Old people, delicate children, weak run-down persons, and after sickness, colds, coughs, bronchitis and all throat and lung troubles.

Try it on our guarantee. BROCK & MCOMAS CO.

LAZY LIVER

"I find Cascarets so good that I would not be without them. I was troubled a great deal with torpid liver and headache. Now since taking Cascarets Candy Cathartic I feel very much better. I shall certainly recommend them to my friends as the best medicine I have ever seen."

Pleasant, Palatable, Pepsin, Taste Good, Do Good. Never Sickens, Weakens or Grips. Do. Do. Do. Never sold in bulk. The genuine tablet stamped C.C.C. Guaranteed to cure or your money back. Sterling Remedy Co., Chicago or N.Y. For ANNUAL SALE, TEN MILLION BOXES

JAMMED

WITH HUMANITY WAS THE OPERA HOUSE TUESDAY NIGHT ANXIOUS TO SEE AND HEAR

Dr. Ward

The doctor again performed wonderful cures, the stage was filled with old and young, anxious to be treated. Samuel Lane, W. W. Beerman and P. C. Peterson were made to hear a whisper in a few seconds. Edward Enwright, suffering from sciatic rheumatism, was operated on, when he ran around the stage like a boy without pain or distress, while the doctor broke his crutches—again proving new and advanced methods of treating chronic diseases.

His office is thronged from morning till night. A positive and permanent cure on all cases accepted. Now is the time to commence. Delays are dangerous.

HE TREATS ALL CHRONIC DISEASES.

AS TO OKLAHOMA

INFORMATION ABOUT A GREAT COMMONWEALTH.

Enormous Growth in Population, Wealth and Railroad Mileage—Has No Bonded Debt—Has a Common School Endowment of Great Magnitude, and a Per Cent of Illiteracy Among Whites of But Three Per Cent.

The following entertaining historical and statistical sketch of Oklahoma is taken from an address by Hon. Charles Dick of Ohio, which was delivered in congress preceding the admission of Oklahoma and Indian territories to statehood:

The 23,000,000 acres of land in Oklahoma represent an agricultural investment, exclusive of improvements, crops, or stock, of \$232,000,000, said Mr. Dick. Adding to this the value of implements, machinery, and live stock makes the total \$319,750,993 as the figure of agricultural wealth of the territory. All kinds of fruits are raised successfully there, and in some varieties the territory rivals the world. The total assessed value of the territory for 1905 was \$3,130,721, which is about one-fifth the real value. In 1901 the total assessment was a little over \$6,000,000, and in 1902 increased to \$75,000,000.

These figures show a steady and substantial growth. Farm property increased in assessed value from \$1,044 to 1905 from \$30,000,000 to \$33,000,000. In recent years there has been developed a gas and oil field that rivals the great state of Pennsylvania, with coal and manganese and asphalt beds and gypsum beds; granite quarries rivaling the great state of Vermont, and a magnificent magnesium limestone rivaling the wonderful quarries of New Bedford, Ind.

Railroad Mileage. The railroad mileage in the territory has moved forward by leaps and bounds, and there are over 3000 miles of track, exclusive of siding and right of way in the territory. The year ending June 30, 1905, added 432.71 miles in new mileage. There are over 12,000 miles of toll line and telephone wires in the two territories.

The newspapers published number 345, including 39 dailies. There is an excellent state university, with buildings and grounds worth about \$250,000; a university preparatory school and three state normal schools; an agricultural and mechanical college, representing \$250,000, and a colored agricultural and normal school, all supported more or less by the territory. The total number of banks in the territory, which reported to the bank commissioner, was 262 territorial banks and 55 national banks. During the past year only one territorial bank and one national bank failed, and in neither case was a dollar lost to the depositors.

The railroads are assessed for taxation on their main lines from \$5000 per mile down to \$5000 per mile, and less amounts on the more unimportant lines and the various sidetracks and branches.

Oklahoma Has no Bonded Debt. Oklahoma has no bonded debt. November 30, 1905, it had an outstanding warrant indebtedness of \$735,240. On the same date the territorial treasurer had on hand \$710,842 cash, and the school land leasing board had on hand \$259,317, rentals of leased lands not yet turned over to the treasurer, leaving cash on hand over and above all indebtedness of \$234,920.05. At this date practically none of the territorial taxes for the year 1905 had been collected, as they did not become payable until December 1 and delinquent until the 15th day of January under the law.

Magnificent Endowment. The territory has 1,413,794 acres of land reserved by acts of congress for the support of the common schools of the new state, which is confirmed to the state by this act as a grant.

It has 322,006 acres of land reserved for agricultural and mechanical college, university and normal school purposes, which reservations are confirmed to the state in this act.

It has 315,165 acres reserved for public buildings and the erection of charitable and penal institutions, which reservation is confirmed by this act to the new state as a grant. It has also cash on hand in the treasury, \$433,406, accumulation of rentals of the lands reserved for public building purposes, which it has not been authorized to expend and the accumulating rentals of which are being held by the territory for the use of the new state in furtherance of the purposes for which the land was reserved and granted. It is confidently believed that if these lands could be retained by the state, the rentals of the same would pay the interest on a sufficient amount of bonds to build all of the state institutions which must necessarily be located when Oklahoma becomes a state.

By this act congress has made a grant for common school purposes to the new state of \$5,000,000 in lieu of sections 16 and 36 granted in Oklahoma, and which under the conditions in the Indian territory are unavailable, there being no public lands in the Indian territory subject to such grant.

The bill also provides for grants of public lands to the various educational institutions in the territory aggregating 1,050,000 acres, in addition to the grants of land for the purposes heretofore mentioned. There is in the territory available for the satisfaction of these grants approximately 1,600,000 acres of unappropriated public land.

California Prune Wafers Cure liver diseases and all stomach troubles; they act gently but surely, strengthen the bowels and stimulate them to healthy action. Tallman & Co., 623 Main street, Pendleton, Ore. 100 Wafers 25 Cents.

900 acres of unappropriated public land. The present population of Oklahoma is about 20 to a square mile as against about one to the square mile in Arizona and New Mexico.

Settlement in 1905. In the year ending June 30, 1905, 477,000 acres were entered for settlement in Woodward and Beaver counties, in the extreme northwest of Oklahoma. It is claimed that the percentage of householders owning their own homes is greater than in any other state in the union except three, and that no state shows such a high percentage of homes entirely free from debt.

The percentage of illiteracy in the population over 10 years of age is 5.5 per cent, the same as in New York state, and slightly less than in Massachusetts, as compared to 33 per cent of all the population in New Mexico and 24 per cent in Arizona. There are 21 states having a greater degree of illiteracy than Oklahoma. The percentage of illiteracy among the whites is less than 3 per cent, but among the blacks it is 26 per cent, and this raises the total average.

SAW WRECK IN A DREAM.

Sad Incident of a Disaster at Florence, Colo.

A special from Florence, Colo., the scene of the terrible collision on the Denver & Rio Grande, last Friday, to the Deaver Post, says:

One of the pathetic tragedies of the disaster was the wiping out of all but two of the family of Taylor Hewitt, of Leho, Kan. Father, mother, grandchild, and the wives of the sons are missing. The two sons, E. A. Hewitt and W. L. Hewitt, are among the injured in the hospital here, each of them having a leg fractured in addition to other injuries. E. A. Hewitt said tonight:

"Our party consisted of my father, Taylor Hewitt, my mother, Ellen Hewitt, my sister, Pearl, aged 15 years; my brother, W. L. Hewitt, my sister-in-law, Winona, aged 31; my wife, Catherine, aged 17; our 4-month-old baby, Clausus; Mr. and Mrs. Edward Conley, and Fred Jones. We were going to Joseph, Ore., to work in a sawmill for my grandfather, H. M. Rieker.

"I saw it in a dream. A dream that I had several months ago in which our family was all killed, kept coming to my mind. I saw just as plainly as later I saw the real wreck, everything that took place after the collision. I saw people trying to draw themselves out of the cars, saw strong men plead to be killed; I saw my own wife and baby consumed by fire before my very eyes, and as I struggled vainly to rescue them I awakened in terror and with cold beads of perspiration crawling slowly down my face.

"I went forward to my party. My wife was sleeping soundly. Our little baby was just half asleep. Catherine awakened and said: 'Good night, sweet-heart,' and I leaned over and kissed her and she smiled.

Aroused by Crash.

"I sat down again and closed my eyes but in a few minutes was aroused by that crash. When I tried to move I found my leg was broken. I heard my wife calling me, but could not go to her. Someone dragged me out. I screamed for someone to rescue my wife and baby, but nobody paid any attention. Men were running madly about calling for their wives, mothers were wildly screaming for their children, some were throwing themselves in the snow. I saw Fred Jones hanging out of the window of the burning car pleading for someone to kill him. The flames shot up about him and he fell forward dead.

Hewitt and his brother will return to their home in Kansas and bury their dead.

Indigestion is much of a habit. Don't get the habit. Take a little Kodol Dyspepsia Cure after eating and you will quit belching, puffing, palpating and frowning. Kodol digests what you eat and makes the stomach sweet. Sold by Tallman & Co.

YAKIMA CANNERY A CERTAINTY.

Bussell, of Seattle, Will Build \$50,000 Plant.

C. E. Bussell, of Seattle, is the millionaire capitalist of Seattle who made his money in tide lands. He is the gentleman who is most largely interested in the projected cannery for this city, and his trip here at this time is on business connected with the cannery, says the Yakima Republic.

"I brought the plans for the building over with me," said Mr. Bussell, "and have already submitted them to the various contractors of your city to be bid upon.

"I have just returned from a trip to San Francisco, where all the machinery for the plant was purchased, and this will arrive here between the 1st and 10th of May. By this time everything in connection with the plant will be ready to receive the machinery, and as soon as this necessary part of the cannery has been completed we will be ready to run fruit."

"Have you made any changes in the plans since your last trip here?" asked the reporter.

"Yes; the plans have been changed in several particulars. In the first place we have decided to build a \$50,000 cannery instead of a \$20,000 plant as formerly calculated upon. This will more than double the capacity of the plant as figured on previously. It is our intention to run night and day during the fruit season, and the fruitgrowers of the valley will be called upon to keep the machinery going.

"The plant when completed under the present plans will have a capacity of 35,000 cans per day or 3000 cases, which is equivalent to five carloads."

Mr. Bussell stated that he had secured the services of a first-class cannery man from California and he will be the superintendent of the cannery. He left here Friday night on his return. He will be here again in 10 days, at which time work on the plant will be commenced.

A TRAINED NURSE

After Years of Experience, Advises Women in Regard to Their Health.

Mrs. Martha Pohlman of 55 Chester Avenue, Newark, N. J., who is a graduate nurse from the Blockley Training School at Philadelphia, and for six years Chief Clinician Nurse at the Philadelphia Hospital, writes the letter printed below. She has the advantage of personal experience, besides her professional education, and what she has to say may be absolutely relied upon.

Mrs. Martha Pohlman

Many other women are afflicted as she was. They can regain health in the same way. It is prudent to heed such advice from such a source.

Mrs. Pohlman writes: "I am firmly persuaded, after eight years of experience with Lydia E. Pinkham's Vegetable Compound, that it is the safest and best medicine for any suffering woman to use."

"Immediately after my marriage I found that my health began to fail me. I became weak and pale, with severe bearing-down pains, fearful backaches and frequent dizzy spells. The doctors prescribed for me, yet I did not improve. I would faint after eating, and frequently become nauseated. I had pains down through my limbs so I could hardly walk. It was as bad as a case of female trouble as I have ever known. Lydia E. Pinkham's Vegetable Compound, however, cured me within four months. Since that time I have had occasion to recommend it to a number of patients suffering from all forms of female difficulties, and I find that while it is considered unprofessional to recommend a patent medicine, I can honestly recommend Lydia E. Pinkham's Vegetable Compound, for I have found that it cures female ills, where all other medicine fails. It is a grand medicine for sick women."

Money cannot buy such testimony as this—merit alone can produce such results, and the ablest specialists now agree that Lydia E. Pinkham's Vegetable Compound is the most universally successful remedy for all female diseases known to medicine.

When women are troubled with irregular, suppressed or painful periods, weakness, displacement or ulceration of the female organs, that bearing-down feeling, inflammation, backache, bloating (or flatulence), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, blues and hopelessness, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound at once removes such troubles.

No other female medicine in the world has received such widespread and unqualified endorsement.

The needless suffering of women from diseases peculiar to their sex is terrible to see. The money which they pay to doctors who do not help them is an enormous waste. The pain is cured and the money is saved by Lydia E. Pinkham's Vegetable Compound.

It is well for women who are ill to write Mrs. Pinkham, at Lynn, Mass. The present Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, her assistant for many years before her decease, and for twenty-five years since her advice has been freely given to sick women. In her great experience, which covers many years, she has probably had to deal with dozens of cases just like yours. Her advice is strictly confidential.

Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.

"Suggestion" Magazine.

The current issue of Suggestion, a magazine of the new psychology for thinkers, discusses health without drugs, auto-suggestion, the law of mental suggestion, mind power, suggestive therapeutics and allied subjects; it tells how to live without break and without grumbling; how to break undesirable habits and how to form good ones, and how to be happy, successful and prosperous. The magazine is optimistic, and teaches that man has sufficient inherent power to overcome all obstacles.
