## ECHO NEWS NOTES

L. R. WEBSTER SPEAKS  
SATURDAY, JANUARY 13.

**Possible Consolidation of Irrigation Projects—Death by Typhoid Fever and by Paralysis—Gun Club Organized With Membership of 25—Clark Ware a Champion Shot—More New Building Projected and Being Built—Employee of O. R. & N. Was Injured.**

Echo, Jan. 7.—L. R. Webster, county judge of Multnomah county, and a possible candidate for United States senator, has been invited to speak on irrigation at the meeting which will be held here next Saturday, January 13, for the completion of the Umatilla River Water Users' association. The meeting will be attended by a number of prominent irrigators, and it is hoped that Judge Webster will be able to attend.

L. C. Crawford, who is president of the Cold Springs Irrigation company and who is one of the committee of the Umatilla River Water Users' association, has gone to Wallace, Idaho, to confer with the stockholders of the Cold Springs project, regarding the advisability of having the land put under the Umatilla project and Umatilla River Water Users' association. It is more than likely that this matter will be agreed upon by the stockholders at this conference.

H. L. Holgate, who has been here from Klamath Falls doing the legal work for the government on the East Umatilla project was called to North Yakima last week by the government to work on the project there for a few weeks. Attorney R. E. Williamson left for North Yakima today, also, to assist Mr. Holgate with the project. Mr. Williamson will divide his time for the next year on the Umatilla and Yakima projects. They will both attend the meeting here Saturday.

### Two Deaths in Echo.

Russell Williams, 35 years of age, died Friday night of typhoid fever at the home of W. M. Williams after several weeks' illness. He had been engaged in farming in this vicinity for some time, and leaves a brother, W. S. Williams in Echo, besides the family of W. M. Williams, who are distantly related. He is unmarried, and came here from the east a few years ago. His funeral took place from the M. E. church today, and he was interred in the Echo cemetery.

Mrs. Mary E. Reed, who died near Echo last Monday, was 58 years of age and had been married four times. For seven years she was a helpless paralytic. She was born in Tennessee and came to Oregon in the early days. One daughter and one son survive her, Walter L. Knight of Echo, and Mrs. S. M. Bennett of Hood River. She was buried in the Echo cemetery.

### Gun Club Organized.

A gun club was organized in Echo Saturday evening with a membership of about 25. Each member paid \$5 initiation fee, which will be used to purchase traps, blue birds and other necessary articles. Arrangements will be made for a first-class shooting ground. The first shoot will be held in about two weeks. Eastern Oregon clubs will be invited here for shoots in the future.

### Champion Shot.

Clark Ware, the champion shot of this section, killed four coyotes and a bald eagle in the last six shots he has fired, which is considered quite a record breaker. No shot was less than 150 yards, some over. Many eagles collect in this section in the winter on account of the rabbits.

### More Buildings.

Besides the building being erected on Main street by Mayor L. A. Esteb, which is rapidly nearing completion, he has commenced the erection of another frame structure on Bridge street opposite the Hotel Echo, which will be two stories high. Its dimensions being 24x30 feet. The lower floor will be occupied by the Standard Grocery company of Echo. A. Gale being proprietor and manager. The upper floor will be used for living rooms.

The handsome building being erected by J. A. Koontz is nearly completed, and will be a handsome structure, 50x90 feet, and will cost when completed about \$9000. It will be occupied by the George & Miller company, who will conduct a general merchandise store, and will be ready for business about the middle of February.

The first issue of the "Echo Register," which will be the name of the new little sheet made its appearance Friday. Messrs. Brown & Stratton, publishers. Echo is growing, and needs the lively weekly, which these enterprising gentlemen will give the town in the future.

Louis Scholl, jr., has just mounted a handsome golden eagle which was killed by a young man a short time ago in the vicinity of Foster.

W. F. Short will soon open a restaurant on Main street in the building owned by J. R. Means. Mr. Short came here from Seattle where he has been in the restaurant business for 15 years.

The new city council for Echo has been sworn in, the following taking the oath of office: Mayor, L. A. Esteb; councilmen, John Dorn, Frank Spike, C. A. Lisle, Cloyd Oliver and C. J. Gulliford; recorder, H. B. Gillette; marshal, H. D. Pugsley. Councilman Ross Newport and Treasurer W. H. Boyd, were absent from this meeting. A young man whose name was not learned, who had been employed by

the O. R. & N. company at this place for a few days installing a gasoline pump in the pump house near the station met with a painful accident Friday, and was taken to the hospital Friday night. He was quite seriously injured about the head and shoulders in some unknown way while at work, though his condition is not considered dangerous.

### CHICAGO SHEEP MARKET.

Choice Lambs Selling Sold Saturday for \$7.90.

The Chicago Livestock World gives the following entertaining review of the Chicago sheep market for the past week: The run fell down; that was all there was to it. Values were steady to 10 cents higher, but the market was so uneven that there were places where prices looked lower, especially on ewes, the spread between decent and prime she stuff being about 75 cents. Lambs, especially if choice, were wanted, choice selling up to \$7.90 in both native and western divisions.

Three doubles of fed Montana lambs as good as have been here this season made \$7.90. The same price was made by choice natives and there was a goodly showing at \$7.50@7.75.

Yearlings were quotable at a range of \$6.75@6.75. Good 94-lb stuff moved at \$6.25 and where weight was in evidence, they were not quotable above \$6.50, no matter of what quality. Choice handweights were worth up to \$6.75.

Choice wethers sold up to \$6 and that kind was in demand. Good to choice fed wethers were worth \$5.75@6, and fair stuff \$5.50@5.75. The range on ewes was very wide, choice being quotable at \$5.75, while decent moved at \$5 and the bulk sold at \$5.25@5.50. Pulp-fed ewes from Colorado made \$5.60. A band of 107-lb ewes at \$5.30 was 10 cents lower.

Native ewes of choice quality were quotable at \$5.75, but the bulk moved at \$5.25@5.55. It required superb quality and light weight to get top prices.

Compared with the finish last week prices do not show much change. The range is about the same, although there have been 10@15-cent depressions on in-between grades. Prices have been maintained largely by a moderate supply. Had the run been heavy, concession would have been needed to effect a clearance. In this respect feeders have shown good judgment.

### Half the World Wonders

how the other half lives. Those who use Bucklen's Arnica Salve never wonder if it will cure cuts, wounds, burns, sores and all skin eruptions; they know it will. Mrs. Grant Shy, 1130 E. Reynolds St., Springfield, Ill., says: "I regard it one of the absolute necessities of housekeeping." Guaranteed by Tallman & Co. and Brock & McComas, druggists, 25c.

### BUILDING TRADES COUNCIL.

Trades Unions of California Have Grown Rapidly.

San Jose, Cal., Jan. 8.—The State Building Trades Council of California opened its fifth annual convention in Eagles' hall this morning, with about 200 delegates, representing the various organizations in ever part of the state, in attendance. The convention was opened by General President P. H. McCarthy of San Francisco. The mayor of San Jose delivered an address of welcome and the president responded. Then the president read his annual address and was followed by the other officers of the organization, who submitted their annual reports.

The State Building Trade Council has gained largely in membership during the past year. Several new councils have become affiliated, among them the Building Trades council of Fresno county, the Building Trades council of Marion county and the Building Trades council of San Diego county. The gain in membership has been over 25 per cent.

The convention this year is of unusual importance owing to the fact that a great many vital questions will come up for consideration and discussion. Questions of jurisdiction will, undoubtedly, take up considerable time of the convention. Recommendations will be made and legislation enacted whereby it is hoped that the frequent and aggravating trade disputes between organizations may in the future be largely eliminated.

The plan, so successfully pursued by the building trades council in adjusting frictions of this kind between the unions will in all probability be adopted by all the councils on recommendation of the state body. The question of perfecting and extending the organization will also receive the careful attention of the convention, and if it is possible to excel the remarkable record made by the council during the year 1905, plans will be laid and efforts made to do so during the coming year.

Indigestion is easily overcome by the use of Kodol Dyspepsia Cure, because this remedy digests what you eat and gives the stomach a rest—allows it to recuperate and grow strong again. Kodol relieves indigestion, belching of gas, sour stomach, heartburn, etc., and enables the digestive organs to transform all foods into the kind of rich red blood that makes health and strength. Sold by Tallman & Co.

Representative Hill of Connecticut, though he comes from a tobacco-raising community, strongly favors entire free trade between the Philippines and the United States. Mr. Hill was a member of the Taft party which recently visited the Philippines.

# Are You One of the Crowd of Poorly Paid Men

Who have heard of and seen the advertisements of the International Correspondence Schools, and wondered what it held in store for them but who through neglect, or doubt, or indecision, have passed it by.

If so, come out of the crowd now. Get ahead of others. Reach up. Decide upon the occupation in which you wish to succeed, and give the I. C. S. an opportunity to help you as they have helped tens of thousands to earn more salary, to rise in the world, to have enterprise of their own. Don't decide that your case is an exception, until you have asked about it. Then your only regret will be that you did not ask before.

The I. C. S. is an institution with an invested capital of \$5,000,000, devoted entirely to the welfare of people who must help themselves by placing in their hands the power—the ability to become of more value to themselves and others.

The local branch of the I. C. S. is in charge of J. E. Martin, who is holding a display for one week in the corner window at the

### ATTRACTIONS AT THE FRAZER THEATRE.

"The Girl From Sweden."

Hilarity and pathos are seldom combined in such an exquisite manner as we find them in the new comedy drama, "The Girl From Sweden." A good, sensible, soul-stirring plot that has really a plausible use in the play, and you have as pleasant an evening as it is possible to find. High-class specialties are introduced throughout the play. Among the specialties are the wonderful Hoopers, who have just returned from a most successful tour of the world. "The Girl From Sweden" comes to the Frazer Friday, January 12.

### "The Sho Gun" Coming.

Manager Parker of the Frazer, announces a treat at the Frazer when "The Sho Gun" comes here on Thursday, January 18. "The Sho Gun" is one of George Ade's best comic operas and is Japanese throughout. It is one of the "hits" of the season, and will probably stop only at Pendleton on its inland empire tour.

### "When Johnny Comes Home."

American to the backbone, positively reeking with patriotism, yet with not a vestige of sectional or party feeling anywhere throughout its two brilliant acts, with neither an Irish private or a German surgeon nor a British war correspondent, such is the new comic opera "When Johnny Comes Marching Home," which will be presented at the Frazer on January 15, and yet it is the work of two Englishmen, Stanislaus Stange and Julian Edwards.

The music is said to be the best that Mr. Edwards has ever written, and is of that popular kind which is quickly taken up and whistled everywhere. Every patriotic air and every sweet southern melody has been utilized by Mr. Edwards, he having interwoven them most conspicuously throughout his score in such a masterful manner that they are part and parcel of this first successful American comic opera.

### Grande Ronde Ice Crop Scant.

Julius Roesch reports that he has 500 tons of ice in his refrigerator plant, and 500 tons in the ice house at

the ice pond. Even with 1400 tons on hand he still lacks 500 tons. The ice is of fair quality, and is from eight to 10 inches thick.

If there is no more ice this season Mr. Roesch will order his ice plant at once to make up the shortage. If there is more ice, the plant will not be installed until late next summer, as intended.—La Grande Observer.

### FOURTH PURDUE CORN SCHOOL.

Growth and Improvement Subject of State Importance.

Lafayette, Ind., Jan. 8.—The fourth annual Corn School and Exhibition at Purdue university opened today with an unusually large attendance. For the purposes of the exhibition the state has been divided into five sections and premiums are offered in three classes, for white, yellow and mixed corn, in each section. There are also sweepstakes provided for each section and the state in general.

For the school an excellent program has been arranged this year. There will be lectures twice every day on corn and its improvement and there will also be judging of corn every day. An ample corps of assistants has been engaged to assist those in charge of the corn judging, so that every person who desires specific instruction in judging corn will be able to receive it.

There will also be daily lectures on problems in breeding and feeding, as well as daily judging of livestock, including horses, cattle and hogs. Miss Ivy F. Harner, professor of household economics, Purdue university, will give daily lectures and laboratory demonstrations of foods and their preparation. Miss M. M. Mather, a domestic science teacher and Chautauqua lecturer, will assist Miss Harner in giving instruction to the women who attend. She will also lecture on sanitation and decoration of dwellings, household management, etc. T. E. Orr, secretary of the American Poultry association, will give daily lectures on poultry. The winter school of agriculture will begin immediately after the close of the Corn School, which will be on January 13.

A great many young men have been ruined by trying to live away from their jobs.

HAPPY WOMEN.  
Plenty of Them in Pendleton, and Good Reasons for It.

Wouldn't any woman be happy. After years of backache and suffering.

Days of misery, night of unrest. The distress of urinary troubles. She finds relief and cure? No reason why any Pendleton reader

Should suffer in the face of evidence like this:

Mrs. D. Coffman, of 221 Stonewall Jackson street, Pendleton, Ore., says: "I was having considerable trouble from irritating throbbing pains across the back, I think caused by failure of the kidneys to perform their proper functions and aggravated by cold settling in my back. I knew about Doan's Kidney Pills and went to Brock & McComas Co.'s drug store and procured a box. They helped me from the start, and in a short time not a pain or an ache remained. My kidneys were toned up and I felt better in every way. I know others who had the same satisfactory experience, which leaves no doubt in my mind about the curative powers of Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.
