A new importation of white and decorated Haviland China just in; also hand-painted Pouyat, Lanterns, T. & V. Haviland and Royal Austrian China.

Our hand-painted China is large and varied. Prices are the lowest—compare them with others

Sterling Silver

1847 Rogers Bros. and Oneida Community Plated Ware are now sold by us

The Community ware is guaranteed for twenty-five years. No other plated ware "just as good."

UNION DESIRABLE

CONSOLIDATION OF STOCK ASSOCIATIONS.

James H. Gwinn, Secretary of the National Association, Well Pleased With Results—Association Will Now Agitate for a Biennial Livestock Census in Order to Keep Stockmen Posted on Conditions.

That the union of the National Livestock association and the American association which is to take place in Denver on January 30, is most desirable, is evidenced by the following letter from James H. Gwinn, secretary of the National Livestock association, who brought the two associations together in a meeting of the executive committees some time in October. Mr. Gwinn says: Denver, Col., Nov. 8.—(Editor East Oregonian.)—The press of the entire country has been almost unanimous in indorsing the union of the two livestock associations, and there is no question but that it was a very wise move—taking into consideration the number of important matters that are pressing at the present time in the way of national legislation needed, and larger appropriations for inspection and experimental stations, and one of the most important things that we do desire, and that the stock industry needs, is a census at least biennially, so as to be able in a measure, to try to govern the supply as to the demand.

At present it is guess work on the part of everybody, and this works a hardship on the industry both in times of large supply and small demand as in times of small supply and large demand.

The agricultural interests, such as corn and meat and the cotton industry of the south are looked after fairly carefully, and the statistics and data are compiled by the government officials, and we see no reason why just as close interest should not be taken as far as the stock industry is concerned.

You have doubtless noticed that we are getting some response from Germany as the outcome of the reciprocity conference held in Chicago, and there is no reason why, from the attitude that Germany is taking at present, that we cannot consummate a reciprocal relation with them, and thus give us a larger outlet for the over supply of cattle that we evidently have on hand; this is greatly to be desired for some of the lines and grades of cattle have shown scarcely any improvement, and in fact, in most cases, are not as good as last year.

Taking into consideration the large amount of inferior cattle that have been sent to the markets this fall, the cattlemen everywhere should make an extra effort to improve the quality of their stock as it is demonstrated every day in the markets that high bred stuff is what is in demand and what brings the price.

IN SESSION SEVERAL DAYS YET.

Supreme Court Cannot Complete Its Labors This Week.

Tomorrow the famous case of Baker county vs. A. H. Huntington et al will be tried in the supreme court for the second time. This time the appeal is made from the decision of Judge Ellis, before whom the case was tried last spring on a change of venue, and a verdict given in favor of the county for \$10,000 and interest and costs.

The case for the appellant is based upon technicalities. Attorneys for Baker county are Thomas G. Greene, of Portland, and Halley & Lowell, of this city, while Hart & Smith represent the defendants. In the supreme court it is said the argument will be made by William Smith, who is the only member of the firm now in the city. The defendants in the case are A. H. Huntington, ex-sheriff, A. L. Brown, James Fleetwood, J. W. Isenhoffer, J. T. Fyfer, D. Cartwright and Harry A. Duffy, all of whom were bondsmen for the first named.

The following cases were disposed of by the supreme court today: Quackenbush & Burroughs, respondents, vs. Hoskins & Harkins, appellants. The case was appealed from Malheur county and the argument for the appellant was by Oliver O. Haga, of Boise. No oral argument was made for the respondent.

L. B. Springer, administrator, vs. Jenkins Bros., from Harney county. Dalton Biggs, of Burns, appeared for the appellant, while Will R. King, of Ontario, argued for the respondent. Keystone Mining and Milling company, appellants, vs. the Equity Copper and G. M. company, respondents. Arguments were by N. C. Richards, of Sumpter, for the appellants, and John L. Rand and Errett Hicks, for the respondent.

Aside from the Baker county bond case it is also expected that the case of Price vs. the O. R. & N. company will be heard. This case is appealed from this county. From present indications, the session cannot be completed this week and will last until perhaps Tuesday of next week.

Everything Empty But the Indian. For wandering aimlessly on the streets last night, a lone Indian was taken in charge by the officers and booked with the charge of vagrancy. Articles found on his person were two pint bottles, empty, which presumably accounted for his restlessness, a purse, also empty, and a corkscrew.

Returned to Spokane. Roe Cutts, who has been in the city for the past three weeks with rheumatism, returned to his home in Spokane this morning.

Mr. Stevens, chief engineer of the Panama canal, is clamoring for more machinists, boiler-makers, plumbers and track foremen.

NO HOSPITAL FOR CONDON.

Project for New Building May Now be Abandoned.

Condon may lose the Sister's hospital, says the Condon Globe. This statement will no doubt prove unwelcome news to a large majority of the people of Condon and vicinity who had taken it for granted that the project was practically assured.

The proposition from the sisters was that if the town would put up \$32,000 their order would erect a hospital to cost not less than \$10,000. In order to carry on the work it is necessary for the sisters to negotiate a loan in the east giving a note endorsed by the bishop of this diocese as surety.

A subscription paper was started here to secure \$3000 asked for from the town and after three weeks or more about \$2200 has been subscribed and while those in charge of the paper believe that eventually the full amount may be secured the work was so slow and the interest so lacking that when the bishop learned of the situation he remarked that "evidently the people of Condon do not want a hospital," and declined to give his further endorsement to the project. Father Kelly is now in Portland conferring with the bishop and on the result of that conference depends the fate of the hospital.

A few years ago when a similar institution was projected at Heppner, the town was asked for \$6000 and the amount was raised in less than 24 hours. They got the hospital. People say today that Condon is a better town than Heppner ever was. If it is as good that other \$3000 should be forthcoming before another sun goes down.

GYMNASIUM DANCE

FIRST REGULAR FRIDAY NIGHT DANCE TONIGHT.

Will Be Given Every Other Friday Night, Alternating With the High School Dances—Admission of Fifty Cents Charged Both Dancers and Spectators—Entrance to Gymnasium Will Be Through Court Street Entrance.

This evening the first regular Friday night dance will be given in the Commercial association gymnasium, under the auspices of the athletic board. In preparation for the occasion a stove has been placed in the room so as to make it comfortable, and the equipment will be removed so as to leave the floor free for dancing.

The club dances, which are to be given every two weeks, alternating with those given in Music hall by the high school students will be informal in nature and open to all members of the association. An admission of 50 cents will be charged for both spectators and dancers. The floor management will be under the direction of the members of the athletic board, which is composed of the following: George Hartman, Jr., R. W. Ritner, Dan F. Smythe, George Strand and Mark Moorhouse. Music will be furnished by Messrs. Gulott and Kirkman.

Entrance to the gymnasium for the dances will be by the Court street stairway, and the door leading from the billiard room into the gymnasium will be locked.

No Place Like Umatilla. George Warburton, an old-time resident and successful farmer in the Cold Springs country, living of Umatilla county prosperity, thought he would try Idaho, with the result that he is perfectly satisfied he made a mistake and is willing to acknowledge it, says the Echo News. Mr. Warburton was unloading his large farming outfit of stock and implements from the cars this morning, and told us that he had tried Idaho but was glad to get back to his old haunts. He further advises those who may think there are better locations than this county some other place, to stay at home, thus saving the lost time and expense in finding out that there is no place like old Umatilla.

The sin found out is no worse than the sin concealed.

WHY

are more men buying \$25.00 suits of this store who have heretofore had their clothes made by a local tailor?

It is a fact that our \$25 suits are commanding the respectful consideration of our best business and professional men.

BUYS SMALL PONIES

UMATILLA "CAYUSES" ARE SENT TO CALIFORNIA.

G. W. Shipley of Santa Barbara, Has Purchased About 100 Head of Reservation Ponies to Cross With Shetlands—Umatilla Ponies Are Most Beautiful of All the Small Breeds.

Umatilla county is thoroughly advertised all over California through the Sunnyside Shetland Pony farm, belonging to G. W. Shipley at Santa Barbara, Cal. Mr. Shipley has sent out over 100 head of Umatilla Indian ponies of all the colors of the rainbow, to his pony farm, for the purpose of crossing them with Shetlands to produce a docile, moderate sized, attractive breed, suitable for polo ponies, basket buggies, small phaetons and other fashionable rigs at his stables in Pasadena and Santa Barbara.

Mr. Shipley is now in the city and has selected another carload of 30 head of small mares from the reservation, which will be shipped direct to his farm where they will be broken to drive and ride and bred to Shetland stallions.

So far the Umatilla county ponies purchased by Mr. Shipley have proved to be the best bred ever crossed with the Shetland for a beautiful, spirited small horse and he will continue in the business as long as the fashionable tourist and rich people of California furnish a market for this odd breed of animals.

He will select freak colors on the reservation, such as pinto, mouse colored, speckled and other oddities in the color line, in hopes of securing freaks in the breeding of this kind of ponies to the small Shetland stallions kept on his farm.

The demand for the freak is growing more and more every year in the

fashionable horse market and the Umatilla Indian pony being a distinct and unique breed, has furnished the greatest possibilities in this line.

Other tribes of Indians have ponies which would be much cheaper than the Umatilla ponies since they are nearer to his farm at Santa Barbara, but no other breed of Indian ponies combines the beautiful outlines and freakish colors with nerve and spirit, and so for this reason these ponies are purchased for this odd industry and shipped nearly 1000 miles in preference to other breeds founde nearer at hand.

EXACT INCREASE.

One-Third of a Million More Assessed Than Last Year.

The exact increase in the amount of the assessment for school district No. 16, Pendleton, over that of last year is \$354,123.28, the amount for last year being but \$1,396,699, while it amounted to \$1,750,823.28 this year.

Remodeling the White House.

Frank Robinson, instead of tearing out the "White House" on South Main street, is having it completely remodeled, inside and out, and repainted. It will be ready for occupancy by the middle of next week, and in the hands of a lessee on the premises. A large part of the structure will be devoted to suites of housekeeping rooms, for which it is especially adapted, as from its peculiar location both stories are equally accessible from the street. Every room in the building has been enlarged, and the general plan modified and improved.

Experts Resume Work.

Today Experts Buchanan and Beckwith resumed their work on the books of Treasurer Sommerville, in which office they had not entirely completed their labors when they submitted their report. Also, they have a few hours work in the office of Assessor Strain before they are entirely through experting the county records. No investigation is to be made in the office of the school superintendent, as the work there is such as not to necessitate it.

Business Changes on Cottonwood.

Several changes in the business places on Cottonwood street, between Alta and Court, have just taken place. Brummett & Son, owners of one of the livery stables there, have purchased the stable of Walter Lindsey and will hereafter conduct both businesses; while Mr. Lindsey has purchased the Tom Gurdane second-hand store and will conduct that business in the future.
