CONCERNING ALASKAN COPPER.
Big Smelter of 1000 Tons Daily Capacity at Valdez.

A great coup for the possession of the Alaska copper interests near Valdez, Seward and the interior country has just been made by John Rosene, of the Northwestern Steamship company, and allied companies, says the Seattle Star.

Those returning from New York and San Francisco state that Mr. Rosene has received the backing of the Guggenheims and Havemeyer interests for his railroad project from Valdez which will tap the interior copper deposits.

The first expedition sent out by the company to the copper properties reached its destination March 23, making the trip from Valdez in 17 days. In less than two years it is estimated the new road will be completed to the properties, which is considered to be in the richest copper belt in the world. Sixty miles have already been graded, and men are being sent north by every steamer to work on the construction crews.

Apologies of the building of the road, direct information comes from San Francisco that the Guggenheims have already made plans for the construction at that city of the largest smelter on the coast. Furnaces are being put in for the treatment of 1000 tons a day. The ore from the north will be shipped direct there. By the time the railroad is completed the smelter will be ready, and specially built ore carriers will have been constructed for handling the ore from Valdez to San Francisco.

HOPE FOR THE ISLANDS.
Manila Editor Sees Great Future for Philippines.

George Bronson Rea, editor and publisher of the Far Eastern Review, the leading weekly paper of the Orient devoted to commerce, finance and engineering, is in the city registered at the Rainier Grand from Manila, says the Seattle News.

Mr. Rea has been in Washington, D. C. as a special delegate appointed by the Philippine government in the interests of the Philippine tariff bill. In speaking of the progress the bill has made up to date, Mr. Rea says that legislatively speaking the bill was dead, it is still in the hands of the house committee.

Mr. Rea spoke enthusiastically of the future prosperity of the islands, even if the tariff bill is defeated. The

municipal government has set aside \$4,000,000 in gold for public improvements, most of which will be spent on the new water and sewer systems, contracts for which have already been let and the work under way; also the big steel docks, and docks for the quartermaster's department are under construction.

The government has also closed a contract for the construction of the four railroads in the southern part of the island which will place the city of Manila on a more substantial basis.

The contract for the construction of the railroads for Luzon are still in an unsettled condition as the contractor's specifications and plans were not presented in the completed form.

With a few alterations Mr. Rea feels confident the government will approve of them and award the contracts in the very near future.

Mr. Rea was accompanied to Washington by W. C. Wellborn, director of agriculture, who was also in Washington in the interest of the tariff bill. He will leave for San Francisco from which point he will sail in the near future for Manila.

MILTON'S GOOD MORALS.

City Council Was Once Offered \$2500 for Saloon License.

"I see that every once in a while Walla Walla has some saloon troubles," said W. A. Bannister, a contractor of Milton, who is in the city on business, says the Walla Walla Bulletin. Mr. Bannister is interested in the Law Enforcement league at Milton and he declares that the town is entirely free from saloons, "blind pigs" and other places of like nature.

"Our little city has no saloon troubles," said Mr. Bannister, "for the reason that there are no saloons there."

"For 20 years Milton has had no saloons, although during this time several 'blind pigs' have started up, flourished, and suddenly quit business. Before the local option law was in effect, there was a provision in the town laws that a license could be obtained for \$500. As high as \$2500 has been offered the Milton council for a license, but for 20 years there has been none issued."

Sprayed 30-Acre Apple Orchard.

W. N. Yost, of Meridian, of the Bissell-Yost Commercial Orchards company, writes that his company will put out 58 acres of apples this spring. They have just finished spraying their bearing orchard of 30 acres and have done the best job, he says, they have ever done. Mr. Yost says: "We should know, in fact, that we do better every year."

In that contention Mr. Yost makes a point worth remembering. They use hand power in spraying and have no trouble in keeping up to 90 or 100 pounds pressure. For an orchard of 20 or 30 acres Mr. Yost does not think a power sprayer necessary. But, with an acreage much above that, he thinks it would be an advantage.

Mr. Yost says that the spraying just completed, which was very thorough, cost them \$185. It was the lime, sulphur and salt remedy.—Meridian Tribune.

Worst Storm in Years.

Robert Hamilton, the well known sheep man of Kittitas county, is in the city today. He came down from Ellensburg Sunday night. Mr. Hamilton said the Kittitas county experienced a fearful windstorm Saturday and Sunday, the worst in fact that he has seen in that country for many years. As compared with the storm of three weeks ago, Mr. Hamilton said that the storm last Sunday was a great deal more severe.—Yakima Republic.

MURPHY'S 111 Court St.

Yes, we do painting of all descriptions. Let us figure with you.

Now the "AD" dressed up in poetry is cutting poet a shine;

And some there are would like to know

What poet does it twine.

With all great advertisers

It has made a "home-run hit,"

And we hasten to acknowledge

That the man who's writing it

Is Mr. Dooley—is Mr. Dooley—

The grandest poet this country ever knew,

Quite humorous—and linguistic,

Is Mr. Dooley—ooley—ooley—oo.

He buys his goods with Santa Claus.

At East End Grocery,

You'll often see them there because

They drink "CRESCENT COFFEE,"

And dearly do they wish you'd come

To keep them company.

For Mr. Dooley—For Mr. Dooley—

Is the kindest man that you will ever see,

Two Arab dragons—draw flying wagons,

For EAST END GROCER-OSER-OSER-EE.

The question is sometimes asked:

"Is the EAST END GROCERY a complete store?" Yes, complete and up-to-date both in the line of goods we carry and business methods we pursue.

A call of inspection will convince you or the former, and a trial order of the latter. Call and see us. It costs nothing and places you under no obligation to buy.
