

# TIRED OF LIFE AWFUL SUFFERING

From Dreadful Pains From Wound on Foot—System All Run Down After Six Months' Agony—Not Able to Work—Completely Cured in Two Weeks

## MIRACULOUS CURE BY CUTICURA REMEDIES

"Words cannot speak highly enough for the Cuticura Remedies. I am now seventy-two years of age. My system had been all run down. My blood was so bad that blood poisoning had set in. I had several doctors attending me, so finally I went to the hospital, where I was laid up for two months. My foot and ankle were almost beyond recognition. Dark blood flowed out of wounds in many places, and I was so disheartened that I thought surely my last chance was slowly leaving me. As the foot did not improve, you can readily imagine how I felt. I was simply disgusted and tired of life. I stood this pain, which was dreadful, for six months, and during this time I was not able to wear a shoe and not able to work. "Some one spoke to me about Cuticura. The consequences were I bought a set of the Cuticura Remedies of one of my friends who was a druggist, and the praise that I gave after the second application is beyond description; it seemed a miracle for the Cuticura Remedies took effect immediately. I washed the foot with the Cuticura Soap before applying the Ointment and I took the Resolvent at the same time. After two weeks' treatment my foot was healed completely. People who had seen my foot during my illness and who have seen it since the cure, can hardly believe their own eyes."

Robert Schoenhauer, Newburgh, N. Y., Aug. 21, 1905.

Sold throughout the world. Cuticura Soap, 25c. Ointment, 25c. Resolvent, 25c. in form of Chocolate Coated Pills, 50c. per box of 60. May be had of all druggists. Foster Drug & Chem. Comp., Sole Props., Boston, Mass. 60¢ Mail Free. "The Liver and Bowel."

Aug. 21, 1905. Newburgh, N. Y.

## PIMPLES

"I tried all kinds of blood remedies which failed to do me any good but I have found the right thing at last. My face was full of pimples and blackheads. After taking a box of Cascarets I am astonished at the use of them and recommending them to my friends. I feel like a new man in the morning. Hope to have a chance to recommend Cascarets."

Fred C. Wilson, 24 Elm St., Newark, N. J.

Special rates by week or month. Excellent Cuisine. Prompt Dining Room Service.

Bar and Billiard Room in Connection. Only Eat and Drink From Deposits.

Daily East Oregonian by carrier, only 15 cents a week.

# 60,000 NEW ACRES

## HARNEY VALLEY IS LATEST ATTRACTION TO SETTLERS.

Project Under Way to Open a Vast Tract to Entry Under the Carey Act—Would Be Irrigated From the Silivies River by the Harney Valley Improvement Company, Though Such an Undertaking Will Meet With Opposition From the Settlers—Big Immigration Into the Valley Looked for.

The Burns Times-Herald reviews an important matter to all home-seekers, as follows:

Several leading attorneys of Burns, claiming to have the interests of Harney valley at heart, have inaugurated a movement to get settlers to locate on land now segregated, under the Carey act, for the Harney Valley Improvement company. The tract contains 60,000 acres of what is considered some of the best agricultural land in the valley.

Under present conditions, settlers have not shown any great willingness to locate on the land. The supporters of the new movement do not attribute blame to the Harney Valley Improvement company. That corporation, they say, has received no contract from state or federal government entitling it to go ahead with reclamation work. But the attorneys behind the movement say they can have the land restored to entry if a sufficient number of settlers will go on the land and commence farming it. Such action would entail, it is claimed, but little expense to the settler, and the implication is that the settler would be entitled to "squatter's" rights if the land were again officially thrown open to entry.

The development of Harney valley in recent years has proven to the satisfaction of settlers here that there is but little desert land in the valley, and that, therefore, there is some doubt as to whether the Carey act was intended to apply to such land as is found here. Abundant crops of grain of the highest quality were produced last year on so-called "dry" sagebrush land.

On account of the difficulties in the way of the Harney Valley Improvement company, it is claimed, it will be several years before this land can be reclaimed. If the proposed method of settling it fails. It is the supposed design of the Harney Valley Improvement Company to get water for its improvement from Silivies river. If it attempts to do so it will have to fight settlers living along that waterway, and also the Pacific Livestock company, if they maintain their attitude toward such an enterprise. The Pacific people own thousands of acres of the best hay land in the valley. An action in the courts would probably require years to settle.

Many people are here looking for land, and from indications this will be the banner year for immigration in Harney valley.

### HOW IT WORKS IN YAKIMA.

#### Inheritance Divided and Then Subdivided.

State Tax Commissioner J. E. Frost is in the city today, says the Yakima Daily Republic. He is registered at the Yakima hotel. Mr. Frost arrived here last night from Seattle. He came over to arrange for a settlement with Alex Miller and the latter's attorney in the matter of the inheritance tax on the estate of the late Catherine Miller, deceased wife of Alex Miller.

The estate of the Millers was appraised by a committee of duly appointed business men. The community estate was appraised at \$81,525. From this amount, however, in order to arrive at the amount of the inheritance tax due the state, it became necessary to deduct debts and expenses of administration in the amount of \$12,000.

According to the state law over \$10,000 of an inherited estate is subject to a tax of 1 per cent. After deducting the expenses and the amount to be exempted there is left a net value of over \$69,000. This property was community property and in order to arrive at the inheritance or the amount left Mr. Miller in his wife's will, the net value was divided.

Mr. Miller at the conclusion of the settlement this morning wrote a check payable to the state treasurer in the amount of \$260, taxes upon the property inherited from his deceased wife.

In the will of Mrs. Miller she left a nominal sum to her adopted daughter, Miss Marlon Miller, who is now attending school at Mills college, in California.

### WEST'S MINSTRELS COMING.

#### Musical Aggregation Will Be at the Frazer March 9.

By pursuing a policy of progressiveness, Manager Ricaby, of the William H. West Big Jubilee Minstrels, is enabled to offer a most refreshing entertainment of a very diversified character this season, one that necessitates the employment of artists of the front ranks.

First of all having kept intact a band of musicians and a corps of singers, all of whose talents are of a high degree, this determined director of novelty amusements has devoted his main attention to the special feature department which, according to the best authority, fairly teems with originality and interest.

and George Wade, who will appear with the West show next Friday night at the Frazer.

### SPRAYING FORMULAE.

#### Board of Horticulture Recommends for Destruction of Pests.

The Oregon state board of horticulture has just issued a bulletin containing several spray formulae, which tests have proved to be very efficient in ridding fruit trees and plants of all kinds of injurious insects, such as the scale, codlin moths, caterpillars and all biting and chewing insects.

For mildew, dissolve one ounce of potassium sulphide in two or three gallons of water.

For leaf spot, use three pounds of copper sulphate (blue vitriol), three pounds of lime (unslaked) and 50 gallons of water. Dissolve the copper in hot or cold water. Use a wooden or earthen vessel. Slake the lime in a tub, adding water cautiously and only in sufficient amount to insure thorough slaking.

After thoroughly slaking more water can be added and stirred in until it has the consistency of thick cream. When both are cold, pour the lime into the diluted copper solution of required strength, straining it through a fine-mesh sieve or gunny cloth, and thoroughly mix. It is then ready for use. Care should be taken that the lime is of good quality and well burned and has not been air-slaked.

Chewing and biting insects can be destroyed by a spray composed of four ounces of arsenate of soda and 12 ounces of acetate of lead. Dissolve in water in separate buckets, pour together, and you have sufficient arsenate of lead for 50 gallons of water. Then pour the arsenate into the water and stir well. This is also a splendid spray for the destructive codlin moth.

For scale use a spray consisting of 15 pounds of unslaked lime, 15 pounds of flour of sulphur, and 50 gallons of water. Slake lime in enough water to do it thoroughly and add the sulphur. Boil for half an hour at least, adding water if necessary. Spray warm through a coarse nozzle.

### FOR FEEBLE-MINDED CHILDREN

#### State Makes Plans to Prepare a Home as Empowered.

The legislature of 1905 passed an act authorizing the state board of public building commissioners to ascertain the cost and purchase and pay for the necessary grounds therefor, and to take initiatory steps toward the establishment of an institute for feeble-minded and epileptic children, and made an appropriation of \$15,000 for the purpose, says the Salem Statesman.

The bill provided that the board might purchase suitable grounds at or near the state capital, but that if the deaf-mute school now in use should be vacated, then that building could be fitted up for the feeble-minded. No provision was made, however, for a new location and new buildings for the deaf-mute school, and nothing has been done so far on the subject of the feeble-minded.

In the bill aforesaid, this provision occurs: "And for the purpose of ascertaining such probable cost, the kind and character of buildings proper to be erected, and also the expense of maintenance, said board is hereby authorized to visit, or to send an agent or agents to visit other institutes of similar kind in other states." The law also says that said board "be and it is hereby required to make a full report of its proceedings under this act to the next session of the legislative assembly of this state, together with a bill for an act for the control, conduct and management of said institute for defective and epileptic children."

The board held a meeting yesterday devoted to the consideration of this question and appointed Prof. G. W. Jones, superintendent of the blind school, as agent of the state to procure literature relating to the care and management of the classes embraced in the law, to study the same carefully, and during the summer recess of his school to visit all institutes of this character in other states, noting the style of buildings, arrangement and capacity, manner of conducting them and all facts relating thereto.

He will also attend the school for technical training in such work at Vineland, N. J., and will make an elaborate report of his findings to the board for use in its report to the legislature.

### PRICES OF IRRIGATED LAND.

#### State of Iowa Sells 1268 Acres at \$12.38 Per Acre.

Approximately two-thirds of the state's lands under the Grandview canal were sold yesterday at the auction sale at the state house, the average price received being \$12.38 per acre, says the Boise Statesman.

The land was appraised at \$10 and \$15 per acre, and about three-fourths of that sold was disposed of at the appraised valuation. Eight tracts out of 32 sold brought a premium above the appraised value, ranging from 50 cents to \$5 per acre.

The total sales of the day amounted to 1268.44 acres, which aggregated \$15,700.86 as the total amount to the state. There were 536.71 acres sold at an appraised valuation of \$10 per acre, 411.59 acres that were appraised at and brought \$15 per acre, and the balance brought various prices.

One tract of 39.59 acres, close to the town of Grandview, was bid in by J. B. Hawley of Boise, at \$20 per acre. Another tract of 40 acres was purchased by Mr. Hawley for \$17. It lies in the same section.

About 30 or 40 bidders were present at the auction, which was conducted by Register McConnell, of the state land department. Seventeen of them secured one or more tracts of land each. The largest individual purchase was made by Jess B. Hawley, who secured 264.89 acres in all. Judge B. F. Olden and Robert L. Hon each secured 120 acres.

# WHAT JOY THEY BRING TO EVERY HOME

As with joyous hearts and smiling faces they romp and play—when in health—and how conducive to health the games in which they indulge, the outdoor life they enjoy, the cleanly, regular habits they should be taught to form and the wholesome diet of which they should partake. How tenderly their health should be preserved, not by constant medication, but by careful avoidance of every medicine of an injurious or objectionable nature and if at any time a remedial agent is required, to assist nature, only those of known excellence should be used; remedies which are pure and wholesome and truly beneficial in effect, like the pleasant laxative remedy, Syrup of Figs, manufactured by the California Fig Syrup Co. Syrup of Figs has come into general favor in many millions of well informed families, whose estimate of its quality and excellence is based upon personal knowledge and use.

Syrup of Figs has also met with the approval of physicians generally, because they know it is wholesome, simple and gentle in its action. We inform all reputable physicians as to the medicinal principles of Syrup of Figs, obtained by an original method, from certain plants known to them to act most beneficially and presented in an agreeable syrup in which the wholesome Californian blue figs are used to promote the pleasant taste; therefore it is not a secret remedy and hence we are free to refer to all well informed physicians, who do not approve of patent medicines and never favor indiscriminate self-medication.

Please to remember and teach your children also that the genuine Syrup of Figs always has the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package and that it is for sale in bottles of one size only. If any dealer offers any other than the regular Fifty cent size, or having printed thereon the name of any other company, do not accept it. If you fail to get the genuine you will not get its beneficial effects. Every family should always have a bottle on hand, as it is equally beneficial for the parents and the children, whenever a laxative remedy is required.

### Crowding Beet Sugar Factory.

"The work on the factory at Nampa," says Mark Austin, assistant general manager of the Western Idaho Sugar company, "is at least a month further advanced for this time of year than has been the case on any other factory built in Idaho, Utah or Colorado."

"Most of the farmers," he continued, "have engaged their hand labor for raising beets and seem to be taking hold of the industry with a vim. The seed and drills have arrived for putting in the crops. Preparation of the soil and the planting of the seeds

### Death of Baker Pioneer.

Near Bridgeport, where he was engaged in farming, August Myers died last Friday at the age of 75 years.

The deceased was born in Germany and came to this country when a young man. He had been a resident of Baker county since the early 60's and was one of the first to engage in placer mining at the old camp of Clark creek. He followed farming for many years and then located on a ranch on upper Burnt River, where he died—Baker City Democrat.

Sixty-five travelling salesmen now make their headquarters in Walla Walla.

## ARE YOU TIRED OF PAYING BLUNDER TAXES

# ?

Many a business man pays as much money for the luxury of blundering as a steam yacht, or a private touring car would cost.

"Blunder Taxes" cannot be evaded—whatever else waits, these must be paid. If a business man gets into the habit of making the same blunders more than once, the taxes will soon amount to confiscation.

"Blunder Taxes" are levied with amazing frequency upon store advertisements. Among the blunders which are assessed at "full value" in advertising are these:

- Selection of poor mediums.
- Using too little space in good mediums.
- Devoting less attention to preparing the daily store advertisement than to the storing of some empty boxes in the basement.
- Stopping the ad altogether for one or more days now and then.
- Figuring the advertising appropriation on the basis of what you can "afford" after all other expenses are provided for.

The use of "programs," schemes, circulars, posters, fence-signs, placards and Jim-cracks, under the impression that you are securing real publicity, and that somewhere, somehow, sometime someone will be influenced by some of these things to come to your store and buy something.

**YOUR "BLUNDER TAX" BILL GROWS SMALLER AND SMALLER AS YOUR USE OF NEWSPAPER PUBLICITY GROWS BIGGER AND BIGGER.**

Continous Publicity in the

Will Prevent Paying "Blunder Taxes."
