ocean from Uniontown, Pa., says: For the sake of illustrating a

contested point to a coroner's jury here yesterday, 2000 kegs of powder, representing a value of about \$10,000, was exploded by a powder company. The shock of the explosion was felt in several surrounding townships, and there was great excitement throughout this end of the country.

The coroner's jury which had been sitting on the cases of 15 persons killed in the explosion at Fairchance, September 9, had expressed some desire for information as to the direction in which the exploding powder exerted its greatest force. The powder people have taken the stand that the big magazines which went off on September 9, had been exploded by some agency outside the magazines. They claimed that some one had a split against the company, placed and exploded under the magazines, containing 10,000 kegs of powder, some other explosive, either fulminate of mercury or nitro-glycerine. In defense of this it was claimed that powder in exploding does not tear holes in the ground, and the company offered to prove this by practical demonstration to the coroner's jury.

The coroner's jury retired to a great distance, and the battery was touched off. The explosion rocked the entire township and was heard as far as Connelville.

After the powder exploded it was shown there was no hole in the earth caused by the explosion of this great amount of powder.

LONG DISTANCE WIRELESS. Messages Carried Fourteen Hundred Miles.

Washington, Nov. 10.—The navy department has been informed that the wireless telegraph operator at San Juan, Porto Rico, read signals which were being sent from a wireless station in the vicinity of New York. The distance is approximately 1400 miles. This encourages the belief at the department that it will be possible to establish wireless communication between San Juan and the Washington navy yard in the near future.

MANY CONTESTS FROM UMATILLA. INVOLVE RIGHTS TO LAND ON THE RESERVATION.

To What Limit May Purchasers During Sale of 1885 May Go in Subsequent Investments—Issue Has Been Taken Into the Federal Courts on an Appeal From the Department of the Interior by the Contestees—Between Twenty and Thirty Litigants Anxiously Await a Final Decision.

Among other matters that are being held awaiting the appointment of a federal judge for Oregon are 20 or 30 contest cases from this county, in which the question involved is whether or not parties who purchase land on the reservation in the sale of 1885 could also purchase at the sale of 1902.

During the latter sale quite a few people purchased land after having already purchased under the former sale. Thereupon contests were filed to have these entries cancelled. One of the first of these cases was that of Hoover vs. Jones, in which the former was contestant. This case was decided by the department of the interior in favor of the contestant, the ruling of the department being that no party who had purchased land in the first sale could do so in the second excepting in cases where the 40 acres of timber had not been taken at the first sale, in which instance the right to make this purchase at the second sale was granted.

However, the case was then taken into the federal court by the contestees, and was under consideration at the time of Judge Bellinger's death. Since then it has been impossible to secure any settlement, as the judges who have occupied the bench temporarily have refused to take up such matters.

Since the department ruled against the purchaser in the Hoover-Jones case many other contests, all similar in nature, have been filed and decided in the same way. All of these have also been appealed in order to keep the entries from being cancelled, and are now awaiting the appointment of a federal judge.

RIVAL PLANTS IN FIELD. Powder Valley Light & Power Company Will Fight Northwestern.

The Northwestern Gas & Electric company, which practically controls all the gas and electric light plants from Boise to Walla Walla, has an opposition fight in Baker City, as the Powder Valley Light & Power company has petitioned the Baker City council for a franchise.

The Powder Valley company offers to pay the city three per cent of its gross earnings for the franchise, and in addition proposes a maximum scale of prices which is far below that now charged by the Baker City Gas & Electric company, which is owned and controlled by L. W. Anderson of the Northwestern Gas & Electric company, says a dispatch from Baker City.

HEARST OFFERS \$27,000 REWARDS FOR SWINDLERS

Tammany Heelers Are the Objects Aimed at by the Law and Order Elements of All Political Parties.

A Tammany Alderman Is Under Arrest and the President of the Board of Elections Is Summoned to Appear Before the Grand Jury—Efforts Will Be Made to Indict Some District Leaders for Frauds in Tuesday's Elections—Deputies of the Superintendent of Elections Have Been Subpoenaed.

New York, Nov. 10.—Hearst has offered an additional reward of \$10,000, making a total of \$27,000 offered by him for the conviction of Tammany district leaders.

Alderman Haggerly was arrested on complaint of a poll watcher on the charge of assault and arraigned this morning. Case continued to December 5.

A subpoena is issued for John Voorhis, president of the board of elections, to appear before the grand jury and produce for their inspection the registry books of the fifth election district of the 25th assembly district. It is charged the returns were changed and allege much fraudulent voting in this district.

Under the direction of Attorney General Mayer, assisted by Jerome, the grand jury today began investigation of the charges of fraud in connection with the mayoralty election. Mayer visited the criminal court building early this morning and with Assistant District Attorneys Sanford

and Perkins, to whom Jerome delegated the work of prosecuting cases and drawing up indictments.

The grand jury met at 11 o'clock and Mayer appeared immediately. Eight deputies of Superintendent of Elections Morgan, a number of policemen and about 50 other witnesses were called. It is said efforts will be made to indict some district leaders.

Voorhis, this afternoon, discussing the reports that ballot boxes were dumped into the river, said: "There is nothing to this talk about missing ballot boxes. The board of election knows exactly how many boxes it gave out, and how many returned. So far as I know, all came back. The story about boxes being thrown into the river is all false. If a box was found in a barber shop I am sure it was one of the small boxes for mutilated ballots, which are always destroyed after the good ballots are counted. The report that some locks are missing is untrue. Some seals may have been broken in the handling."

all saved their effects. The flames broke out in the kitchen from unknown causes. A heavy wind at the time and the flames spread with great rapidity through the wooden structure. Employees warned the guests and whenever they received no response, the door was kicked in. For a time a wild panic reigned, but by systematic work the employees succeeded in getting every one safely out of the building.

The Ramona was comparatively a new tourist hotel. It was a three-story modern structure of 300 rooms.

CHICAGO WHEAT MARKET. Quotations From the Greatest Wheat Market in the United States.

Chicago, Nov. 10.—Wheat closed today at 85 3/4, a decline from the market of yesterday. Corn closed at 45 3/4, and oats at 29 3/4.

King and Kaiser Hunt Boars. Hanover, Nov. 10.—King Alfonso and Kaiser Wilhelm left in a motor car this morning for the Forest of O. Springs to hunt boars. They will return to Berlin tonight.

RAMONA HOTEL BURNED. Loss, \$250,000—Guests Have Some Narrow Escapes.

San Luis Obispo, Cal., Nov. 10.—Fire at 3 this morning destroyed the Ramona hotel, causing a loss of \$250,000.

Although the hotel was full of eastern tourists, no one was injured, and

COUNTY COURT WILL PROBABLY ACCEPT

Unless all signs fail the county commissioners will accept the latest O. R. & N. company offer this evening. This afternoon it was said by the members of the court that the matter was to be decided by a secret ballot upon the completion of some other business then before them. From appearances the chances are all in favor of an acceptance of the offer, as Commissioner Gilliland favored the acceptance of the former proposition, and Commissioner Walker has virtually signified his intention of favoring the present offer. The sentiment of County Judge Bean has not been ascertained, but it is hardly thought he

RAILROAD RATE CASE BEGUN AT COLFAX

A special from Colfax to the Walla Walla Union of today in regard to the hearing in the railroad rate cases, says: The state railroad commission began the second day of its sitting in this city yesterday and Chairman Fairchild announced that the motion of the railroads to quash the proceedings were overruled.

The state, represented by Assistant Attorney General McDonald, then filed a demurrer to the voluminous answer of the railroads to the complaint, which, upon being sustained by the commission, cleared the tracks of all obstructions, and the taking of testimony began.

Witnesses were called by the state for the purpose of sustaining the allegations of the complaint. This testimony was in reference to the rates on coal from Roslyn to Colfax, which was supplemented during the afternoon by evidence from the Tacoma members of the Northern Pacific Jobbers and Manufacturers' association in reference to rates on merchandise from

LINE OF BEET FACTORIES. Wyoming Capitalists Will Secure 300,000 Acres for Settlers.

Cheyenne, Nov. 10.—G. W. Westendall, Union Pacific colonization agent, accompanied by a party of four prominent Iowa capitalists, have arrived here by way of Laramie, Walden and North Park on a trip which it is believed will have a far-reaching influence on the future growth and development of northern and southern Wyoming.

The party is in quest of options on between 250,000 and 300,000 acres of land, which they propose to dispose of to settlers for the purpose of raising sugar beets, the syndicate to establish a series of large, modern factories at various places on the lands to be reclaimed.

Nearly 300,000 acres of land has been selected which can be reclaimed at a small cost per acre.

EMBEZZLEMENT ACCUSED. Young Dane Wanted at Shanghai Has Been Released.

San Francisco, Nov. 10.—Adolph Alstrup, the young Dane arrested here and for whose capture Shanghai has offered a reward of \$500, was released by the police today on instructions having been received regarding extradition.

Alstrup has been in the employ of the East Asiatic company, and is charged with embezzling \$20,000. He received a cablegram yesterday from his father, a prominent merchant of Copenhagen, asking him to come home indicating the matter had been compromised. He will leave for Denmark at once.

Guests of General Grant. New York, Nov. 10.—Prince Louis and party lunched on Governor Island, the guests of General Grant. After lunch they were guests at a reception at the Brooklyn navy yard by Admiral Coghlan.

ST. PAUL IS ON FIRE. Loss of Salvage Will Be Great—Will Go in Pieces Rapidly.

Eureka, Cal., Nov. 10.—Fire last night destroyed what remained of the wrecked steamer St. Paul, which went ashore on Point Gorda early in October.

Captain Iverson of the steamer Pasadena, reports this morning that when he passed the St. Paul early last evening she was ablaze from stem to stern. Many thousands of dollars in salvage were aboard the craft, and it is supposed some one of the wrecking crew accidentally upset a lamp. The vessel will now rapidly go in pieces.

Part of the Saloon's Mission. Walla Walla, Nov. 10.—While the 8-month-old baby of a woman named Dorrance was crying pitifully from hunger and cold, all afternoon yesterday in a room of the Bee Hive lodging house, its mother was having a drunken revel in the rear of a downtown saloon. The landlady of the Bee Hive telephoned to the police, and the officers, after a brief search, found the Dorrance woman in her shameful condition of debauchery and placed her in the city jail. The father of the child, who is a drunken loafer about town, will be placed in jail also as soon as the police can find him.

Three Trainmen Killed. Bluefields, W. Va., Nov. 10.—A freight train was wrecked and three trainmen killed this morning near here.

CASE OF DIPHTHERIA. May Render Necessary the Closing of School Room.

Another case of diphtheria has been reported, and the little girl having the disease is from the same room in the east end school that two former cases have been reported. The latest case is that of the little daughter of Mr. and Mrs. R. Raymond, living at the corner of Main and High streets. She is said to have been ill at school yesterday, and this morning the case was declared to be diphtheria by Dr. W. G. Cole.

In view of the fact that three cases of the disease have now occurred among children of the same school room, it is probable that the room will be ordered closed by the board and precautions taken to prevent a spread of the contagion. The room is the one taught by Miss Eva Froome.

The other cases were those of the child of Mr. and Mrs. Young, which proved fatal, and of the child of Mr. and Mrs. James Johns, reported a few days ago.

GOOD PRICE FOR LAND. Section in Adams County Sells for \$14,000.

A deal was closed in Walla Walla today by which Fred Ingalls of Adams county disposed of his farm in that county, comprising one section, says the Walla Walla Statesman. The purchaser was G. Schwank of Freewater, the price paid being \$14,000. The property is said to be among the best wheat land in eastern Washington.

At Hendricks' Hall. Tomorrow (Saturday) night, the first of a series of public meetings will be held in Hendricks' hall by Rev. and Mrs. Coon, beginning at 8 o'clock sharp. No admission will be charged, and the general public is invited to attend.

ONE MAN POWER IN THE EQUITABLE

Changes in Management Were Made But Did Not Correct the Trouble.

IMPORTANT TESTIMONY BEFORE THE COMMITTEE.

Rendered by an Albany Attorney for Many Years an Employee of the Insurance Companies Being Investigated—Special Investigators of the Bureau of Commerce and Labor Have Opened an Office in Chicago, and It is Rumored the Standard Oil's Relations With the Railroads, and "Pluggers" Are Being Investigated.

New York, Nov. 10.—William Barnes, sr., of Albany, 40 years an attorney, voluntarily appeared to testify in the insurance investigation this morning.

He said he was employed by various insurance companies at different times, and told how frequently he has recommended a change in the management of the companies. In a trade against the Equitable he declared the changes made did not change at all, but asserted that one man power still remains.

Investigation at Chicago. Chicago, Nov. 10.—Dr. E. D. Durand, Herbert D. Brown, S. E. Schindler and F. L. Hawes, special investigators of the bureau of commerce and labor, have opened headquarters in this city to conduct an investigation about which much secrecy is maintained.

It is rumored the Standard Oil's relations with the railroads is subject to investigation. They are also said to be investigating the alleged attempt to pack the recent rate convention. All inquiries are met by reference to Commissioner Gaillard.
