SHEEPSHEARING COSTS $20,000

SEVEN AND EIGHT CENTS PER HEAD TO BE PAID.

Over 5000 Bucks Have Already Been Sheared in Umatilla County—Hand-Shearers Will Probably Receive Seven and Machine Shearers Eights Cents Per Head—Earliest Shearing in Eastern Oregon to Be Done in Morrow County.

About $20,000 will be paid to sheep shearers by Umatilla county sheepmen this season, if the ordinary prices of 7 cents for hand and 8 cents for machine shearing prevail as in former years.

Already about 5000 bucks have been sheared in the county, this being the forerunner of the regular shearing season which will not begin until early in April.

It is estimated that there are about 225,000 head of sheep in the county this spring to be sheared, and about half of this number will be sheared by hand shearers at an average price of 7 cents per head, making a total of $7875 for the hand shearing.

The remaining one-half of the total number in the county, amounting to 112,500 head, will be sheared by machines at 8 cents per head, making a total of $9000 for the machine shearers. Of this total number perhaps 10,000 head are bucks for which an average of 20 cents will be paid for shearing.

Aside from the herds owned and ranged in Umatilla county, a number of outside herds are driven into the county to be sheared on account of convenience to railroad facilities.

During the shearing season at least 100 shearers will be employed in the county and Pendleton is the headquarters and organization center for most of the shearing crews of the inland empire. The earliest shearing in eastern Oregon will be done in Morrow county and a large number of Umatilla county shearers will go to that county to begin work at the very beginning of the season.

From Heppner the crews work eastward into Echo and Butter creek, later to Pilot Rock and Birch creek and in the vicinity of Pendleton, and after shearing out Umatilla county herds the same crews go to Union, Baker and Malheur counties and into Idaho, Washington and Montana, returning to Umatilla county for harvest about July 15, after a shearing season of about 80 days, in which many shearers average $5 to $6 per day.

VETERAN JOURNALIST DEAD.

Parrish B. Johnson of Walla Walla Goes to Reward.

Captain Parrish B. Johnson, the veteran journalist and public official of Walla Walla, died at his home in that city yesterday, after an extended illness. Concerning his varied and interesting public career the Walla Walla Statesman says:

Captain Johnson was born at Waddington, N. Y., November 28, 1837. He was educated in the public schools at Syracuse, N. Y., and afterward studied law. When 19 years old he went to Dubuque, Iowa, where he was employed as local editor on a newspaper.

In 1859 he moved to St. Louis and became local editor of a daily newspaper. While in St. Louis he was admitted to the bar. The same year he migrated to the Pacific coast, where he was associated as law partner with the famed California attorney, Edmond Randolph, and in the spring of 1861, with Frank Pixley upon the staff of the San Francisco Times.

From San Francisco he went to Silver City, Nev., and became editor of the Washoe Times. He then went to Carson City, Nev., and engaged in editorial work on the Daily Silver Age. In 1861 he returned to San Francisco and enlisted in Co. F, Second California Infantry, shortly after being commissioned second lieutenant. In 1862 he was promoted to captain and was made quartermaster in December, 1863. He was ordered to Arizona for duty.

He was then sent to Fort Walla Walla, where he served as quartermaster from July 1, 1864, to October, 1865. At the close of the civil war he was mustered out of the service in California.

In 1866 he returned to Walla Walla and commenced the practice of his profession as an attorney, and became a candidate for the legislature upon the republican ticket, which was defeated. In the spring of 1867 he was appointed clerk of the district court, and held that position until the fall of 1868.

In the meantime, having made a successful run, he became a member of the legislature, and speaker of the house in 1867. In 1870 he was appointed deputy United States marshal and took the census of Walla Walla county that year.

The appointment as clerk of the United States land office having been received in 1871 he served in that capacity until 1875, when he entered upon duty as register and so continued until 1878.

He then became part owner of the Weekly Union, in February of the following year, having been its editor since March 4, 1876. In 1885 he became sole owner of the Union, which paper he managed and edited until 1894, when the paper passed from his control. Since that time he was connected with the Walla Walla newspapers in an editorial capacity and three years ago was editor of the Seattle Weekly Post-Intelligencer.

"There's a Woman in It."

Of course there is—always a woman in everything that's neat and dainty. But the laundry work of today is far easier than it used to be, and better because done by machinery—more uniformly excellent in the finish throughout. But the neat perfection of the work and the exquisite finish of it seem to suggest that a woman's deft hands had been mixed up in the work. Elegant work, but the prices don't match it in quality.
