Lemons in Demand.

Because of the extremely hot weather and the fact that sediment and silt have been washed into the river impregnating the water supply somewhat, more lemons are being used in this city this summer than ever before. The grocery stores send out more lemons every day than they formerly sent out in a week, and the demand is increasing. The physicians recommend the free use of lemons, not for sweet lemonade particularly, but for use in drinking water for sanitary purposes. Just a little lemon juice in a pitcher of water will make it pure and also satisfy the thirst better than very sweet lemonade, which is used by many.

Fruit Union Raises Price.

Wenatchee valley fruitgrowers are receiving higher prices for fruit this year than ever before, the prices up to date averaging 50 per cent higher than those paid last year. TRUST BARS WOMEN.

Barber Asphalt Company Serves Unexpected Notice.

The Paris newspapers report that the A. L. Barber Asphalt company, of New York and Chicago, has notified all the women it employs that their services will not be needed after July 1 next. The delegates to the Women's International conference, in meeting in Paris, are greatly wrought up over the idea that any one has found woman's work unsatisfactory. of the French section of the conference, addressing her sisters in progress:

"I believe there must be other reason for dismissing the women than those given by the asphalt trust—that women cannot learn the business, beyond a certain point and that they cause more trouble and confusion in the office than men do. Either the asphalt business is particularly unsuitable for women or they have asked for equal pay with the men. At this distance all one can say is that if the Barbour company has taken such action it will regret it before long, for it will find that in the women's service they have been getting more than they paid for in mere money."

Lost—Saturday, on Main or Court street, bunch small keys. Finder please leave at this office.

Track Needs Oil.

The Spokane branch of the O. R. & N. is about as dusty as it ever gets, at this time of the year. The weeds have been cut away to make ready for oiling the track and this makes the dust more plentiful than if the weeds were standing on the ground. The strike of the sailors and longshoremen of San Francisco delayed the oil shipments intended for use on the branch, but the company hopes to be able to secure enough oil to sprinkle it once, at least, before long.

Some men imagine that their surliness is sedateness.

GREAT RELAY RACES.

Spokane Fair Will Have 10 Days' Event for \$1500 Purse.

Nothing seen at last year's Interstate fair at Spokane was more interesting or more exciting, nothing drew more people to the exposition grounds than the relay race which lasted six days.

This year the management of the Spokane fair has decided to make this still more attractive and will continue the racing for 10 days, beginning September 26, the first day of the fair, and continuing each day except Sunday until the close.

Premiums have been increased from \$1000 last year to \$1500, and it is supposed there will be many entries drawn by this attractive contest.

Last year there was a great rivalry between the Indian and white riders, and but for the time lost by one of the Indians the first day, he would probably have won the contest. He unsaddled the trick of saddling and unsaddling quickly after the first day, and made better time from then on than did any of the white men.

If these Indians enter again this year, many people believe there is not a cowboy or other horseman in the northwest who can beat them. Each entryman must furnish his own horses and have in reserve as many as he chooses. He rides two miles each day, changing horses and saddles at the end of each half mile.

This is done in front of the grandstand and makes the contest one of great excitement. Not only must the winner be a good rider and have good horses, but he must be quick at changing saddles, and not a second can be lost in mounting and dismounting.

This change facilitates the sale of tickets and makes it more convenient for both officials and public.
