A GIRL LOOKS "FAIRLY IN IT."

When laundry work is suggested, but experience teaches that as a rule, home laundry work is not a success. The average housewife has not the facilities for turning out good laundry work, and it is awfully hard and trying work when done well. We have exceptional facilities for doing quick, clean and thorough work, we never injure fabrics, and we always have work done and delivered on time.

ECHO NEWS NOTES

EAGLES' CARNIVAL OPENS NEXT MONDAY.

Contest for Carnival Queen Grows Interesting—Work on Government Ditch Before June—Creamery Stockholders' Meeting—Milton Band Will Furnish Music During the Eagles' Carnival—Literary Club Meets With Mr. and Mrs. Irvin.

Echo, April 25.—The big Eagles' carnival will open in Echo next Monday. On Sunday the Eagles will hold special meetings, and Monday and Tuesday the city will be turned over to them. Hundreds of attractions will be on the grounds and on the streets of Echo, and people are expected from all parts of Umatilla county. The contest for the carnival queen is growing interesting and the result is anxiously awaited. Mayor Esteb states that all visitors will be treated royally, and there will be lots to eat on the grounds. Governor Chamberlain will deliver an address for this occasion. All business houses will be decorated and the city will be in gala attire.

"Evening With Riley."
"An Evening With Riley," was presented at the home of Mr. and Mrs. Irvin last evening. It was well attended and very enjoyable from start to finish. It was given as a benefit for the M. E. church.

It is now believed that active work on the east Umatilla irrigation project will be under way before June 1. Work on this ditch will employ hundreds of men in the county, and means much to this entire section.

The stockholders of the creamery company will meet in city hall next Friday at which time a board of directors and other necessary officers will be elected, and all things will be completed for the company to begin active work.

The street by the side of the Hotel Hoskins is being graded, which will greatly improve the appearance of the same.

Milton Band Engaged.
The Milton band has been engaged to furnish music for the two days of the celebration which will be held here by the Eagles.

KIDNEY TROUBLES

Increasing Among Women, But Sufferers Need Not Despair
THE BEST ADVICE IS FREE

Of all the diseases known, with which the female organism is afflicted, kidney disease is the most fatal, and statistics show that this disease is on the increase among women.

Mrs. Emma Sawyer

Unless early and correct treatment is applied the patient seldom survives when once the disease is fastened upon her. We believe Lydia E. Pinkham's Vegetable Compound is the most efficient treatment for chronic kidney troubles of women, and is the only medicine especially prepared for this purpose.

When a woman is troubled with pain or weight in loins, headache, frequent, painful or scalding urination, swelling of limbs or feet, swelling under the eyes, an uneasy, tired feeling in the region of the kidneys or notices a sediment in the urine, she should lose no time in commencing treatment with Lydia E. Pinkham's Vegetable Compound, as it may be the means of saving her life.

For proof, read what Lydia E. Pinkham's Vegetable Compound did for Mrs. Sawyer.

"I cannot express the terrible suffering I had to endure. A derangement of the female organs developed nervous prostration and a serious kidney trouble. The doctor attended me for a year, but I kept getting worse, until I was unable to do anything, and I made up my mind I could not live. I finally decided to try Lydia E. Pinkham's Vegetable Compound as a last resort, and I am to-day a well woman. I cannot praise it too highly, and I tell every suffering woman about my case."
—Mrs. Emma Sawyer, Conyers, Ga.

TRUTH ABOUT PANAMA.

Lindsay Denison Writes Up the Canal for Everybody's.

Lindsay Denison, who, unhampered by any necessity of catching the next boat back, recently made a detailed investigation of the work being done on the Panama canal, does not share the gloomy views of certain of the administration long-distance critics. In an extremely sane article in the current Everybody's Magazine, entitled "Making Good at Panama," he says:
"On the Isthmus of Panama the business of the American people is being well done. It is not perfect. There is too much petty graft—as on the railroad; but it is of no more importance than mosquito bites on an elephant. But one has only to use his eyes to see that we have gone into one of the pest holes of the world, and have made it fairly habitable; that we have tackled a job in which another great nation failed conspicuously, and are so conducting it as to keep clear of shame; that in spite of tremendous difficulties on the spot and malicious and mercenary hindrances here at home we are doing sane, effective, honest work; that we are going to build the canal and build it well.

"There are too many men on the Isthmus who ought not to be there. But in John F. Stevens and in the men who surround him there burns the spirit embodied in the words which Theodore Roosevelt is said to have uttered recently to an engineer about to depart for Panama:
"Remember this; that whatever the American people may think of you and me, the last thing they will ever forget about either of us will be that we had to do with the making of the Panama canal."

THE WORK OF THE SALOON.
Idaho Community Laments the Liquor Traffic.

The Cullisac News gives the following account of the result of a drunken brawl following a dance at Winchester, in Nez Perce county:
Boyd, the saloon keeper at Winchester, gave a free dance last Saturday evening. There were present a great many men and boys, but there was a great scarcity of girls for that occasion, the ladies of the Winchester country declining to mingle with the boozers. The disproportion of ladies and gentlemen made things awkward. It wasn't long till a general row ensued, and one young fellow ran away, leaving his girl to the tender mercies of some other fellow.

A second onslaught was made on Arthur Reese from behind, with a knife, and two terrible wounds in the back of his head were made by George Rowden. Reese is a respectable young man, and the people of the Winchester country greatly regret his misfortune. A surgeon was summoned to staunch the flow of blood and sew up the gashes on Reese's head. In a few hours more he would have been a dead man. He is still in a critical condition.
Mrs. Boyd, wife of the saloon man, took part in the affray and had two fingers badly cut. The whole premises were covered with gore.

The Winchester community is heartily sick of the liquor traffic, and every effort will be made to have the license revoked. The mill owners find it hard to put on a full force of men Mondays, because of the drunkenness on Sundays. The sentiment of the people is that the saloon must go at any cost. John King, proprietor of the hotel building, and the manager of the town hall has decided to close the hall against dances.

Prosperity in Argentina.

Returns from Argentina show that 1905 was perhaps the most genuinely prosperous year in the history of that country. Prices ruled high, much building was in progress, and the export and import figures surpass those of any previous year. The agricultural outlook is described as excellent, the only cloud on the horizon being the possibility that the enormous swarms of locusts which invaded the northern and western provinces in the middle of 1905 may destroy the maize crop in the region where they laid eggs. The value of the imports of merchandise into Argentina in 1905 was \$205,000,000, an increase of \$17,000,000 as compared with 1904, while the exports of merchandise amounted to \$322,000,000, an increase of \$56,000,000.

Crook County Registration.

Returns received by County Clerk Smith last week after he had closed the registration books bring the total registration for Crook county up to 1483. Out of this number there are 1015 registered republicans and 524 democrats, giving the republicans a majority of 491.—Prineville Review.

Seventy Danish fishermen were drowned off the coast of Iceland by the foundering of three trawlers.

SKIN DISEASES

ACNE, TETTER, ECZEMA, PSORIASIS, SALT RHEUM.

There is nothing more distressing than an itching, burning skin disease, and upon the return of warm weather those who are afflicted with skin troubles find the symptoms appearing and know that they will be tormented through the hot summer months. The blood is heated with humors and acrid matter, and as they are forced to the surface the skin seems to be on fire. The treatment of skin diseases with external applications is all wrong, because they do not reach the trouble which is in the blood. The most such treatment can be expected to do is, allay the itching and burning and cover up the trouble for awhile, but as soon as it is left off the disease returns.

All food taken into the body contains, in some form, the elements necessary to sustain the different parts. One portion is used for the making of blood, another for muscle, one for bone, still another for fat, and so on. After these different properties are extracted from the food there still remains a portion that is useless, or waste matter, which is intended to be disposed of through the natural channels of bodily waste, the Liver, Kidneys and Bowels. At this season of the year, however, these organs become torpid, dull and sluggish, and fail to perform this duty, and these accumulations remain in the system and are absorbed by the blood to ferment and sour, producing burning acids and acrid humors. The blood cannot properly nourish the system while in this impure condition, and begins to throw off these acids through the pores and glands of the skin, producing Acne, Eczema, Tetter, Psoriasis, Salt Rheum and skin diseases of every description.

ECZEMA appears usually with a slight redness of the skin, followed by pustules from which there flows a sticky fluid that dries and forms a crust, and the itching is intense. It is generally on the back, breast, arms, legs and face, though other parts of the body may be afflicted. In **TETTER** the skin dries, cracks and bleeds, and is often very painful. The acid in the blood dries up the natural oils of the skin, causing a dry, feverish, hardened condition and giving it a leathery appearance. **ACNE** makes its appearance on the face in the form of pimples and black-heads, and is particularly disagreeable because of its unsightly appearance, while **PSORIASIS**, a scaly disease, comes in patches on different parts of the body. One of the worst forms of skin disease is **SALT RHEUM**. It discharges a watery fluid, forming sores and producing intense itching. The head and face are the parts usually affected, and sometimes the hair falls out and a mass of sores forms on the scalp.

These and all skin diseases are due to the same cause—burning acids and humors in the blood, and until this vital fluid is cleansed and made pure they will continue. The best treatment for all skin diseases is S. S. S., a remedy that is purely vegetable, being made entirely from roots, herbs and barks, and acts directly on the blood with a cleansing, healing effect. It neutralizes the acids and purifies the blood so that the skin, instead of being blistered and burned by the fiery fluids, is nourished by a supply of cooling, healthy blood. It goes down into the circulation and forces out every particle of waste or foreign matter, builds up the blood and cures all skin diseases promptly and permanently. S. S. S. does not leave the least particle of the poison for future outbreaks, but entirely rids the blood of the cause for all skin diseases.

S. S. S. tones up the system and regulates the Liver, Kidneys and Bowels so that they will carry off the natural waste and refuse matter through the proper channels, instead of leaving it to be absorbed by the blood. Nothing equals S. S. S. in the treatment of these troubles and for building up the general health. Write for our treatise on skin diseases and any medical advice you wish. We make no charge for either.

PEOPLE'S ESCAPE

LUCKY THAT BOURNE WAS NOT ELECTED.

J. D. Stevens, Socialist Candidate for the United States Senate, Discusses the Methods Used by Jonathan Bourne to Prostitute the Press of the State—Had Bourne Been Selected the Papers Who Sold Themselves Would Have Been Responsible.

Pendleton, April 25.—(To the Editor East Oregonian.)—That the country editor is generally hard up and in want of funds, we know from their own complaints, that they will accept and are glad to get anything from strawberries to cord wood in exchange for subs or ads, we believe from their own admissions.

That they resort to all manner of tricks and devices (mostly honorable and legitimate) to keep the wolf from gnawing the varnish from the piano legs, we will take for granted, as in this commercial world of ours to get on even editors must sometimes do things a trifle shady.

But—and here is the point—how an editor can be so hard up or in such desperate straits as to receive money for space and write-ups from such a creature as Jonathan Bourne, Jr., passes my comprehension.

That this fellow has in the last three months in the state of Oregon distributed \$30,000, mostly among the newspapers, daily and weekly, can with a little figuring be easily proven. Bourne, or any other political shyster like his henchman and criminal partner, W. S. U'Ren, it would seem, can with the assistance of the subsidized press of Oregon nearly enter the United States senate, to represent the decent people of Oregon.

How can honesty and law-abiding citizenship be maintained if almost the entire press of a state is bought by the money of a political criminal?

How can you expect good and just laws to emanate from the legislatures

of the state and the members of the United States senate when with the tacit agreement and connivance of the press are elected fellows like U'Ren to the first, and tin-horn gamblers like Bourne to the second? Its imposable. Had Bourne received the nomination for United States senator, the papers who "boomed" him for the nomination would have been bound, by money, of course, to demand his election at the hands of the legislature. And then we could have "pointed with pride" to his election and viewed with alarm the efforts of his opponents to defeat him.

The thanks of the whole state is due the East Oregonian of Pendleton for not only taking an honest course in the Bourne matter, but the only possible common sense course, when the press of nearly the whole state can be hired to support Bourne and U'Ren. God help us, we are in sore need of a change.

J. D. STEVENS.

Power Dam Went Out.

At 11 o'clock this morning the power dam constructed in the south fork of the Payette river, near Centerville, went out. The gates were closed, letting the water out of the canal, and the water went over the top of the 40-foot dam for the first time. In 20 minutes the current tore the work out.

Woman's Nightmare

No woman's happiness can be complete without children; it is her nature to love and want them as much as it is to love the beautiful and pure. The critical ordeal through which the expectant mother must pass, however, is so fraught with dread, pain, suffering and danger, that the very thought of it fills her with apprehension and horror. There is no necessity for the reproduction of life to be either painful or dangerous. The use of **Mother's Friend** so prepares the system for the coming event that it is safely passed without any danger. This great and wonderful remedy is always applied externally, and has carried thousands of women through the trying crisis without suffering.

Mother's Friend
Send for free book containing information of priceless value to all expectant mothers.
