AMONG THE EXCHANGES OF THE INLAND EMPIRE

Will Raise Tobacco in Idaho.

The articles of incorporation for the organization of the Clearwater Leaf Tobacco Curing & Packing company, with headquarters at Orofino, have been prepared and within a few days will be forwarded to the secretary of state for filing. The company will be organized with a capitalization of $250,000 and with a paid up capital of $50,000 subscribed by Spokane and Orofino citizens. The Spokane organization has been effected by H. Rothenberg, a wholesale tobacco dealer, who, it is understood, is connected with the American Tobacco association. The Orofino end of the business is in the hands of G. W. Moody for many years an extensive tobacco grower, who cultivated the tobacco which took the first prize at the St. Louis, Spokane and Lewiston fairs, at the latter place winning over the entry taking the first prize at the Lewis and Clark exposition.

The company will open an office within the next 30 days and will at once secure 100 acres to be planted to tobacco next year. It is intended this acreage will be increased to 500 acres the second year and the industry further developed as the demand increases. From the statistics of the tobacco culture it is learned that an acre can be grown and cultivated at an expense of about $25. The revenue derived from a single acre should not be less than $100, thus leaving a handsome profit to the grower. It is the purpose of the company to cultivate seed leaf variety and it is expected western manufacturers will be supplied from this point.—Orofino Optimist.

Condon Mills Ran With Crude Oil.

The machinery in the Gilliam County Milling company's big plant is all in place and the crude oil fires were lighted for the first time last week. The machinery was operated for two or three days simply as a "smoothing up" process and was found to work in a manner most pleasing to the operatives and the company. As soon as the water well is completed and a sufficient amount of water is assured to keep the boilers supplied, the plant will be started on its regular run, and the output of flour will only be limited by the supply of wheat which, in a wheat belt like Gilliam county, should in another year prove amply adequate for the demand of some 1200 bushels per day. The plant is strictly first-class and up-to-date in every respect and is one of the most important industries in the city.—Condon Globe.

Heavy Loss in Salubria Fire.

Dr. L. W. Smith, who was a heavy loser in the Salubria fire, said today that his nephew, I. R. Smith, who owned the building and general merchandise store, would lose close to $25,000, but would be recouped by $14,000 of insurance. He said his own and I. R. Smith's joint loss on the drug store and newspaper outfit would he thought, reach fully $4500, with about $3000 insurance.

The office, files, presses, type and all material of the News Letter were completely destroyed, there being no salvage. Dr. Smith said this would end the paper, as he would not attempt to publish it again.—Lewiston Tribune.

Private Bridges Across the Imnaha.

Two private wagon bridges are being constructed across the Imnaha river in The Park. J. A. Blevans assisted by Louie Gitschlag and John Owen is replacing his old bridge with a new one. The main span consists of stringers 16x17 inches and 57 feet long. The weight of each of these stringers is over three tons; and yet three men and a span of horses dragged them to the place where wanted and mounted them on piers 14 feet six inches high. The bridge including the approaches, will be 100 feet long and will require 4200 feet of lumber to floor it.—Joseph Herald (Fruita Correspondent.)

Right of Way Case Decided.

The right of way case between G. B. Clark and the O. R. & N. was decided Wednesday in favor of the O. R. & N. It seems that the railway company offered Mr. Clark $350 for a right of way through his place in the canyon, which he refused, claiming damages to the amount of $3000. The jury brought in a verdict for $550 for the same land. The matter of costs is now under advisement.—Joseph Herald.

Mixed Lambs at $2.50.

Jack Eads, of this city, purchased 1300 head of mixed lambs from T. C. Merrill, of Hardman, Wednesday at $2.50 per head. Mr. Eads has leased the Peter Hillard ranch on Deer creek, and expects to engage in the sheep business. Mr. Eads is an experienced sheepman and will no doubt meet with success.—Monument Enterprise.

NOTES FROM FAR INTERIOR.

Expect Artesian Water—Settling New Country.

While making his tour of the interior part of the state to ascertain if the weather bureau instruments were in good shape at the various co-operative stations, District Forecaster Beals says that he found one of his observers busily employed in digging an artesian well, says the Crook County Journal. The observer was F. M. Chrisman, who is located at a point near Silver Lake, which is a barren desert with the exception of a heavy growth of sagebrush here and there.

Mr. Chrisman had the well sunk to a depth of 222 1-2 feet and was still boring away confident that he would secure a good flow of water. Water was struck at a depth of 47 feet, but not in sufficient quantities to reach the surface.

"Other settlers in that neighborhood are keeping in touch with this experiment," said Mr. Beals, "and if it proves a success it will mean great things to them. Water would make that one of the finest stock raising and farming sections in the state. There is a new country being settled this fall about 35 miles northeast of Silver Lake. Late experiments in that locality have shown that plenty of water can be found at a depth of only 10 or 12 feet below the surface. With this as the condition it is believed that the country will produce alfalfa and settlers are flocking in there from every point of the compass to try their hand at farming."

Idaho Has Lost 23,000 Acres Land.

Special Agent Marvin, of the state land board, while checking the grants in the Lewiston district, discovered 23,000 acres have been lost in the state's selections by reason of homestead and pre-emption filings and Indian allotments. These will furnish a base for the selection by the state of lands in lieu. While a large proportion of these losses were inevitable, still a considerable part was due to laxity in former administrations of the land department of the state.

Agent Marvin also discovered that in the Lewiston district the state has made application some years ago for the selection of 2000 acres of valuable timber lands, no record of which was to be found in the Boise office. The application is on file with the Lewiston land office, but the records of the state contain no record of the transaction, and until the records at Washington have been consulted the land board cannot tell under what grant the selection was made.—Boise Statesman.

$100 Reward, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded diseases that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address: F. J. CHENEY & CO., Toledo, O.
Sold by all druggists, 75c.
Take Hall's Family Pills for constipation.
