BACK FROM FRISCO

LABORERS IN DEMAND IN THE BAY CITY.

Leo Kohn, of O. R. & N. Freight Offices, Returned From Two Weeks Visit in San Francisco, His Former Home—Says Oldest Inhabitants Are Unable to Locate Familiar Streets—Buildings Are Being Erected and Work is Plentiful.

"On every street corner of the city of San Francisco, and on every building are signs, 'Carpenters wanted,' 'Bricklayers wanted at once,' 'Laborers wanted; good pay, steady work,'" says Leo Kohn, of the O. R. & N. freight offices who returned from a two weeks visit to the Bay City this morning.

Mr. Kohn, who formerly lived in San Francisco, says that the city is rapidly resuming a semblance of order. The ground is being cleared away for the new buildings. Many of the new structures will be built on a large scale and everything promises even a more magnificent city than before.

He says in the heart of the city where little work of clearing has been done yet, people who have been familiar with the city for years are absolutely lost in the maze of the ruins. All the familiar landmarks are gone and the former sites of some of the finest buildings are nothing but a monotonous mass of ruins and old inhabitants are unable to locate the streets which they formerly knew as a book.

Mr. Kohn says that hundreds of people are still camped in the parks, but that owing to the abundance of work, there are not many people drawing free provisions, except those unable to work.

The greatest drawback is the inability to secure building material. All the roads leading into the city are tied up with the congestion of freight and thousands of unloaded cars are standing in the yards.

DELEGATES TO BOISE.

Judge Gilliland Announces Five Appointees.

County Judge Gilliland today announced the appointment of the following as delegates to the national irrigation congress which is to be held at Boise in September:

Julius Gurdarian, Birch creek; Dan Shaw, McKay creek; Frank Sloan, Butter creek; J. F. McNaught, Hermiton, and William Shaw, of Milton.

All of the delegates named are men who are directly interested in irrigation enterprises in this county and several if not all will doubtless attend the Boise convention.

Leon Cohen, president of the Commercial association, also has the appointment of two delegates to the Boise convention, but he has not yet made his selections.

Mayor J. A. Fee announced the appointment of his five delegates several weeks ago.

EAGLES' BAND PRACTICES.

Rehearse Tomorrow Evening for Friday's Public Concert.

In order to practice for their Friday evening concerts the members of the Eagles' band will resume their regular Wednesday evening practice, commencing tomorrow night. The band has the use of the double room facing Court street in the second story of the Eagles' building, and up to the Fourth of July practiced weekly. Since that time no regular practices have been held.

On Friday evening the band will hold its first weekly concert at the court house grounds, and the same is being awaited with much interest. The band will be stationed during the evening on the lawn at the Court College street corner, and the public will be allowed the use of the court house grounds as was done on the Fourth.

Nell—"Few men can govern themselves." Belle—"I suppose that's why so many get married."

Wigg—"Many a man's hopes of the future life will miss fire." Waggs—"Well, it seems to me if he misses fire he's all right."

PENDLETON, OREGON

TO TEST FRAZIER'S DECISION.

Portland City Employees Want to Know About Their Jobs.

That each of the city employees on the list of 177 who, according to Judge Frazer's decision, are holding down their places illegally, contribute 75 cents to a fund to make an appeal to the supreme court is the suggestion of Mayor Lane, says the Oregon Daily Journal.

"I don't believe any of the boys would object to paying that much to have the thing settled," says the mayor.

While probably no one on the list would object to contributing to such a fund it is possible that some may think they are being assessed to help Patrick Bruin out of the hole in which he finds himself by the decision of the circuit judge.

The supreme court might reverse the decision of Judge Frazer and then again it might uphold it. While there is no question about the requirement of 14 days' notification in advance of the examinations, it is true that Judge Frazer did not return any opinion on the questions which he was asked to decide, viz: Bruin's citizenship and his residence in Portland. Instead, he decided against Bruin on a technicality which affects 176 besides the inspector of police.

It is upon these grounds that an appeal might be taken to the supreme court. Such action will cost in the neighborhood of \$100, perhaps considerably more.

"In the meantime we will make temporary appointments," said Mayor Lane this morning. "Those who have been doing good work for the city need not fear that they will be displaced, but those who have not been doing so well may have to take examinations."

RESTORED THE OLD WATCH.

Timepiece Was in the Ground 18 Years Before Being Found.

On display in Winslow Bros.' show window is an old silver watch that has the remarkable record of having been in the ground for 18 years and is now again in perfect running order.

The watch is one that was lost by J. R. Porter on his ranch near here 18 years ago. Not long ago it was found on the place, and Mr. Porter brought the timepiece to town to see what could be done with it. The watch is a large one with a heavy silver case. Some of the parts were so damaged by rust that they had to be replaced, while the rest of the works was in fairly good condition.

However, it was necessary for the jewelers to refinish and polish every piece of the mechanism in order to make it keep good time once more. This was done by Winslow Bros., and the restoration work was so complete that the watch is now keeping perfect time and bears no evidence of its long stay under the ground.

ADVERTISING IN MANILA.

Widow of Dead Spaniard Uses Half Page Ad for Card of Thanks.

A copy of the Manila Times of June 8 has just reached the office of the East Oregonian, and aside from having many startling features not usual in an American newspaper, it contains one feature which will make the average American publisher green with envy.

On one of the local pages appears a half-page ad from an inconsolable widow, thanking friends for their assistance and asking their prayers for her deceased husband.

A few lines occupy a half page, and are paid for at display ad rates. The few words in the ad are as follows:

"Don Pedro A. Roxas y de Ayala died in Paris at the age of 30. His inconsolable widow, son, parents, brother-in-law and other relatives take this occasion of informing their friends of their grievous loss, requesting that they remember the deceased in their prayers.

"Manila, June 8, 1906."

This is an entirely new feature in advertising business in American territory and will perhaps cause a rush of publishers to the Islands.

The ad in an ordinary American daily would cost at least \$10 to \$15 for each insertion. It occupies a half page of a seven-column paper with 22-inch columns.

FRANK AYERS INSANE.

Well Known Citizen of Kamela Taken to La Grande This Morning to Be Examined.

Frank Ayers, a well known citizen of Kamela, was taken to La Grande by Sheriff Frank Childers this morning on a charge of insanity. It is thought that Ayers is suffering from an extreme case of nervous prostration.

He is very nervous and his mother came unexpectedly from the east last week to visit him, and it is thought the shock caused prostration from which he may recover in a short time.

Relief for Southern Pacific.

"Relief has come to the blockaded terminal yards at San Francisco," said William McMurray, general passenger agent of the Harriman lines in Oregon, who returned today, via San Francisco, from a month's visit at Chicago, says the Oregon Daily Journal. "The Southern Pacific railroad's representatives made a personal canvass of the merchants of San Francisco and inaugurated a movement that is resulting in the unloading of the cars. The congestion is being relieved and will soon be at an end." Mr. McMurray was accompanied to Portland by John M. Scott, newly appointed assistant general passenger agent, who today assumed his duties in the local office.

"Does the buzz saw ever drink?" asked the monkey wrench. "Well, occasionally. I've seen him take a few fingers," replied the work bench.

Necessity is the mother of invention but her children don't always amount to much.

Oratory is merely talk with a frock coat on.

DRY LAND FARMING

SUBJECT OF SUDDUTH'S INQUIRIES IN UMATILLA.

One of Montana's Famous Experimental Farms is Located on His Land at the Expense of J. J. Hill—Dr. Sudduth is Collecting Photos and Information to Use in Montana Lectures—Valuable Information of Montana Topography and Industries.

For the purpose of studying the dry land farming methods followed in this county, Dr. W. X. Sudduth of Billings, Mont., has been here for several days and during that time he has visited at several places south and east of Pendleton.

Dr. Sudduth is a land owner and stockman of Billings, and one of the branch experimental stations is located on his ranch. In that state the experiment stations are conducted at the expense of J. J. Hill, president of the Great Northern railroad. There are six branch stations in the state, and this is their first year's work.

During the coming winter Dr. Sudduth will lecture at some of the Institutes to be held in various portions of the state, and while here is securing information and photos showing farming scenes in Umatilla county, which he will use at that time.

At the present time, Dr. Sudduth says, no attention whatever has been paid to anything but stockraising in the northeastern portion of Montana, and that the ranchers there scarcely raise enough grain for feeding purposes. The big county of Dawson is entirely given over to stockraising, as is also most of the southeastern portion of the state.

However, the doctor says, the quality of the soil is such as to make wheat raising profitable, and he believes that in time the country will be given over to that. The elevation is about 4000 feet. The land is now well grassed, and by following the practice of summer fallowing Dr. Sudduth believes wheat can be raised.

During the past the country has suffered considerably from isolation, but now that a branch line is proposed from Great Falls to Billings, and the Chicago & Northwestern is also intending to build through the state, there is every indication that good railroad connections will soon be provided.

It is a terrible thing when a singer realizes he is losing his voice, but it would be much more terrible if he didn't realize it.

It isn't fair to even beat a carpet when it is down.

A Positive CATARRH CURE

Ely's Cream Balm

It cleanses, soothes, heals and protects the diseased membrane. It cures Catarrh and drives away a Cold in the head quick! Restores the senses of taste and smell. Full size, 50c. at druggists or by mail. Trial size 10c by mail. Ely Brothers, 55 Warren street, New York.

HAY FEVER

TRAINLOAD OF BEEVES.

Received by Benson at This Place, for Portland.

T. C. Benson, buyer for the Union Meat company, of Portland, has been in the city today for the purpose of receiving a trainload of beef cattle. It is a lot that was purchased of Blackwell & Jones, of the John Day country, and they are expected to arrive this afternoon.

Mr. Benson arrived last night from La Grande, and was recently in Mon-

tain for the Union Meat company. He says that the range conditions are now good and indicate plenty of fat cattle in the fall. However, he says that the blizzards which prevailed during March had a bad effect, as most of the range stock had been turned out and suffered during the storm. Also, the grass was retarded considerably.

According to Mr. Benson, prices for beef cows now range from 2 to 2 1/2 cents, while good steers are worth 3 cents.

MAX BAER MEN'S SHOP

WE ARE tearing out our old front and installing a new up-to-date one in order to properly display our new and enlarged line of Men's and Boys' up-to-the-minute clothing and furnishings, which will soon be here + + + + +
