

BRIEF RECORD OF COUNTY EVENTS

Special Correspondence

ECHO NEWS NOTES

WATER USERS WILL ISSUE DESCRIPTIVE PAMPHLET.

Buttermaker and Manager Chosen—Fish Ladder Will Be Made Serviceable—Will Be Enormous Crop of Alfalfa—Daughter Was Born—O. P. Morton New Field Assistant Reclamation Work—Echo Will Have a Cleanup Day—Shipments of Cattle to Coast.

Echo, Ore., May 20.—The stockholders of the Columbia Creamery company will meet June 19 to perfect its organization. J. E. Roatman, of Freewater, has been secured as buttermaker and manager of the new creamery. The company will be incorporated in the sum of \$6000, and the stock is rapidly being subscribed. The creamery will be one of the best in the northwest.

The Umatilla Water Users' association is making arrangements to issue a large number of pamphlets in the near future regarding the east Umatilla irrigation project, and information will be given regarding the land, the association and all things connected with the entire project.

The first alfalfa will be cut in the vicinity of Echo will be cut the early part of this week. There will be an enormous crop this season.

William Gillette, son of M. H. Gillette, has been very ill for several days with typhoid fever. He is reported much improved at last accounts, however.

R. B. Stanfield, cashier of the Echo bank, has been in Odessa, Wash., for several days visiting relatives and friends.

The Rev. Walter Skipworth, presiding elder of the Methodist Episcopal church, held services at the M. E. church Sunday morning. His sermon was very interesting and well attended.

O. P. Morton, field assistant for the United States reclamation service, who was in Echo for sometime in the interests of the east Umatilla project, has gone to Okanogan, where he will remain for several weeks. He has been assigned to work on the project there and at this place, and will divide his time between the two places.

Miss Eva Froome, one of the teachers in the Pendleton public school, has been the guest of Dr. and Mrs. Collier for a couple of days.

W. D. Paslay, salesman at the Peoples Warehouse in Pendleton, was in Echo and in Umatilla for a few days during the past week, with a line of goods.

A number of Echo young people took in the dance at Umatilla Friday evening, reporting a very enjoyable time.

The Echo juvenile ball team went to Umatilla Friday to cross bats with the nine of that place. Umatilla beat the boys, the score standing 4 to 2 in her favor.

Mayor A. L. Esteb announces that he will arrange for a cleanup day in Echo within the next few days, when the school children and all will be asked to assist in the good work of dressing the town up a little. The various streets and yards will be thoroughly cleaned.

R. Duncan and wife have arrived from Portland, and it is understood that they will have charge of the local telephone lines.

Miss Florence Alloway has been engaged to play in the orchestra for the dances which will be given by Prof. Kirkby in the future.

A shipment of fat cattle will be made early this week by G. W. Hunt, 300 head going to the Union Meat company in Portland, and three carloads to Stafford & Co., at Tacoma.

Four thousand head of sheep were shipped from Echo to North Fork early in the week. They belonged to Dan P. Smythe, of Pendleton, and his father, and they were driven overland from Arlington, where they were wintered. From North Fork they were driven to the allotment on the timber reservation.

Repair Fish Ladder. Deputy Game Warden O. F. Turner and G. I. LeDow are now at the Maxwell dam near Hermiston, and they are preparing to remain camped there until the fish ladders are in fine working order, and thoroughly investigate the conditions at the dam.

Daughter Was Born. Born to Mr. and Mrs. Frank Sloan, Tuesday, May 15, a daughter.

Still Missing. H. P. Carr, who left Echo suddenly some days ago, who was found short in his accounts as manager of the local telephone office, and who owed various bills in the city, is still missing, and there have been no traces of his whereabouts. His wife and two little children are being cared for by kind friends in the vicinity, and it is supposed that they do not even know what has become of him.

Pudding the Furnish Ditch. The Furnish ditch is now continually being puddled by a force of 30 men. The water has been run about a half mile this side of the tunnel, and about the same distance from town. It is understood that it costs \$500 a mile to get this work done, and the bottom and sides of the ditch are being made thoroughly solid. The ditch cost less than was at first estimated, but this necessary expense in puddling will make the amount as great as was at first reported. This work may require all summer, and men will be employed night and day.

HELIX RE-ELECTS TEACHERS.

Crop in Fine Condition and the Farmers Hopeful.

Helix, May 20.—The Helix term of school closed Friday. Both the teachers were re-elected, with Prof. Duro as principal of the school. Helix has had a very successful school term.

Delegates to Portland. Mrs. M. A. Ferguson, wife of the editor of the Helix Herald, left here Friday for Pendleton and started from there to Portland as a delegate to the Rebekah Grand lodge convention, which will convene there Tuesday and Wednesday. L. D. Smith will leave Monday as a delegate from the L. O. O. F. lodge.

Mayor Isaacs has been ill for some days with la grippe.

Dr. Lieuallen made a business trip to Pendleton and Adams the latter part of the week.

W. L. Knight has been on his place on the reservation for some days looking after the work going on there.

Mrs. J. E. Montgomery spent several days in Pendleton last week.

The crops are in excellent condition in the Helix country, and the farmers are in the best of spirits over the prospects.

Candidates are coming thick and fast now that election is near, and they are always welcome, as they are a fine lot of men.

D. B. Richardson has returned from a trip to the Nez Perce country in Idaho, where he had been on business.

LETTER FROM FRISCO.

Humorous Review of the Situation
Written by Fred Drake.

The following humorous review of the present situation in San Francisco was written by Fred Drake, the well known artist who was reared in Pendleton, but who is now employed by a large San Francisco firm as artist and ad writer. The letter was written to his parents, Mr. and Mrs. J. A. Drake of this city, and is in part as follows:

The reason you didn't get my telegram earlier was the fact that the telegraph office here was swamped—they say that they handled over 200,000 telegrams that week so you can see. I got Will's telegram 10 days after it was sent.

I have gone back to work for the firm at a decrease in salary for the time being. We have got a store in Oakland and are building a temporary one on Van Ness avenue here.

Every 10 feet along the street is a stand selling pictures, postals and souvenirs of the fire. The town puts you in mind of a street fair until you see the ruins, then you know it's no joke.

Everyone in the whole unburned district has to cook out in the street, and it's a sight. Some have made ovens out of brick and others have their stoves out in the street with a covering over it, of whatever they can get—window shutters, boards, carpet or quilt, or whatever comes to hand; and the signs on them! It would make you laugh!

They are named after all the old celebrated hotels or cafes downtown. Here is the way one copied the Cafe Zinkands: "Cafe Zinc Can; we cook in a can, eat what we can and whenever we can." Another reads: "Palace hotel price list on request; 150 champagne wanted"; "Cafe de Bum"; "Don't flirt with the cook"; "Pie like mother used to make—father forgive them for they know not what they eat"; "Our neighbor has lost her cat—rabbit stew tonight"; "Everything cooked in one dish here—HASH"; "Out in the street"; "Everybody works but father—he has to stand in line"; "The appetite killers"; "A good cook wanted—I'm from Missouri"; "Ten dollars reward for return of my can-opener"; "If mother could see me now."

These are a few of the signs you will see on the covers over the stoves. Everybody joshes about their troubles. One woman said the "quakes" rocked her baby to sleep; and her neighbor, who was so crooked before the 15th had been shaken back straight again.

More News From the New England States.

If any one has any doubt as to the virtue of Foley's Kidney Cure, they need only refer to Mr. Alvin H. Stimson, of Willimatic, Conn., who, after almost losing hope of recovery, on account of the failure of so many remedies, finally tried Foley's Kidney Cure, which he says was "just the thing" for him, as four bottles cured him completely. He is now entirely well and free from all the suffering incident to acute kidney trouble. Koeppen drug store.

Snowstorm in Grant. Long Creek was the center of a snowstorm Tuesday night, the 15th, which threatened to do considerable damage, but as the weather was not severe there was little injury to the fruit and crops. The damaging weather came Wednesday night, however, for the sky was clear and the weather cold. The damage to small fruit was considerable. The snow was over an inch in Long Creek, while in the higher altitudes it reached three inches.—Long Creek Ranger.

Pirating Foley's Honey and Tar. Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. These worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitute. It is the best remedy for coughs and colds. Koeppen drug store.

Some Interesting Figures

In the operation of HEADERS and THRESHERS 7 men and 15 horses will cut from 20 to 25 acres per day, and then the work is but half completed.

The THRESHING BILL with a 70-bushel crop will average \$1.80 per ACRE.

The WASTE in HEADING and REHANDLING from Header Box to Stack, from Stack to Separator, and finally that left in the STACK BOTTOM, is enormous. It is safely estimated from THREE to FIVE BUSHELS PER ACRE by the most conservative farmers.

See This Comparison and See What We Can Save You Each Year

COMPARATIVE COST of operating Header and Thresher and HOLT BROS.' Combined Harvester on 500 acres of land:

HEADER AND THRESHER	
7 men wages	\$14.00
7 men, board	2.50
15 horses, hire	7.50
15 horses, feed	2.75
Cost to Head 25 acres	\$28.75
Cost to H and T 1 acre	1.15
Cost to Thresh 1 acre, 30 bushels at 6 cent	1.80
Cost to Head and Thresh 1 acre	\$29.95

HOLT COMBINED HARVESTER	
4 men, wages	\$11.00
4 men, board	2.00
20 horses, hire	10.00
20 horses, feed	5.00
Cost to Harvest 25 acres with a HOLT BROS. COMBINED HARVESTER	\$28.00
Cost to Harvest 1 acre	1.12
Saving per acre with Combined Harvester	1.83
Saving on 500 acres with Combined Harvester at \$1.83	\$915.00
Saving 3 bushels Grain per acre on 500 acres at 60 cents (1.80 per acre)	900.00

Grand total saved one season on 500-acre crop \$1,815.00. These are facts we have proved scores of times, and we can refer you directly to the FARMERS who have saved the PRICE OF THEIR MACHINES IN ONE YEAR. WRITE US FOR THEIR NAMES, and DO IT NOW.

E. L. SMITH & SON

AGENTS, PENDLETON, OREGON

Shipping 33 Carloads Sheep. The first shipment of sheep from the Heppner yards this spring was made by M. Murray last Friday, and consisted of 13 carloads. The sheep were dipped at the stockmen's vat near the stock yards. This shipment was a part of the bands of John Hayes, W. B. Barratt, Mike Kinny and Mrs. J. L. Ayers. The sheep went to Montana.

20 carloads of sheep from the yards here to Buffalo, Wyo. The sheep are being dipped today, and if that work is finished they will go out tomorrow morning. This trainload is from the ranches of Newt Wheatstone, J. R. Nunamaker, J. C. Kirk and some from other ranches. The greater number of them are machine sheared sheep. —Heppner Times.

THE DISCOVERER

Of Lydia E. Pinkham's Vegetable Compound, the Great Woman's Remedy for Woman's Ills.

No other female medicine in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female troubles or such hosts of grateful friends as has

Lydia E. Pinkham's Vegetable Compound. It will entirely cure the worst forms of Female Complaints, Inflammation and Ulceration, Falling and Displacement, and consequent Spinal Weakness, and is peculiarly adapted to the Change of Life.

It has cured more cases of Backache and Local Weaknesses than any other remedy the world has ever known. It is almost infallible in such cases. It dissolves and expels tumors in an early stage of development. Irregular, Suppressed or Painful Periods, Weakness of the Stomach, Indigestion, Bloating, Nervous Prostration, Headache, General Debility quickly yield to it. Deranged organs, causing pain, weight and backache, instantly relieved and permanently cured by its use. Under all circumstances it invigorates the female system.

It quickly removes that bearing-down feeling, extreme lassitude, "don't care" and "want-to-be-left-alone" feeling, excitability, irritability, nervousness, dizziness, faintness, sleeplessness, flatulency, melancholy or the "blues" and headache. These are sure indications of Female Weakness, or some derangement of the organs, which this medicine surely cures. Chronic Kidney Complaints and Backache, of either sex, the Vegetable Compound cures.

Those women who refuse to accept anything else are rewarded a hundred thousand times, for they get what they want—a cure. Sold by Druggists everywhere. Refuse all substitutes.

NOT FIT FOR WOMEN. The modern way of doing up shirts, collars and cuffs by machinery has relieved women of a duty which was never fit for them to do.

Laundry Work done here is done by the most improved methods, and the results have proven entirely satisfactory to our customers. Is it any wonder, therefore, that we do a large business?

CARE OF MEAT

Is a big factor in the quality of meat. We have spent thousands of dollars on our cold storage plant with this point in mind. Our meats are always right—the cause of our large patronage.
