WIRE FENCING

The "Pittsburg Perfect" Fences are Welded by Electricity

This is the modern method of construction. The old-time wrap olds moisture, cracks the galvanizing and allows the water to attack the bare wire. The Pittsburg fence is like a solid sheet of perforated steel, thus immune from rust and weakened joints; come in and investigate it.

MR. FARMER, LISTEN NOW!

We are authorized by the manufacturers to guarantee—
That the wires are not injured at the joints.
That the fence is perfectly adjustable to uneven ground.
That the stays will not separate from the strands; and
That the fence is all right in every particular.

WALLA WALLA RACE MEET.

Large Number of Entries Made for the Fall Meeting.

Entries for the 2:17 trot, 2:12 pace and 2-year-old trot, three events on the program of races to be held during the annual fair and race meet this fall, closed yesterday with a fine string of horses from all over the country, says the Walla Walla Statesman. Secretary Van De Water stated this morning that the entries received in the early closing stake races is indicative of one of the biggest aggregations of fast horses on a northwest track being in Walla Walla this fall.

"An unusual number of fast California horses are being entered in the early closing stakes," Secretary Van De Water said this mornin gin speaking of the outlook for the race meet this fall. "As the racing game is practically killed in California this season, owing to the San Francisco disaster, we are expecting an unusually large entry list from California horsemen. Car after car of southern horses are arriving in Seattle and probably 50 per cent of these will be seen in Walla Walla this fall."

The executive committee of the Walla Walla County Fair association will meet on next Thursday and award the contract for the erection of the new exhibition pavilion that will be built at the fair grounds this summer.

WILD HORSES NOW ON THE WAY TO MARKET.

One Thousand Head Sent to Dickinson, N. D.—Ranges of Eastern Washington Are Practically Stripped of Horses—Two Months Hard Riding Is Needed.

Eprata, Wash., May 19.—Except for counting the horses and loading them into the cars, the big round-up which has been in progress in Douglas county for the past three or four weeks, is practically over.

A month of hard riding has taken much of the romance and glamor from the event and while there is still a keen interest manifested, the "buckaroos" have, to a great extent, dropped back into the ordinary range riding life, and are not making the town as lively as they did during the earlier days of the round-up.

Two thousand horses secured in the round-up have been herded in three or four bunches for the past few days within a few miles of Ephrata.

Sunday 1000 head of horses were brought in from the herd ground and counted. They were crowded into the comparatively small corrals of the railroad company. So tightly were they packed that it was almost impossible to distinguish the individual animals.

Monday 1000 horses were loaded into the cars to be shipped to Dickenson, N. D. McCarthy & Townsend are the larges thuyers. This firm owns 600 of the 1000 shipped Monday, and the other 400 are divided among two or three buyers. The shipments together will make two trainloads. They will be turned loose on the North Dakota ranges and sold out in small lots to eastern buyers.

HIGH SCHOOL ELECTION.

All the Officers Elected Are Members of the Junior League.

At the high school yesterday afternoon a meeting of the student body was held for the purpose of electing officers. The following were chosen: Dave Hill, president; Javina Stanfield, vice-president; Mabel Elder, secretary, and Cliff Turner, treasurer.

All of the officers-elect are members of the junior class, and they were elected after a close contest which was waged upon class lines.
