## Acetylene Company Sustained.

The Yakima Improvement company which is building the acetylene gas plant in this city, has won its points of contention in the injunction proceedings against the city. This morning a large force of men is at work digging trenches in the alleys to lay the pipe for the distribution of the gas. The case was heard before Judge Rigg at Ellensburg Friday night and he rendered his opinion in favor of the company at once.

The injunction obtained by the city against the company was dissolved, and the injunction obtained by the company against the city was continued and made permanent. Fred Parker represented the company and Ira P. Englehart the city. The case is appealable to the supreme court.

The contention of the city in these proceedings was that the gas company was digging up the streets without authority. The contention of the company was that it had complied with every requirement of the franchise granted it to do business here and also to the laws of the state and city.

The acetylene company will continue in its work of establishing a gas system for the city. It now has about \$23,000 worth of material on the ground. There are nearly six miles of pipe ready to be laid, and the foundations for the tanks and furnaces for the manufacture and holding of the gas are almost completed.—Yakima Daily Republic.

## Vast Numbers of Whitefish.

Whitefish in great numbers have been swarming about the lake, where the Payette river leaves it, for several days. Towards evening the water for a considerable distance appears black with them. Occasionally, either in play or through fright, they rush about and churn the water up, the uppermost ones being forced above the surface by the pressure of fish below. It is unusual for them to gather at that place at this season. They usually spawn in the creeks at the head of the lake this time of the year, and, unless the stream is closed by nets to them at that place it is not easy to account for them being here. There appear to be many thousands of them, and some are being caught.—Long Valley (Idaho) Advocate.

## New Markets for Lumber.

The shipment of one million feet of choice yellow pine to Chicago from Culeaca marks a new development in the lumber industry of this section. The lumber is the product of the Colby-Coryell & Howe and the Lewiston Lumber company's mills, the former company supplying more than \$60,000 feet of the shipments. Mr. M. A.

## Anti-diphtheria Serum.

One of the leading medical journals summarizes a recent statement by an investigator named Layson about the lasting qualities of the antitoxin of diphtheria, which is now an article of commerce. Tests were made which seem to correspond to all the conditions to which serum would be ordinarily subjected, both in the laboratory and in the market. Dr. Layson concludes that it retains its potency for a period much longer than has been supposed. When kept under the most perfect conditions, the majority of serums retain their potency undiminished for two to five years. Under less favorable conditions, such as commercial antitoxin, it is rarely subjected to the physician or druggist, the loss of antitoxin strength in one to five years varies from that which is imperceptible to one of 33-1/3 per cent. Even the extreme loss is not such as to bring the total antitoxin content of a package of American serum below the labelled value, since the manufacturers add sufficient excess to cover this loss.

## \$100 Reward, \$100.

The reader of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical profession. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of disease, and giving the patient strength by building up the constitution and assisting nature in using its work. The price is low for any case that it fails to cure. Send for list of testimonials. Address: E. J. CHENEY & CO., Toledo, O. Sold by all druggists. Take Hall's Family Pills for constipation. Rader-Carpenter-Rader.

## Helping Russian Jews.

Treasurer Ben Selling, of the local relief committee, yesterday forwarded the third \$5000 installment of Portland's generous fund for the persecuted Russian Jews, says the Portland Oregonian. The money was sent to Jacob Schiff, in New York, chairman of the National committee, who will in turn place it with the authorized distributive agents abroad. The fund which goes from America to these suffering people is only indicative of the widespread generosity of the nation and the broad sympathy of the American.

## "I Thank the Lord."

Cried Hannah Plant of Little Rock, Ark., "for the relief I got from Bucklen's Arnica Salve. It cured my fearful running sores, which nothing else would heal, and from which I had suffered for five years." It is a marvelous healer for cuts, burns and wounds. Guaranteed at Talman & Co., and Brock & McCombs' drug stores; 25c.

A little girl picked up a stick of dynamite lying across a rail on the W. & C. R. track in the outskirts of Walla Walla. The child was playing with it when it was taken from her by a line-man. It is believed an attempt was made to wreck the Dayton train.

Thomas, representing True & True, saw and door manufacturers of Chicago, is now in Culeaca inspecting the lumber as it is loaded for shipment. The first three carloads were shipped last week and it is expected the final shipment will not be made for several days. The shipments from this point will aggregate 10,000,000 feet for the year 1905 with a prospect of a large increase next year. At the present time the Northern Pacific company is asking for the construction of the line from here to Grangeville, besides 150,000 feet, which will probably be supplied by Craig mountain timbermen.—Culeaca Register.

## Has Not Left Catholic Church.

Bishop Glorieux is in receipt of a letter from Rev. John H. Hennes, who was connected with St. John's Catholic church here some time ago. Mr. Hennes states he has not joined the Episcopal church. It appears a story to that effect has been circulated, and Mr. Hennes writes the bishop to say he has not abandoned the Catholic faith.

He states he stayed some time at Episcopal schools and later with some Episcopal clergymen in Wisconsin and Chicago, as he had no other place to go. He is now with the Benedictine fathers at St. Meinard, Ind., making his home with them until Archbishop Messmer can secure him a parish.—Boise Statesman.

## Grand Jury at Boise.

From various sources, none of which, however, is official, the Statesman learned that the matter of gambling will be investigated by the grand jury, and that the members of that body will also turn their attention to the criminal conditions made public by the recent exposures in the Capital city messenger service, where eight young men and boys confessed to committing three burglaries. It is the general idea that messenger services of this sort are schools of crime, and that the sooner the strong arm of the law is invoked to the end that they be obliterated, or at least, made to come under rigid police supervision the better it will be for the youth of the city.—Boise Statesman.

## Setting Around Christmas Lake.

Byron Cady returned the last of the week from a six months' absence in the Christmas lake district, which just now is drawing more settlers than any other portion of that section. The desert region which a year ago was barren of habitation now presents the appearance of a thriving agricultural region, many homestead cabins having been built to accommodate the large number of people who are now making the desert their home.—Crocket County Journal.
