OLD PEOPLE CONSTANT SUFFERERS IN WINTER

Most old people are great sufferers in winter. They are seldom free from pains or ailments of some description, because they are not as able to withstand the severity of the climate, with its damp, changing weather, as are their younger, more vigorous companions. Cold weather starts the old aches and pains; they suffer with chilly sensations, cold extremities, poor appetite and digestion, nervousness, sleeplessness and other afflictions peculiar to old age. With advancing years the strength and vitality of the system begin to decline. The heart action is weak and irregular, the blood becomes thin and sluggish in its circulation, and often some old blood taint that has lain dormant in the system for years begins to manifest itself. A wart or pimple becomes a troublesome sore or ulcer, skin diseases break out, or the slight rheumatic pains felt in younger days now cause sleepless nights and hours of agony. There is no reason why old age should not be healthy and free from disease if the blood is kept pure and the system strong, and this can be done with S. S. S. It is a medicine that is especially adapted to old people, because it is made entirely of roots, herbs and barks, selected for their purifying, healing, and building-up properties, and is very mild and gentle in its action. S. S. S. warms and reinvigorates the sluggish blood so that it moves with more rapidity, and clears it of all impurities and poisons. As this rich, healthy stream circulates through the body every part of the system is built up, the appetite and digestion improve, the heart action increases and the diseases and discomforts of old age pass away. S. S. S. cures Rheumatism, Catarrh, Skin Diseases, Sores and Ulcers, and all troubles arising from diseased blood.

Kindness Caused Tears.
 There are many stories told of the queen of Italy's acts of kindness to her poor subjects. The following, however, shows that even the good intentions of queens are not always fulfilled.

Her majesty recently noticed a pleasant-faced little girl, and the queen spoke to her. There was a short conversation, and the queen asked the child what she could do in the way of needlework. "I can knit stockings, signora," replied the girl. "Do you know who I am?" continued the queen. "Yes, signora; you are the queen." "Well, then, make me a pair of stockings and send them to the palace."

A few days afterward the articles arrived and the queen, in return for the gift, sent the child a beautiful pair of silk stockings, one filled with sweets, the other containing money. Next day the queen received a letter from her little friend as follows: "Signora, your gift has caused me many tears. My father took the money, my big brother took the sweets, and as for the stockings, why, mother took them for herself."

Woman's Nature

Is to love children, and no home can be completely happy without them, yet the ordeal through which the expectant mother must pass usually is so full of suffering, danger and fear that she looks forward to the critical hour with apprehension and dread. Mother's Friend, by its penetrating and soothing properties, allays nausea, nervousness, and all unpleasant feelings, and so prepares the system for the ordeal that she passes through the event safely and with but little suffering, as numbers have testified and said, "it is worth its weight in gold." \$1.00 per bottle of druggists. SCHOOL LAND SELLS HIGH.

Forty-Acre Tract Near College Place Brings \$112.50 Per Acre.

Four thousand and five dollars was the record price paid by Colonel McCarthy yesterday for a 40-acre tract of indemnity school land lying about two miles below College Place, says the Walla Walla Union.

The land was appraised at \$32 per acre by the state, but there were three bidders and competition was so lively that it is admitted that the state realized several hundred dollars more than the land was worth. Colonel McCarthy owns 280 acres adjoining this 40-acre tract and as he had rented it for a number of years and enclosed with his own land it was worth more to him than to any other person. The other bidders were Charles McEvoy and J. G. Frankland, who kept the price jumping by \$25 and \$50 stages until near the \$4000 mark, when they became contented with raises of \$5 and \$10.

The purchaser is required to pay one-tenth of the purchase price down, and the balance becomes due in nine other equal yearly installments, so while the price was high the terms are quite reasonable.

Excellent Report Issued.

The bureau of animal industry of the United States government has just issued its annual report, which is a highly artistic and valuable public document. It is filled with fine cuts of horses, cows, goats, sheep and other domestic animals and contains 700 pages of entertaining statistical and scientific matter especially valuable to farmers and stockmen. Umatilla stockmen will be especially interested in the report since this bureau maintains three inspectors in Pendleton and is devoting more and more attention to western stock interests each year. A copy can be secured by writing to either Senator C. W. Fulton or John M. Gearin, Washington, D. C., or to the bureau of animal industry direct.

The original draft in Lord Nelson's handwriting of the historical "General Memorandum" to his captains at the battle of Trafalgar, was sold at auction at Christie's, London, recently, for \$13,000.
