THANKSGIVING GROCERIES

GENERAL NEWS.

Eight Angora goats were shipped from San Jose, Cal., for Vladivostok. As far as known, this is the first shipment of Angoras from America to Eastern Asia.

United States Circuit Judge Thompson, at Cincinnati, enjoined several railroads from charging certain rates complained of for less than carload shipments. The companies have appealed to the supreme court.

Ibsen, the novelist and dramatist, lies in a state of unconsciousness from which he is not expected to recover, at his home at Copenhagen. Death is expected at any moment, or may be delayed for hours, or even days.

One-half million silver dollars were shipped from Chicago and St. Louis to Keokuk to reinforce the State Central Savings bank, upon which a severe and inexplicable run was being made. The run stopped immediately.

Under the auspices of the Iroquois club, a national convention of political clubs throughout the United States will be held in Chicago to discuss ways and means of securing federal supervision of life insurance companies.

Simon Wolf, of Washington, D. C., former president of the B'nai B'rith, in an address in Washington on November 25, predicted an exodus of Russian Jews to America as the result of atrocities perpetrated upon the race.

Sanger's circus, which has been on the road for 50 years, was sold by auction recently in London, with band wagons, chariots, horses, menagerie animals and everything else. An eccentric mule, out of which Sanger remarked that he had made \$15,000, was sold for \$55.

NORTHWEST NEWS.

The Washington railroad commission today elected Clinton A. Snowden, of Tacoma, as secretary, and O. O. Caldwell, of Seattle, as rate clerk.

The Coast Range Lumber company, of Chehalis, Wash., of which W. H. Proctor is president and J. E. Foye secretary, has assigned. The mills which the company owned, will here-

O. R. & N. PHONES

INSTRUMENTS TO BE PLACED IN ALL OFFICES.

Phones to be an Additional Safeguard to Traffic—Instruments to be Placed in Caboose Also, and Trainsmen Will Be Enabled to Communicate With Offices From Any Point on the Road—Equipment of O. R. & N. Will Be Superior to That of Any Other Northwest Road.

In order to doubly safeguard traffic on the O. R. & N., a system of telephones will be established all over the system in connection with the telegraphic communication.

E. A. Klippel, superintendent of telegraph, is supervising the installation of the telephones and the work will be completed as rapidly as possible.

Telephone instruments and induction coils will be installed in each telegraph office along the line and cabooses will all be equipped with telephone instruments. When the telegraph line gets out of order between stations, or when a train meets with an accident or delay, a wire can be immediately attached from the caboose to the telegraph wire and communication established between the train, no matter where it is, and the nearest telegraph office.

In this way orders can be sent to conductors while on the road between stations, and many costly and annoying delays avoided. All the offices will be thoroughly equipped with the latest telephone instruments and thus the public and railroad men will be doubly safeguarded.

This, in addition to the block signal system which is being installed on the mountain division will give the O. R. & N. the most complete and perfect equipment of any system in the northwest and is even superior to the equipment of many of the leading eastern roads.

It will require about 100 phones for offices and a like number for cabooses to equip the entire system and the cost will be considerable, but the value of the new arrangement will greatly overbalance the cost of the equipment.

ECHO NEWS ITEMS.

Government Engineers Still Working on East Umatilla Project.

Echo, Nov. 27.—A social dance and Thanksgiving supper will be given at the new city hall on the night of November 30.

The Echo city election will take place December 5, and there is considerable election talk being heard on the streets.

Work is going on at a rapid rate on the J. H. Koontz store building, which will be a two story asbestos fire-proof structure, 50x90, with basement. The building will be occupied by a stock company of Echo people who propose to carry a general line of merchandise.

L. W. McAdam is putting up a large addition to his hardware store, which will be completed early in the year.

Work will be completed on the Furlish irrigation ditch by the first of January.

The government surveyors who have been in the field at work on the East Umatilla irrigation project, are still at work awaiting the decision of Secretary Hitchcock as to whether or not the proposition will be turned down temporarily or if it will be carried right through. The fact that the surveyors remain at work so long is very encouraging to the people of Echo, and there is little doubt of it not going through soon.

Water Works Engine Arrives.

The engine for the water works system arrived today. The pipe lines are about completed, and the plant will be ready for use in a few days. The water will be taken from a large well, which will be forced up on to a hill to a reservoir with a pressure of 57 pounds to the square inch. This power will also be used for electric light purposes in Echo after the first of the year. The plant has cost the city about \$5000, and it was put in without any tax and without issuing bonds. The citizens subscribed \$2000, and the balance was taken from the city treasury, which had been received for license fees.

Son Lost Mother.

"Consumption runs in our family, and through I lost my mother," writes E. B. Reid of Harmony, Mo. "For the past five years, however, or the slightest sign of a Cough or Cold I have taken Dr. King's New Discovery for Consumption, which has saved me from serious lung trouble." His mother's death was a sad loss for Mr. Reid, but he learned that lung trouble must not be neglected, and how to cure it. Quickest relief and cure for coughs and colds. Price 50c and \$1. Guaranteed at Tallman & Co., and Brock & McComas' drug stores. Trial bottle free.

Boy Badly Burned.

Eyron, the 10-year-old son of Mr. and Mrs. Kit Robinson, last Saturday afternoon was very badly burned by his clothes catching fire from a bonfire in the street, with which he and other boys were having some fun. Dr. Schiltz who lives nearby, noticed the boy when his clothing caught fire, and hastily grabbing a rubber coat ran out and soon smothered the fire, but not until the lad was badly burned about the face, neck and shoulders.—Dayton Courier-Press.

Shot a Bald Eagle.

E. J. Savre Saturday shot a bald eagle in North Union. The bird measured seven feet from tip to tip and will go into the Woodard collection.—Union Republican.

GOLD COIN TIED UP.

Rye Valley Rancher Sues Pendleton Men for \$200 Damages.

The Baker City Herald of Saturday gives the following account of the damage suit brought by A. P. Brown of Rye valley, against the Gold Coin mine, owned by T. W. Ayers, Dr. T. H. White and others, all of this city:

The Gold Coin mine near Durkee is now closed down by injunction, issued out of the circuit court against the company, forbidding them the use of the waters of Rith creek.

The suit for injunction was brought by A. P. Brown, a rancher living on the creek a short distance below the mine. He also asks damages in the sum of \$200 on the ground that the mine has polluted the waters of the creek until his stock cannot drink it.

The facts in the case seem to be about as follows: Brown owns a very small ranch along this creek. The mine, of course, used the waters of the creek for milling purposes and in this way the water became polluted to a certain extent, which is natural in all mining sections.

But there is another creek across Brown's ranch. To provide him with a good watering place for his stock the owners of the Gold Coin offered to build him a flume around the junction of the two streams, so as to carry the polluted waters from the mill below the junction of Rith creek and thus provide a good watering place for Brown's cattle at all times. This Brown refused to do, and it is said, insisted that the company either buy him out or pay him damages.

T. W. Ayers, manager of the company, refuses to be held up in this manner, he says, and consequently Brown has brought suit and it will now be fought out in the courts as the company will do nothing except build the flume. They refuse to pay the money Brown asks.

The sentiment around Durkee seems to be with the Gold Coin people as they have offered to do what is right and Brown has refused. The mine is shut down temporarily but will soon resume operations.

Mr. Ayers was in Baker City this morning in regard to the matter, returning to Durkee on the noon train. He says that so far the Gold Coin has shipped about 800 tons of ore and now has a 75-foot ledge.

LAND IT ALLOTTED.

Des Chutes Tract is Set Aside by the Government.

Governor Chamberlain has received the following letter from J. R. Fimple, acting commissioner of public lands at Washington, D. C.:

"I have to advise you that on October 27, 1905, the map in connection with list No. 11, filed by the state of Oregon, under the act of August 18, 1904, (23 Stat., 422) and the acts amendatory therof, involving 21,082.21 acres of land in The Dalles and Lakeview land district to be irrigated by the Oregon Development company, was approved by the secretary of the interior and on the same day the secretary of the interior executed the contract which was approved by the president.

"Copies of maps and papers will be sent to the local land office with appropriate instructions.

"A copy of the list and executed contract will be forwarded to the state agent."

This is the list of desert lands applied for by the Oregon Development company, represented by ex-Attorney General C. M. Idleman, and the lands were certified to by J. E. Moreau, the desert land selection agent authorized by the state of Oregon to make such selections under the acts of congress relating thereto, who declared "that the lands are vacant, unappropriated, and are desert lands as contemplated by acts of congress."

The sources of the water used for irrigation and reclamation are from the middle fork of the Des Chutes river, in Klamath county.

The estimated cost of the construction of the proposed system of irrigation is the sum of \$427,047.25, and the annual cost of maintenance of this system of irrigation is the sum of \$1 per acre. Thus, it would appear that the original cost of the work will be an average of \$13.74 per acre on all the land allotted.

Can You Believe Your Senses?

When two of them, taste and smell, having been impaired if not utterly destroyed, by Nasal Catarrh, are fully restored by Ely's Cream Balm, can you doubt that this remedy deserves all that has been said of it by the thousands whom it has cured? It is applied directly to the affected air-passages and begins its healing work at once. Why not get it today? All druggists or mailed by Ely Bros., 55 Warren Street, New York, on receipt of 50 cents.

MERCURY MAKES WRECKS NOT CURES

Thousands who have had their health ruined by Mercury testify that it makes wrecks instead of cures in the treatment of Contagious Blood Poison. While it may mask the disease in the system for awhile, when the treatment is left off the trouble returns with renewed violence, combined with the disastrous effects of this powerful mineral—Mercury, and Potash, which is also a common treatment for Contagious Blood Poison, eat out the lining of the stomach and bowels, produce chronic dyspepsia, cause the teeth to decay, make spongy, tender gums, affect the bones and muscles, and leave its victims complete physical wrecks.

Another effect of this treatment is mercurial rheumatism, the worst and most hopeless form of this disease. There is but one certain, reliable antidote for this destructive poison, and that is S. S. S. It is the only medicine that is able to go into the blood and cure the disease permanently. S. S. S. does not hide or cover up anything, but so completely drives out the poison that no signs of it are ever seen again. S. S. S. is made entirely of roots, herbs and barks, and while curing Contagious Blood Poison, will drive out the effects of any mineral treatment. We offer a reward of \$1,000 for proof that S. S. S. contains a particle of mineral of any kind. Book with instructions for self-treatment and any medical advice wished furnished without charge.

Nine Boys Accused of Burglary.

The action taken on the nine young men and boys arrested for the burglarizing of the Wheeler-Motter store and the Nelson second-hand store on Monday evening, is as follows:

Kenneth McKeeth, proprietor of the messenger office where the burglary was planned—Held to answer to district court after hearing before Judge Locke; in jail in default of \$500 bail.

Stanwood Long, another leader in the commission of the crimes, who was captured at Nampa after having run away—in jail, in default of \$500 bonds, to await trial by district court.

Will Boien, also captured at Nampa—Held to district court; unable to furnish \$500 bail.

Ed Camp—Held to district court in \$500 bail.

Everett Barber, aged 16—Transferred to juvenile court, but not tried there, because of his age. Information will be filed against him in district court.

Herman Estes, aged 15—Same course as in Barber case.

Howard Eddy, aged 15—Allowed to go on probation by the juvenile court.

Howard Mitchell, aged 14—Allowed to go on probation, after hearing in juvenile court.

John Wigman, aged 20—Made a showing that he was not concerned in the burglaries, being on messenger duty at the time; not prosecuted.—Boise Statesman.

"IN A BAD WAY."

Many a Pendleton Reader Will Feel Grateful for This Information.

When your back gives out! Becomes lame, weak or aching! When urinary troubles set in. Your kidneys are "in a bad way." Doan's Kidney Pills will cure you. Here is local evidence to prove it.

Robert Sample, of 301 Auna street, Pendleton, Ore., says: "For nine or ten years I have doctored and used remedies after remedy, trying to find relief for kidney disorder which has caused me more misery than I can tell. It seemed all in vain to get even temporary benefit from the remedies I tried, and I got sorely discouraged feeling that Bright's disease would sooner or later overtake me. The condition of my kidneys not only prevented me from resting at night but was a source of pain and difficulty during the day. Doan's Kidney Pills were brought to my notice and I procured them at Brock & McComas Co.'s drug store. Nothing ever gave me more satisfaction than this remedy. It went right to the kidneys, regulating their action and righting their disordered condition, at the same time banishing the pains and aches entirely. I could rest comfortably at night and my whole system was so much improved that I am indeed, grateful to Doan's Kidney Pills for accomplishing this almost unlooked for result."

For sale by all dealers. Price 50 cents. Foster-McIlburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

Second Notice.

All persons knowing themselves to be indebted to D. Kemler & Son call at old stand on Court street in the next few days and settle their account at once and save cost.

D. KEMLER & SON.

The Halo of Motherhood.

The halo of motherhood is a divine thing, we all revere it, and we all appreciate at what a cost it has been won. Apprehension, fears, worry, and actual suffering make up its cost, and yet all this might be vastly lessened by the simple agency of

MOTHER'S FRIEND,

a medicine dedicated to the easing of parturition and its accompanying sufferings.

It is applied externally, and the results following its use are nothing short of marvelous. "A friend in need is a friend indeed," that's what Mother's Friend is. Sold at all drug stores for \$1.00 per bottle. Send for our book, "Motherhood," free if you ask.
