WILL HOLD INSTITUTES.

Teachers' Meetings to be Held All Over Oregon.
 Superintendent Ackerman and his corps of assistants are busy compiling the biennial report, which will contain some valuable information concerning the schools of the state, says the Salem Journal.
 He has also arranged for institutes to be held at the following places: North Bend, August 13, 15, 16; La Grande, September 3, 4, 5; Baker City, September 5, 6 and 7; Vale, September 6, 7, 8; Albany, 12, 13, 14; John Day, 10, 11, 12; Burns, 12, 13, 14; Lakeview, September 18, 19; Klamath Falls, September 20, 21, 22; meeting of the department of superintendents in Salem, October 5 and 6; The Dalles, October 17, 18, 19; McMinnville, October 17, 18, 19; Moro, October 22, 23, 24; Hillsboro, October 24, 25, 26; Salem, November 7, 1906.
 The meeting of the Sitae Teachers' association will meet in Salem November 26, 27, 28, and the meeting of the

To rivet your attention in this direction when it comes to purchasing jewelry, as we have a large stock of every kind and description at very moderate prices. We stand back of every piece with our own individual guarantee, so you run no risk whatever.
L. HUNZIKER, Jeweler and Optician

- Mild Ginger Ale 5 cents, Hires Delicious Root Beer 5 cents, Red Grape Phosphate 5 cents, Ginger Frappe 10 cents, Vanilla, Chocolate and Tutti Frutti Ice Cream 10 cts.

AT KOEPPENS' SODA FOUNTAIN

PERSONAL MENTION

F. E. Van Dusen and daughter left this morning for Condon.
 J. A. Cresswell went to Walla Walla today on a business trip.
 Mrs. G. E. Hobbs left this morning for Walla Walla for a few days' visit.
 Miss Ella Anderson left this morning for Moscow on a few days' visit.
 O. E. Hult will leave this evening for Burlington, Iowa, on an extended visit.
 Mr. and Mrs. Bert Blue, left for Walla Walla this morning on a brief visit.
 M. A. McLaughlin of North Fork, has been in town today on a short visit.
 Jack Watson, of the Peoples Warehouse, has returned from a two weeks' trip to Alaska.
 G. F. Downey, of the Eilers' Piano House, left for Athena this morning on a brief business trip.
 Mrs. W. F. Matlock returned home today from Hot Lake, where she has been for the past month.
 Mrs. J. H. Young left this morning for Portland, where she will remain during the hot weather.
 W. A. Storie, of the bridge and building department of the O. R. & N., left today for Umatilla.
 Miss Bertha Alexander has returned from Bingham Springs, where she had been staying for several weeks.
 Mrs. Fred Lockley and son Lawrence will leave tonight for Ilwaco, to remain during the rest of this month.
 Assessor C. P. Strain and family will leave tomorrow evening for the mountains above Milton on a camping trip.
 W. J. Church, cashier of the La Grande National bank, passed down the O. R. & N. this morning to Portland.
 A. F. May left last evening for Walla Walla and other Washington points. He will be absent about two weeks.
 Prof. and Mrs. J. W. Huff have returned from the mountains south of here, where they were camped for several weeks.
 Mrs. E. P. Dodd arrived last night from Baker City, where she visited for several weeks with relatives and friends in that city.
 Councilman W. H. McCormack left this afternoon for Lehman Springs where his family has been staying for the past two weeks.
 Floyd Anderson, of the Workmen's Clothing store, will leave this evening for The Dalles to join his wife and visit for 10 days.
 G. E. Wolfe of Denver, will arrive tomorrow night to be the guest of his brother, B. E. Wolfe, of the O. R. & N. ticket office, for a few days.
 Prof. W. F. Fargo of McMinnville, a newly elected member of the high school faculty, arrived here last evening to prepare for his removal to this city.

eastern division of the state society will meet in Pendleton November 27 and 28.
 This is the program arranged so far. While it will be impossible for Superintendent Ackerman to be present at all of these institutes, he will attend as many as possible.

THIRTY-TWO HORSES RUNAWAY.

Machine and Several Animals Were Damaged.
 J. J. Joy of the threshing firm of Joy & Stanton, was in town today and while here told of an exciting combine runaway which they had near Heltz several days ago.
 There were 32 horses hitched to the machine, and at the time of the runaway the machine was at work and the horses became frightened at the noise made by the patent hitches that were in use. The entire 32 head got beyond control of the driver and ran for 200 yards before they finally "piled" in a small canyon.
 At the outcome of the runaway the machine was found to have been badly damaged, while several of the best horses were considerably injured.
 Herbert Ruppe, the high school student, was tending separator on the machine.
 During the runaway the driver held to his high seat, and though he was in grave danger came out with no injury. Had he been jolted from his seat it would have meant death, as the would doubtless have been crushed by the machine.

NO PAVING INJUNCTION.

Dan J. Malarky Here for Pleasure, Not for Warfare.
 The presence in the city today of Dan J. Malarky, who is an attorney for the Barber Asphalt company, caused a suspicion for a time that he was here to secure an injunction to prevent the Warren company from carrying out its paving contract.
 However, the rumor was found to be unfounded as the Multnomah senator's mission in Pendleton proved to be one of pleasure instead of warfare. To City Attorney John McCourt he stated that he was not here to secure an injunction and that no efforts in that direction were to be taken by the Barber people.
 Mr. Malarky is here for the purpose of visiting the Cunningham ranch, where his boy is now staying.

Canada Will Feed England.

Senator Perley, a pioneer farmer of the Canadian northwest, who last year said that within a decade the Dominion would produce sufficient wheat annually to feed all the people of the British Isles, now declares at Ottawa that this will be accomplished within the next five years. The size of this task is evident by the statement that the United Kingdom buys yearly about 60,000,000 hundredweight of wheat and 20,000,000 hundredweight of wheat flour. The Canadian statistics show exports of \$21,759,823 home-grown wheat and \$2,744,153 wheat flour to Great Britain for the nine months ending March 31. The British statistics show much less wheat received from Canada.

J. L. Scales Very Ill.

J. L. Scales, the well known pioneer, is critically ill today, and owing to his advanced age, 88 years, it is feared that he will not recover. Mr. Scales has always been in rugged health until about a year and a half ago, when he was taken sick and has been ailing more or less continually since that time. He came here from California in 1883 and resides with his son Henry Scales at his home in this city.

Mr. and Mrs. A. C. Benedict, of Springfield, Mo., have arrived here upon a visit with the family of Councilman B. F. Renn. Mr. Benedict is a brother of Mrs. Renn. They will leave at once for Lehman Springs, where the Renn family is staying during the hot weather.

State Senator Dan J. Malarky of Portland, arrived here this morning and has been a guest at the Hotel St. George. He is upon a visit to the ranch of the Cunningham Sheep & Land company, in which he is a stockholder. He is the brother-in-law of J. N. Burgess, manager of the company.

FOUND CATHOLIC COLONY.

Bishop Keane, of Wyoming, Seeking for Locations.
 Bishop J. J. Keane has returned from a trip to Uinta county, where he went to look over some localities with

agricultural possibilities with the view of establishing Catholic colonies in Wyoming, says the Cheyenne Tribune. He was well pleased with what he saw and will leave in a few days for northern Wyoming to investigate other districts in that section.

Although his plans have not been fully decided upon it is very probable that he will pick out some desirable district in the state and induce Catholic farmers from the east to settle in this state. Wyoming has hundreds of thousands of acres which can be made to blossom as the rose with artificial irrigation, and once under water these lands are worth as much if not more than the best farm lands in eastern states.

PRUNE PRICES DROP.

PRUNE IS NOW BUT 1 1/2 CENTS AGAINST 2 1/2 LAST YEAR.
 A special to the Oregonian from Salem, Ore., says: Step by step, the prune market in Oregon has dropped down from a 2 1/2-cent basis early in the season to a 1 1/2-cent basis now. Whether the bottom price has been reached is a question upon which opinions differ and which will probably be determined chiefly by the course growers pursue in selling. Eastern jobbers are confident that the price will be no higher, and some of them assert that it will go lower before the crop is marketed. The prices quoted are those paid to growers. Packers get one-half cent more.
 Early sales of the Willamette Valley prune association were made at as high as 2 1/2 cents, or 2 3/4 cents for the grower and at this price and a quarter of a cent less about 40 cars were disposed of by the association for October and November shipment. Between this figure and the present price about half the Oregon crop has been sold and the market seems now to be rather inactive. Some sales are being made, but growers who did not sell at the higher prices seem disposed to wait now for further developments.

DESECRATED INDIAN GRAVES.

Over 40 Bodies Dug Up by Relic Hunters and Ghouls.
 Word has been received at Chemawa that more than 40 Indian graves have been desecrated in South Salem, Oregon, in the vicinity of Harbor, in Curry county, by parties searching for Indian money and relics. Some of the bodies dug up had not been buried more than a year and a half. The remains were scattered over the ground and left for the dogs and coyotes to devour.
 The Indians are very indignant over the matter and have appealed to Superintendent Frank Kesselka, the agent of the Hoopa reservation, who has general supervision over the Indians of that neighborhood.
 If the federal authorities will take a hand in this it may go hard with the ghouls. Four persons have been arrested by the local authorities on information made, but the officials are very indifferent concerning the matter and not much is expected to come of the arrests.

Fraternities Hall at Lostine.

The contract for the construction of the Fraternal Temple in this city has been awarded to S. R. Haworth of La Grande. The contract price is \$14,000, and the building is to be completed by January 1, 1907. The building will be constructed of brick and will be two stories with a basement. The ground space will be 60x90. This will be the finest and most expensive building in the county.—Lostine Democrat.

The Chinese government is credited with a plan of gradual suppression of the opium evil by annually cutting down the poppy acreage until it is entirely eliminated from Chinese agriculture.

M. H. Harlow this year picked 22,700 pounds of cherries from his two-acre orchard near Eugene. The net profit on both acres was \$712, or \$355 per acre.

We're going to move

Commencing Saturday, Aug. 14th,
 All Summer Trimmed Hats at just
HALF PRICE

As I am going to move my stock next week; and as my trimmed hats might get badly damaged in moving, I am going to close out the entire line at just half-price. You'll have to hurry, as this big removal sale will last
ONE WEEK ONLY

Mrs. Rose Campbell, Millinery
 Judd Block, Court St.

TO SAVE A MILLION

STATE MAY TAKE BACK SCHOOL LANDS.

Speculators Folted in Attempt to Use Blue Mountain Reserve School Sections as Base—Only the State Can Use School Land Base—Speculators Now Have \$1,000,000 Worth of Raw Land for Sale.
 The state of Oregon is the loser to the extent of over a million dollars by the advance knowledge obtained by speculators in school lands, of the intention of the government to establish the Blue mountain forest reserve. The reserve embraces altogether about 175 townships and in each of those townships are two school sections—16 and 36—which means 224,000 acres.
 Pending the final decision of the government to create the reserve, the speculators who possessed inside knowledge had filed applications with the state land department for the purchase of perhaps 50 per cent of the school lands at \$1.25 an acre, the expectation being that as soon as the reserve should be proclaimed they would have the option of holding the lands or using them as a base for speculation somewhere else.
 In this calculation they were mistaken. The right to use such lands as base was taken away from private owners and is now enjoyed by the state only, so that the scheming avarice of the fellow with the "tip" is that far circumvented.
 Previous to the regulations surrounding this reserve the individual had the same right as the state to use reserve school sections as base for sections elsewhere, with the individual privilege in favor of the individual that he could select lieu lands in any state in which he could find public lands, while the state was confined to its own territory.
 In this instance the state would have the best of it were it still the owner of any large proportion of its 350 sections of land, but unfortunately there is only about 10 per cent of it left. The state could dispose of practically every acre of it at \$7 an acre as base, which would make a net gain to the school fund of over \$1,000,000.
 There is a way in which it is possible to make the greater portion of this good to the state. The speculators did not want the school sections in that reserve for the lands they contained, nine-tenths of them being worthless for practical purposes, hence with the power of using them as base

lost to the owners they are probably sick of their bargains.
 It would be possible, then, for the state to have the certificates of purchase surrendered to the state. By refunding the payments made thereon which would leave the state the original owner of the lands and entitled to use them as base.
 The state land department, however, has no power under the law to take such a step, so the only way to do it will be for the legislature to pass an act authorizing it and the matter will be brought to the attention of the next assembly with that end in view.

Miss Lydia Potter was thrown from a horse near Eugene, and her skull and right arm broken. She is unconscious and in a serious condition.

IRON WORKS WILL STAND PAT

PENDLETON INSTITUTION GUARANTEES TO DEFEND ITS CUSTOMERS AGAINST CALIFORNIA FIRM.

Pendleton, Or., August 4, 1906. To the Farmers of Umatilla County: Our attention has been called to circular letters sent out by Schmeisler Manufacturing company, of Davisville, Cal., to our customers and other farmers of this county, claiming that we have no right to sell the Pendleton Hitch, patented by Wentgen. This we feel to be a great injustice not only to our many customers who are using the equalizer made by us, but it is an unjust and dishonest method of business. These letters, if left unanswered, may create dissatisfaction which will cause injury to us that may, if necessary require the aid of the courts to remedy. We propose to defend our right and the right of our customers and are as able to meet our unfair and unreliable competitor as he is to meet us.

He has no patent. He has no rights that we are bound to recognize. We have the right and privilege through purchase, to the patent, No. 294,608, on which we make the Pendleton Hitch. We bought it from Joe Wentgen, the inventor, of Seattle, and have the papers to show for it. Though the Schmeisler Manufacturing company may threaten our patrons with damages of \$2500 each, we hereby pledge ourselves to stand between any one or all of our customers and any damage they may suffer from the Schmeisler Manufacturing company.
 PENDLETON IRON WORKS.
