Cherries Split by Rain.

The recent rains which have of late visited this section of country have done considerable damage to the cherry crop, says a Clarkson correspondent. The cherries, particularly the Royal Ann and Bing varieties are bursting open as a result of the excessive moisture. White Brothers and Crum have discontinued packing in their wholesale house on this side of the river, for a time, on account of the lack of cherries and small fruits in the market.

CASTRO IS COMING

VENEZUELA'S PRESIDENT TO BE AT JAMESTOWN.

Spectacular Fighter of South American Republic Comes to Pay Tribute to the United States—Will Come in His \$6,000,000 Yacht, "Restaurador."

Norfolk, Va., June 8.—Cipriano Castro, president of Venezuela, is not the kind of man to take a rest while there is breath left in him, but he intends to treat himself to a year of recreation, during which he will visit the Jamestown exposition on the shores of Hampton Roads, near Norfolk, next spring.

President Castro will come in his gorgeous and beautiful yacht, the "Restaurador," which was formerly the "Atlanta," built by the late Jay Gould, and has a history. In costliness and luxuriousness, she is exceeded only by the royal yacht of Great Britain which has cost to date about \$6,000,000—the "Victoria and Albert."

On the death of Jay Gould the Atlanta passed to his son George. By him it was sold to the United States government for use in the Spanish war. After the war it is said to have been bought by Mr. Gould, who sold it to Venezuela, whereupon it was christened the "Restaurador" and equipped with armament and war fittings and used during the Venezuelan rebellion of 1901-02.

At his anchorage in Hampton Roads facing the Jamestown exposition, President Castro will be in good company. Around him there will be a fleet of the finest yachts in the world and the warships of the great powers that formerly frowned upon him will doubtless entertain him right royally. There he will see representative warships of all the navies of the world mingling in friendly intercourse and mutually enjoying fetes and games.

It is learned from a source very close to Castro that he has an object other than the pursuit of recreation in coming to the United States. He believes that he has not been thoroughly understood by our people and he desires to show them that he is something more than a mere disturber of the peace of nations. He desires us to know that he is a statesman actuated by high ideals. He venerates the character of George Washington and has erected a statue to his honor in Caracas. It is his intention to call on President Diaz while on his way to visit the United States.

POLITICS IN ALASKA.

Northern Territory Will Be Hothed of Activity.

The hundreds of Alaskans who are interested in the election of a delegate to congress are these days wondering if the contest to be conducted on party lines is inspired for the purpose of defeating the desire of the people of the district to attain self-government, says the Seattle Star. From present indications it looks mighty like it.

Charles E. Herron, of Seattle, who is interested in the Candler creek district, and who went north to attend the meeting of the republican territorial committee and resigned his membership in the non-partisan committee, has let a goodsized cat out of the bag.

He has made the statement that Alaska wants a republican delegate who will go to Washington and defeat any bill for territorial form of government. He made the claim that the people are not fit for self-government, that they are wasteful, extravagant and irresponsible, and further added that they, the corporations, do not want self-government.

THINK THEY HAVE TOY WING.

He Is a Smooth and Wealthy Chinese Smuggler.

The Boise Capital News has to say as follows about a notorious and much wanted Chinaman:

An application for a writ of habeas corpus was filed in Judge Stewart's court today by Attorney J. C. Johnson in the case of Lee Hong Quon who is now confined in the state penitentiary as Toy Wing, a Chinaman, who was sentenced to the pen 23 years ago for a term of seven years, but who escaped after serving three years of his sentence. Lee Hong Quon was arrested last fall at Bonners Ferry under the belief of the officers that he was the much-sought-for Toy Wing. He was brought to the penitentiary and has since then been confined within the walls of that institution.

Judge Stewart held that a writ of habeas corpus be directed to Warden E. L. Whitney and that the said Lee Hong Quon be brought before the court June 28 at 10 o'clock for the purpose of establishing his identity.

Toy Wing is a professional smuggler and is known to be one of the smoothest of his class that ever fell into the hands of the law. He has plenty of money, which will not be spared in his efforts to get out. His picture was shown to Chinamen here who did not know of his recapture. They were not told who it was, but their first expression was, "Toy Wing, where you get him?" The effort to prove that the Chinaman in the penitentiary is not the real Toy Wing will no doubt prove rather difficult.

W. R. Ward of Dyersburg, Tenn., writes: "This is to certify that I have used Orino Laxative Fruit Syrup for chronic constipation, and it has proven, without a doubt, to be a thorough, practical remedy for this trouble, and it is with pleasure I offer my conscientious reference." Borman Was Discharged. After the testimony in the case of the state against Ed Borman, charged with changing the brand on a mare belonging to W. W. Cornwall, had been heard in circuit court today the court ruled that there was not enough evidence to constitute a case and dismissed the defendant, taking the matter out of the hands of the jury.—Baker City Herald.

CATARRH A GERM DISEASE.

Breathe Air Medicated by Hyomel and Kill the Germs.

Now that physicians and scientists universally agree that catarrh is a germ disease, the reason for the failure of the old-fashioned stomach-dosing in this trouble is readily seen.

Prior to the discovery of Hyomel a treatment which cures catarrh by filling the air you breathe with germ-killing and healing medication, statistics showed that at least 97 out of every 100 persons in this state were suffering from catarrh of some form.

Although Hyomel has been known only a few years, the remarkable results following its use are shown by the much smaller percentage of those who suffer with catarrh today.

The treatment with Hyomel is very simple and pleasant; a small inhaler comes with every outfit and three or four times a day Hyomel is breathed through this, making the air at that time like that found on the mountains where the pine forests give off their fragrant and healing balsams.

Used in this way, Hyomel penetrates to the most remote cells of the nose, throat and lungs, absolutely killing all catarrhal germs and effecting a complete and permanent cure of the disease.

The complete outfit costs but one dollar; while extra bottles can be obtained for 50 cents. Tallman & Co. have seen such remarkable results from the use of Hyomel, that they sell it under an absolute guarantee that it costs nothing unless it cures.
