MUSIC DEPARTMENT

PENDLETON ACADEMY ADDS TO ITS COURSE.

Miss Marjorie H. Lyman, Graduate of Whitman, and Daughter of Prof. W. B. Lyman, of Whitman Faculty. Selected to Have Charge of New Department in Pendleton Institution—Now in Chicago Taking Special Course.

At a meeting of the executive committee of Pendleton academy held at the office of Dr. C. J. Smith last evening, it was decided to introduce a department of music in the academy course and accordingly Miss Marjorie H. Lyman, daughter of Prof. W. B. Lyman, of Whitman college, was selected to have charge of this department.

Miss Lyman is a graduate of Whitman music conservatory, and is now in Chicago taking a special course of fit herself for teaching and will come to Pendleton as soon as she finishes the Chicago course, which will be some time next month.

She will have a studio at Pendleton academy building and will have charge of the entire music department of the school. She is a capable and highly educated young woman of 21 and her addition to the teaching force will be appreciated by Pendleton.

Prof. Pennell, of the music department of Whitman, and Dr. Penrose, president of the college, commend her very highly and had there been a vacancy on the faculty in Whitman, Miss Lyman would have been chosen to fill it.

\$1,000,000 IN GOLD BARS.

Alaskan Gold Arriving in Seattle on Every Steamer.

Gold bars reached Seattle yesterday from the north to the value of \$1,203,921. The precious metal came down on three steamers.

The Cottage City arrived from Skagway, bringing a large passenger list, and a large cargo of salmon and hides. The most important part of her cargo, however, was \$656,372 worth of gold in bars from Fairbanks.

The Jefferson arrived with \$226,698 in gold bars, a large passenger list and a good cargo.

The steamer Watson brought in \$320,851 worth of gold, \$69,000 of which was from Nome, a large cargo and some passengers. The rest of the gold came originally from Fairbanks.

Sheep Sales at Weiser.

A number of sales have occurred lately and stockmen are receiving good prices, says a Weiser letter to the Boise Statesman. John Pader is reported to have sold 6000 head of ewes and lambs to Boise parties at \$3; Fred Taylor sold his band to eastern people at \$3.25 with a 5 per cent cut and the Butterfield company has sold 600 bucks to the Randall Bros., of Rawlins, Wyo. A considerable number of sheep will be shipped soon, but a large number will be held in this county as the range is better than it has been for years.

Phone Your Drug Store Wants.

Balloon Ascension Sunday.

At 7:30 Sunday evening Balloonist Paul will make another effort at an ascension and this time he is confident of being successful. He holds that the balloon was faulty during the previous trial, but believes it will now hold air better since it has been thoroughly smoked. He has secured permission from the Fourth of July committee to use the balloon, which is the property of the committee. The ascension Sunday evening will be made from the baseball grounds, where there will be fewer obstacles than at the depot grounds. If all goes well the balloonist will ascend to at least 1500 feet, and then drop to the earth with his parachute.

BURLINGTON WINS.

Rapid Railroad Building Into Wind River Reservation.

A special to the Cheyenne Tribune says:

The most exciting railroad building race in the history of the west has just been ended with a victory for the Burlington railroad and as a result trains are now running into this place and Worland will be a registration point for the opening of the great Wind River reservation.

When the proclamation was issued a few weeks ago for the opening of the reservation Worland was named as a registration point conditional on the completion to this point of the Big Horn railroad by July 15th, when the registration begins.

This provision was the incentive to extraordinary activity on the part of the Burlington which would lose enormous traffic if it failed to make good. Since then feverish haste has characterized the construction of the new road and night and day men have been working day and night with the result that the Big Horn railroad has at last reached here—just five days before the day fixed by President Roosevelt in his proclamation.

Some idea of the rapidity with which the Burlington has been building the road is evidenced by the fact that just 11 days ago the big bridge over the Big Horn river, 22 miles from here, was completed and since that time the company had built 22 miles of track, as the construction train could not cross the river until the bridge was finished.

A record of two miles and a half a day was not only established, but maintained, and now the Burlington has the satisfaction of announcing that, beginning July 14th, the day before the registration opens, the company will be running two passenger trains into Worland every 24 hours.

R. A. KELSAY WAS INJURED.

Fell Through a Platform and Broke His Ribs.

R. A. Kelsay, of the Cunningham Sheep & Land company, has been in a hospital at Billings, Mont., for the past three weeks suffering from an injury which he received while unloading sheep at that place. Mr. Kelsay fell through a hole in a platform and had several ribs broken by his fall. However, he is now nearly recovered and will soon leave for Denver to resume charge of the bucks which the company has at that place.

Immediately after Mr. Kelsay's injury J. N. Burgess, manager of the company, went to Denver, where part of the shipment was sold. The remainder will be sold there and in New Mexico by Mr. Kelsay.

Four Carloads Sheep.

Four carloads of mutton, ewes and wethers, were shipped from here by the Cunningham company today. They are consigned to the Carsten Packing company, of Seattle.

Present From Employees.

The employees of the Forster planing mills bought a wedding present for Mr. and Mrs. Forster this week, consisting of a cut glass berry set of exquisite pattern.

Flag Pole for Oklahoma.

A fir in three sections, aggregating 110 feet in length, passed through today over the O. R. & N., consigned to Guthrie, Okla., where it will be placed on the state capitol as a flag pole. It was ordered from Hood River and was included in a shipment of four carloads of lumber from that place to Guthrie, the capital of the new state of Oklahoma.

Laborers to Riparia.

About 40 laborers passed through this morning from Portland and the sound points to Riparia, where they will be employed on the Lewiston-Riparia branch of the O. R. & N. It is said that hundreds of men have quit work on the north bank road within the past week because of the terrible heat. It is almost impossible to keep the crew filled to the limit during the hot weather. It is possible that a large number of Japs will be engaged to work on the north bank.

FIRE ON GARDEN STREET.

Dry Grass Burned—Several Shacks Endangered.

At 3 o'clock this afternoon some dry grass in the rear of Peter West's house on Garden street caught fire, and for a time threatened to extend to some adjoining shacks. An alarm was turned in and companies one and two responded promptly, reaching the scene within a few moments. With almost one swash the fire was extinguished, and the stream was then turned on the dusty street for a few minutes.

Ernest Younger arrived this morning from San Bernardino, Cal., and will be here for several days visiting friends, and attending to business matters. He will go to Bingham Springs tomorrow evening.

WIRES GOING UNDERGROUND.

Popular and Artistic Improvements on Main and Court Streets.

Not the least of the beneficial effects of paving will be the placing of the telephone wires underground along the business portions of Main and Court streets. It is now definitely decided that such is to be done by the Pacific States company, and today Manager Burford stated that the work will be commenced as soon as the material can be shipped here.

Thomas Elsom, superintendent of construction of the company, left yesterday for Spokane after having finished the work of surveying for the proposed underground cable.

All of the poles on the east side of Main street and on the south side of Court street, belonging to the telephone company, and all will be removed, thereby greatly improving the appearance of the street. On Main street the cable will be laid underground from the Main street hill to the river, while on Court the underground line will extend just beyond the Byers' mill.

The decision to lay the wires underground in the paved section was taken by the company after the same had been recommended by W. D. Burford, local manager for the company.

REPORT OF WASHINGTON PEN.

Grain Bags Manufactured at Average Cost of 5.97 Cents Each.

The June report of the Washington state penitentiary has been sent to the state board of control by Superintendent A. F. Keen, says the Bulletin. It shows 196 men and 12 women in the institution at the end of the month; 29 men and two women out on parole—an aggregate of 339 as compared with 843 at the beginning of the month. There was one convict, A. A. Armstrong, hanged, two were pardoned, four paroled and 23 discharged at the expiration of sentence, and 22 admitted to the institution.

At the jute mill during the month, 115,000 grain bags were manufactured at an average cost of 5.97 cents each, which includes the cost of the raw material, heat and power, repairs and salaries.

The mill worked 170 hours during the month, giving employment to an average of 280 convicts, and five state employees. The total expenditures for the month were \$22,494, of which \$6075.59 was for maintenance. The average daily expenditure for maintenance during the month was 24.9 cents.

BUILDING ELECTRIC LINE.

Work on the Salem-Portland Road Has Begun.

The building of the electric railway from Salem to Portland is fairly begun in good earnest, says the Salem Statesman. It was commenced at 10 o'clock yesterday morning without any flourish of trumpets, band attachments or other glitter, but with a practical force of men, teams and tools and by quitting time last night the evidence of active operations were numerous along the scene of the first exploits.

Superintendent Tiffany started with about 50 men, 10 teams and a steam traction engine with plow attached, beginning the grading on Broadway in North Salem at Hood street, where the present electric line crosses Broadway. The gang is working northward from that point, plowing and scraping out a roadbed, in which, as fast as it is properly leveled, the ties will be laid and the rails spiked on. In fact, nearly 200 feet of track was completed last night and the grading was partly done as far north as the south line of the Idlewild place, and part of the working force was employed ahead clearing out brush and getting ready for the graders to follow.

Chamberlain in Review of Reviews.

The current number of the Review of Reviews contains an excellent picture of Governor George E. Chamberlain of Oregon, among the successful candidates of the United States who were elected under extraordinary circumstances. A recent number of Collier's contained a picture of Jonathan Bourne also.

Ferguson Drew Crow Land.

Charles J. Ferguson has received notice of the number which he drew in the lottery for lands on the Crow reservation in Montana. He drew No. 2794, which is regarded a fortunate one in view of the fact that there are 6500 claims on the reservation. None of the other Pendleton men who filed applications for land have yet heard of their success.

Stone for M. E. Church.

Stone for the new M. E. church being built at the corner of Webb and Johnson streets, is now arriving from Baker City by the carload. Work on the basement is about completed and work on the superstructure will soon begin.

Labor Trouble at an End.

Cody, Wyo., July 13.—The trouble among the laborers is settled. A company of state troops marched into the camp of 100 belligerent workmen and rioters, who surrendered.

If you see it in the East Oregonian its true.

HAYWOOD SENDS GREETING.

Nominee for Governor of Colorado, Speaks From Idaho Jail.

W. D. Haywood, president of the Western Federation of Miners, who is now confined in jail at Boise for complicity in the Steunenberg murder, has been nominated for governor of Colorado by the socialists of that state, and responds to the notification as follows:

Ada County Jail, Boise, Idaho, July 6.—Your congratulations received. I appreciate and accept the nomination by the socialist party for governor of Colorado, not for the honor conferred but for the confidence assured. The campaign will be a sturdy fight for industrial liberty. I will lend what assistance an imprisoned man can, and will endeavor to resuscitate political freedom and constitutional liberty in the Centennial state. They are now on the capitalistic rack, being slowly but surely murdered by a perverted supreme court.

Gabbertized capital must die that a free people may live! The demarcation of the class struggle is a chasm deepened, washed with tears and blood, which nothing less than the complete uprooting of a system that has disgraced, dishonored and debauched the state can abolish! No compromise! The working class in Colorado will unite to say: "There is nothing in arbitration."

W. D. HAYWOOD.

FOUND IN "POTTED HAM."

All Parts of Beef Animal Used, From Hoofs to Tail.

The state board of health of Massachusetts has made public the result of its investigation of canned meats. The board examined nearly 150 different kinds of canned meats from every possible source, as well as the canned meat establishments.

In a general way the results of the investigation are favorable to the manufacturers, both in the east and in the west, but it was found that many of the preparations contained a large amount of foreign matter. Of one brand of potted ham prepared by a western firm, the report says:

"This was found to consist of a small amount of normal muscle, considerable epidermis in large pieces, numerous blood vessels and nerves and the salivary gland ground into a paste. Quality poor, the material being largely scrap."

The report says regarding conditions in Massachusetts:

"The large establishments were found to be conducted in all particulars, in a scrupulously neat and clean manner. Of 25 smaller establishments only five were found to be entitled to grade excellent."

Injured in a Runaway.

Mrs. Joseph Carroll, a sister of Dr. T. J. Lloyd of this city, was seriously injured in a runaway accident at North Powder yesterday.
